Introduction

As the SAT School Day proctor, you play an important role in ensuring the successful administration of the SAT, a key milestone on the path to college for many students. Taking the SAT during the school day in a familiar, easily accessible environment allows students to demonstrate college and career readiness. It also means more students can participate in College Board programs that support college access.

Using This Manual

This manual is for proctors’ use for SAT School Day testing only (not Saturday or Sunday testing) in spring 2019. Use this manual in the accommodated room. Please do not share it with students or anyone else besides testing staff.

Where appropriate, the content is organized with tasks (what you need to do), followed by key information (what you need to know) related to those tasks. For example, tasks related to room setup are followed by key information about seating requirements.

Before the Test
Before the test you’ll need to participate in training provided by your test coordinator, and you’ll need to prepare your room and materials. Completing the tasks in this section prepares you for testing.

During the Test
You’ll administer the test by reading aloud the scripts exactly as they appear in this manual. Scripts appear in shaded areas; all other text is for your information and not to be read aloud.

After the Test
After the test you’ll have a few things to do to wrap up the administration, such as accounting for all materials and returning them to the test coordinator. Completing the tasks in this section ensures that students receive their scores.

Appendix Resources
We provide the following sample forms, schedules, and other resources in the Appendix of this manual (see the Table of Contents for a complete list with page references):

New for Spring 2019

Important Changes
The College Board has made a number of enhancements for this school year. Some of the enhancements include making test administration easier for students and for schools.

1. We have changed the staff titles for SAT School Day to better align with other College Board programs and general educational practice.
   a. The test supervisor will now be known as the SAT School Day coordinator, or simply the test coordinator. We’ve revised any titles of forms to support this change. For example, the Supervisor Irregularity Report has become the Irregularity Report.
   b. Associate supervisors will now be known as proctors.
   c. Hall and room proctors will now be known as hall and room monitors.
d. Here’s a summary of the new titles:

<table>

2. The answer sheets have changed:
   a. You will now receive one SAT answer sheet for administering either the SAT or the SAT with Essay. Before the test begins, you’ll read instructions to students to fill in the bubble on the answer sheet identifying the test they are taking. The proctor scripts also include explanations to students who won’t be using the SAT Essay portion on their answer sheets.
   b. Students taking the SAT with Essay will be directed to copy the single-character Essay Code from the back of their Essay books onto their answer sheets before starting the Essay portion of the test.
   c. We have also improved the sequence of fields on the answer sheet.

3. A Mobile Opt-In Policies document is provided for students to use when completing the non-test information on the answer sheet. Students will use the information to decide whether to share their mobile phone number, and they can take a copy of the policies document home for future reference.

4. All multiple-choice test books, including those used by students taking the SAT with Essay, will have the same title, The SAT Test Book (with no Essay icon). Essay books, if you are administering the Essay, will be separate from the multiple-choice test books. (Note that flash drives for the MP3 audio and ATC formats include both the multiple-choice and the Essay portions, so each student uses just a single drive.)

5. We continue to expand the supports offered for English Learner (EL) students.
   a. EL students will now be eligible to test with 50% extended time. Students approved for this support will receive college-reportable scores.
   b. The 50% extended time EL support must be entered in SSD Online by the EL deadline.
   c. EL students testing with 50% extended time will use the same materials as students with disabilities approved for 50% extended time testing, and they can be tested in the accommodated room as long as no additional accommodations are being administered that might require different timing or breaks.

Testing Basics

About the SAT

The SAT is part of the SAT Suite of Assessments, closely aligned assessments that reflect what students are already learning in their classrooms and help educators monitor student progress. Visit sat.org to learn more about the SAT Suite.

The SAT focuses on the skills and knowledge that research indicates are essential for career and college success.

Standardized Testing

Uniform procedures are essential to a standardized testing program. To ensure comparable scores, testing staff must follow the same testing procedures and give instructions exactly as they appear in this manual.

Please ensure that you comply with all applicable laws, including those relating to discrimination. By strictly following our policies and procedures, you give students the best guarantee of fair testing and the best possible test day experience.

As the proctor, you are responsible for conducting a secure, valid administration. You are accountable for everyone in the testing room and everything that takes place there. You will account for all testing materials, conduct the testing, appropriately document irregularities, and monitor students to ensure a fair administration.

