The Redesigned SAT®: Concordance

During the transition from the current SAT® to the redesigned SAT and PSAT™-related assessments, the College Board will provide a concordance between the scores on the current SAT and the redesigned SAT that shows how to relate the scores of one test to the scores of the other.

### Key Dates to Remember

#### 2015

<table>
<thead>
<tr>
<th>October</th>
<th>First administration of the redesigned PSAT/NMSQT®</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Preliminary concordance tables will be released in winter 2015 to link the pre-2015 PSAT/NMSQT to the redesigned PSAT/NMSQT</td>
</tr>
</tbody>
</table>

#### 2016

<table>
<thead>
<tr>
<th>March</th>
<th>First administration of the redesigned SAT</th>
</tr>
</thead>
<tbody>
<tr>
<td>May</td>
<td>First scores from the redesigned SAT received on campus</td>
</tr>
<tr>
<td></td>
<td>Final concordance tables will be available on the College Board website</td>
</tr>
</tbody>
</table>

| Summer/Fall   | First time for students to submit both current and redesigned SAT scores |

### Concordance Tables and Key Uses

In order to meet the various needs of different campuses, the College Board will release tables for three levels of concordance for the redesigned SAT:

1. Total-to-Total Concordance
2. Section-to-Section Concordance
3. Section-to-Test (or Test-to-Section) Concordance

These tables will allow colleges to use concorded scores for the four most essential functions they have identified:

1. Compare scores on the redesigned SAT to current SAT or ACT scores
2. Determine a policy score on the redesigned SAT that is comparable to a current SAT policy score
3. Convert a redesigned SAT score to a current SAT score for use in a predictive model or index
4. Compute comparable scores to use in internal and external reports
Concordance Tools

Concordance tables will be available in several formats and can be accessed in print and online. The College Board plans to provide a variety of concordance tools, including:

**Smartphone Apps**

The College Board will launch both an iPhone and an Android version of an app that provides the same functionality as the old score conversion slider. These applications will be available when scores for the first redesigned SAT are released in spring 2016.

**Web-Based Tool**

The College Board will provide a Web-based concordance tool that delivers the same functionality as the apps, enabling users to make score-to-score conversions.

**Large-Scale Concordance**

Higher education institutions may also need tools to convert large numbers of scores quickly. Many higher education institutions will use concordance tables to convert the scores within their admission systems. For those who are looking to convert scores outside their system, we will provide a spreadsheet template they can use for their conversions.

---

**Concording Scores for the High School Class of 2016**

Most applicants from the class of 2016 will submit current SAT scores only; most colleges will convert any redesigned SAT scores to current SAT scores for this cohort.

**Concording Scores for the High School Class of 2017**

Most applicants for the class of 2017 will submit redesigned SAT scores only, most colleges will convert current SAT scores to redesigned SAT scores for this cohort.

Prepare for the transition from the current to the redesigned SAT with key information about concordance. Visit collegereadiness.collegeboard.org.