If you also serve as the SSD coordinator for your school, you will have other responsibilities as well. The SSD coordinator works with students to apply for College Board–approved accommodations and EL students who require 50% extended time through the SSD online portal. In addition, the SSD coordinator accesses and prints the Nonstandard Administration Report (NAR) and assists the SAT School Day coordinator in determining testing rooms and staff needed for administering the test with accommodations. All testing materials, including accommodated materials for use during the accommodated testing window, are shipped to the test coordinator; however, the SSD coordinator can assist in ensuring the secure storage and timely return of any materials that remain in use after standard materials used on the primary test date have been returned for scoring.

Test Types

SAT School Day offers three ordering and administration options:

1. SAT (students won’t take the Essay)
2. SAT with Essay (all students take the Essay)
3. Both SAT and SAT with Essay (some students will take the Essay and some won’t)
Test Sections and Timing

Everyone testing on the primary test date will need to begin testing at the same time. Use the sample schedules in the Appendix to aid in planning.

The SAT is composed of several tests that follow the same order in every test book.

Evidence-Based Reading and Writing: Includes a Reading Test and a Writing and Language Test. Each test is composed of multiparagraph passages and multiple-choice questions.

Time allotted:
- 65 minutes for Reading
- 35 minutes for Writing and Language

Math: Includes one portion that permits calculator use and one that does not. Each portion is composed of multiple-choice and student-produced response questions.

Time allotted:
- 25 minutes for Math Test – No Calculator
- 55 minutes for Math Test – Calculator

SAT Essay (in separate book): Students are asked to read a passage and analyze how the author builds an argument to persuade an audience.

Time allotted:
- 50 minutes

Accommodated Testing Overview

The College Board is dedicated to ensuring that students with disabilities receive appropriate accommodations on tests, such as braille, large-print tests, and extended time. Using the College Board’s SSD Online system, SSD coordinators can manage student requests and approvals for accommodations. Once approved, with limited exceptions, students remain approved for College Board accommodations until one year after high school graduation.

See Preparing for Testing with Accommodations on page 14 for more information.

Most students will test in one or two days, and the schedules in this manual reflect that. There may however be some students who will require more than two days for testing (for example, if they require more than 100% extended time or if testing time is limited).

Terminology

See the Glossary of Terms on page 114 for definitions of frequently used terms and acronyms.

**IMPORTANT:** Students using the 50% extended time EL support receive extended time on the entire assessment.

*Students approved for writing-only extended time receive extended time only on the SAT Essay. If taking the SAT (no Essay), these students test in the standard room with standard time (unless they have other accommodations that can’t be provided in the standard room).
Forms and Reporting
You need to be familiar with the reports and forms used in the testing room.

Testing Room Materials Report Form
The Testing Room Materials Report form is provided on the back cover of this manual.

- The test coordinator uses the Testing Room Materials Report form to indicate testing room information, including the proctor assigned to the room, the testing room code, and the test materials issued to the proctor.
- Inside the testing room, the proctor uses the Testing Room Materials Report form to check the testing materials received against the serial numbers listed on the form.
- If applicable, the proctor should check the number of Essay books received from the test coordinator and record the number returned to the test coordinator.
- As indicated in the scripts, the proctor uses the seating chart on the back of the Testing Room Materials Report form to record the serial number of the multiple-choice test book distributed to each seat in the room.
- If possible, staff should include the last name of each student. If any issues arise, the chart will be used in investigating reported irregularities.

Request to Cancel Test Scores Form
Students use this form to request score cancellation, which means their scores will not be reported to them or to any colleges. Direct students to fill out the form with exactly the same information that’s given on their answer sheets or pre-ID labels, if applicable.

Students must sign and date the form, then submit it in one of the following ways:

- Hand the form to the testing staff before leaving on the day of the test.
- Fax the form to the number indicated no later than 11:59 p.m. ET on the fourth weekday following the date testing ends. (For example, the fourth weekday following a test administered on a Tuesday would be the next Monday.)
- Send the form by overnight delivery to the address indicated, to arrive no later than 11:59 p.m. ET on the fourth weekday following the date testing ends.

Scores cannot be canceled by email or phone.

A student may cancel their scores using the SAT School Day Request to Cancel Test Scores form in instances of equipment failure or illness. Fill out an IR in these cases. Students will be eligible for a makeup administration. An IR is not necessary for other situations where students elect to cancel their scores.

SAT School Day Irregularity Report (IR)
You will receive at least one blank IR to use in the event an irregularity occurs during School Day testing. The testing staff performs a critical role in reporting irregularities and affected students.

Without information, the College Board can’t resolve issues that arise. All IRs submitted are thoroughly reviewed. Refer to the Irregularity Chart on page 102 in the Appendix for instruction on when to fill out an IR.
Prepare Yourself

TASKS
- Read this entire manual.
- Sign the Testing Staff Agreement.
- Meet with your test coordinator to ensure you have plans in place for testing students with accommodations and/or EL supports.
- Conduct a preadministration session at your test coordinator’s direction.

Prepare to Serve as SSD Coordinator
If you are the SSD coordinator for your school, you will have some additional tasks to complete to ensure that students who need accommodations can test successfully.

Request Accommodations and EL Supports
The SSD coordinator will manage the approval process for your students. All accommodations must be approved in advance in SSD Online. Some requests will be automatically approved upon submission, while others will require documentation. Requests that require documentation review may take approximately seven weeks to process from the date we receive all documentation.

- Accommodation requests are submitted by the SSD coordinator in the College Board's online request system, SSD Online.
- The SSD coordinator will also work with the test coordinator to determine which students will be using the EL support of 50% extended time and submit the request in SSD Online.
- Each school must have 1 SSD coordinator but may have more.
- For detailed instructions on how to get access, see collegeboard.org/ssdonline.

Work with the Test Coordinator
The SSD coordinator and the test coordinator must collaborate to ensure a smooth administration. The SSD coordinator will need to supply the test coordinator with:
- A copy of the NAR. The SSD coordinator will need to review the students listed on the NAR to confirm that all students are reflected as anticipated. Any student approved for accommodations who is eligible to test but who doesn’t appear on the NAR can be selected through SSD Online.
- A list of students approved for accommodations, and notification of any updates. This includes any students who will be using the 50% extended time EL support. See Plan for Seating Accommodated Students on page 15 for more information about specific accommodations.
- A list of needed support staff for accommodated students.
- Help with setting up any computers for typed essays or computer-based formats (e.g., flash drives for ATC or MP3 format).
- Assistance with planning for rooms and materials.

Review Approved Students
The SSD coordinator will:
- Identify students who will be testing this year and confirm accommodations.
- Use the dashboard in SSD Online to look up students or print the eligibility roster. The roster lists all students approved for accommodations at your school.
- For new students or students who need accommodations that have not yet been requested, submit a request in SSD Online.
- For students with previously approved accommodations, verify the following information. If updates are needed, submit a change request in SSD Online.
  - The accommodations approved match the student’s current identified accommodation needs.
  - The student’s name, birth date, and graduation date are correct.
- For any students no longer at your school, note the information on the eligibility roster. Mail or fax the roster to the SSD office to have students removed from your dashboard and reports. Contact information is provided at collegeboard.org/ssdonline.
- Students with previously approved accommodations who recently transferred to your school can be transferred to your school’s SSD dashboard by submitting a request in SSD Online. On the first screen of questions, respond that a request for accommodations has already been submitted, and that the student is a transfer student.
Download and Verify the NAR
The SSD coordinator will need to supply the test coordinator with the NAR in the weeks leading up to the test administration. The NAR will be available beginning about 30 days before the primary test date. The NAR will be updated as accommodations are approved. A final NAR should be provided to the test coordinator in the days before testing to ensure proper planning for test day.

If students are approved for accommodations after the ordering system is closed, the SSD coordinator can contact the SSD office to arrange for materials and add these students to the NAR.

Plan for Support Staff for Accommodated Students
Students may be approved for accommodations such as a reader to dictate test questions, a sign language interpreter (for directions only), or a scribe to record responses. When students are approved for these accommodations, the SSD coordinator and test coordinator should work together to make sure that sufficient staff and rooms are provided.

Here are some general notes about support staff:
- Students assisted by a reader or a scribe:
  - Will test with 50% extended time, unless approved for more extended time.
  - If taking the SAT with Essay, will test over 2 days.
  - Must have their own reader (readers cannot be shared).
- Students who are deaf or hearing-impaired may:
  - Have a sign language interpreter translate test directions from spoken English. Sign language interpreters may only provide translations of your instructions to the student, not of test content.
  - Be approved to have a copy of the spoken directions and/or blank paper for communicating with the test administrator available on test day.

Help the test coordinator identify support staff:
- Use the NAR to determine which students require support staff.
- Develop a list of support staff for the test coordinator to assign to students approved for them. Any staff selected must meet all SAT staff requirements.
- Never suggest a person to assist a student who is a relative of that student.
- List a single reader or scribe for each student (students may not share support staff).
- Notify scribes and readers that their students will take the test with 50% extended time for reading unless a student is already approved for 100% (or more) extended time.

You’ll be provided additional materials (for example, a reader’s script) for support staff. The test coordinator will distribute these materials to these assistants when they distribute other test materials during the test administration.

- Students may use the Guide to the Nemeth Code if they are taking the braille format of the SAT.
- Students who use readers or audio files in conjunction with other formats will find that the texts may differ slightly because the script read by a reader or recorded on the audio file describes the figures in greater detail than given in other formats.

Materials Provided for Accommodated Testing
As SSD coordinator, you will assist the test coordinator in confirming that you’ve received all the materials required for accommodated students as well as students using the 50% extended time EL support.

For some accommodations, you’ll receive regular and large-type test books and/or regular and large-block answer sheets and instructions. These extra materials are included to cover the different needs of your students and support staff, where applicable. The test coordinator will return any unused materials with the test book returns after all testing is completed.

IMPORTANT: Refer to the NAR to see which test book type to use with specific accommodations.

Preparing for Testing with Accommodations

Review the tasks and key information that apply to the accommodations you are providing in your room.

The College Board requires preapproval for all accommodations. Providing accommodations without authorization may result in the student’s scores being canceled. To help ensure that the students testing in your school receive reportable scores, provide testing accommodations only under one of the following conditions:

- The student is included in the school’s online dashboard of students with approved accommodations (available to the SSD coordinator through the SSD Online system).
- The student appears on the online NAR accessed by the SSD coordinator.
- Your SSD coordinator has verified the student’s eligibility with the College Board SSD office.
- The student has a documented College Board approval for accommodations.

Students who are approved for accommodations will fall into these groups, as indicated on the NAR:

- Those who will use standard (purple) testing materials must test on the primary School Day test date.
- Those who will use accommodated (blue) testing materials may test on any day during the accommodated testing window.

The NAR will list each group in its own section. For general guidelines, refer to the Testing Materials Distribution on page 7 for a list of the accommodations that typically fall into each group along with which manuals and rooms the test coordinator should assign students with accommodations to.

Accommodated students must adhere to all standard testing administrative procedures, requirements, and timing regulations, unless otherwise approved as an accommodation. Students approved to test with accommodations cannot elect to test without those accommodations unless they present a written statement signed by a parent/guardian or by the student if over 18 years of age. File these letters in the students’ records. (Don’t return them to the College Board.)

**TASKS**

**Prepare to Use the Scripts**

Your test coordinator will provide a copy of the NAR or room roster with the students assigned to your room and their accommodations. A day or two before test day, review the list and make sure all of the students in your room are taking the same test with the same timing. There are six test scripts for the SAT based on the type of accommodation(s) a student is approved for, and the NAR will tell you which one(s) to use. The first three scripts may be used with either the standard (purple) materials on the primary test day or with specific accommodated (blue) materials during the accommodated testing window. The second three scripts are used with the specific accommodated (blue) materials during the accommodated testing window. Take time to study the NAR and the Key Information later in this section to make sure you are ready to use the correct script(s) for the students assigned to your room.

Review the chart Overview of Accommodated Timing and Breaks on page 91, and map out any shifts from one script to another that might be needed in your room.

These are the scripts:

- Script 1: Standard Time for Accommodated Students
- Script 2: Standard Time with Extra Breaks
- Script 3: 50% Extended Time for 1-Day Testing
- Script 4: 100% Extended Time
- Script 5: 50% Extended Time for 2-Day Testing
- Script 6: MP3 Audio Format

**Plan for Computer Usage**

If you are testing students with any of the following accommodations, your school must provide a computer for the student (a student may not use a personal computer or a computer belonging to their family):

- Computer use for the Essay
- MP3 audio format
- ATC format
- Electronic braille writer (braille notetaker)

Make sure the appropriate computers are provided.

- For students using flash drives (e.g., for ATC or MP3 format), make sure the computers have USB ports.
- For students approved to use a computer for the Essay, make sure the computer has word processing software. The computer must be attached to a working printer.
- Provide a monitor to connect to a braille notetaker so the proctor can see what the student is typing.
Preparing for Testing with Accommodations

Before Test Day

Test the equipment before test day and ensure that important precautions for electronic equipment are followed. For tips and practice tests in MP3 audio and ATC format, go to collegeboard.org/students-with-disabilities/after-approval. See Prepare Your Room for Test Day on page 19 for related tasks and information.

Plan for Seating Accommodated Students

Your test coordinator may need assistance assigning accommodated students to appropriate rooms. The testing group on the NAR indicates students who may test together. See Sample Nonstandard Administration Report (NAR) on page 98.

- Students with the same type of timing may be seated together, if so noted on your NAR.
- Students who require different timing or breaks must be tested in separate rooms, as noted on your NAR.
- Use of more than one test room is required if a student’s accommodations would disturb other students or if the student is approved for 1-to-1 testing. Students who are approved for a reader or scribe must test in a 1-to-1 setting. These scenarios are noted on your NAR.
- For students approved for use of MP3 audio and ATC formats, a computer must be provided.
  - These formats are provided on flash drives. Any computer used for testing with these formats must have a USB port to accept the flash drive.
  - Students using text-to-speech software or MP3 audio formats who do not have earphones must test in separate rooms.
- For students using a computer, see the requirements in Plan for Computer Usage earlier in this section.

For testing students with accommodations or supports, bear in mind that students can be seated in the same room only if they will be using the same color testing materials and the same testing scripts and schedule. For example:

- Students with disabilities approved for 50% extended time for reading can test in the same room as students using the EL support of 50% extended time as long as they are taking the same test: SAT with purple materials and 1-day testing or SAT with Essay with blue materials and 2-day testing.
- Students with disabilities approved for 50% extended time for math only are tested with both Script 1 and Script 3, while students approved for 50% extended time for reading are tested with a single script (Script 3 or Script 5). These students cannot test in the same room.

Please note that some accommodations may be provided in a standard testing room. These include:

- preferential seating
- wheelchair access
- use of a large-block answer sheet
- permission for food or medication
- use of a 14-point large-print test book, a magnifier, or a sign language interpreter for oral instructions
- auditory amplification or FM system
- a colored overlay
- approval to record answers in the test book

If a student is approved for one of these accommodations, and is not approved for another accommodation that would require a separate setting, the test coordinator should assign the student to a standard testing room.

If you have a question about room assignments for a specific accommodation, refer to the NAR or contact the SSD office.

The proctor should seat students using a large-print test, a large-block answer sheet, a calculator with large or raised display, or a magnifier/magnifying machine in the back of the room.

Plan for Transcribing Answers

For students using braille writers or other devices, or who are approved to write their answers in test books, the proctor, the SSD coordinator, or the support staff person assigned to the student must transfer the answers (except for the essay) to the answer sheet after the student completes the test.

- For braille writers:
  - Make sure the student’s identifying information on the answer sheet is complete.
  - Fill in the bubbles on the regular answer sheet corresponding to the answers chosen by the student.
  - Return braille pages and any scratch paper to you for return in the white Accommodated Testing Envelope.

- For students who are approved to write the answers in their test books:
  - Make sure the student’s identifying information on the answer sheet is complete.
  - Fill in the bubbles on the regular answer sheet corresponding to the answers chosen by the student.
  - Write “Answers in Book” on the front cover of the student’s test book.
  - Clip the answer sheet to the test book for inclusion in the white Accommodated Testing Envelope.
KEY INFORMATION

Types of Accommodations and Materials
The College Board offers extended time; special formats such as braille, MP3 audio, and large-print materials; and other accommodations to approved students with documented needs. Some students may be approved for one or more alternate test formats. A brief explanation of how to administer these accommodations follows.

The information here, along with the information on the NAR, will help you plan for administering the test to students using these formats.

Accommodated Timing and Breaks
Some of your students may be approved for accommodations that require different timing and/or breaks for one or more sections on the test.

- Students will get extended time only for the subject area(s) they’re approved for (e.g., math only or writing only). Exception: Students approved for extended time for reading and EL students testing with 50% extended time will receive extended time for the entire test.
- You may need to use combinations of scripts for some students. See the Overview of Accommodated Timing and Breaks on page 91 for detailed information about which scripts to use for various accommodations. The NAR also has instructions for which script(s) to use for each student.
- A student can be approved for accommodated breaks of various types. During their breaks, students who are approved for extra breaks, extended breaks, and breaks “as needed” are still subject to the same regulations that apply to standard breaks. Post break times for them as noted in the scripts.

Administer accommodated breaks as follows:

- **Extra Breaks**: Give students who are approved for extra breaks the same breaks that extended time students receive, as noted in the scripts: a break in between each test section, and an extra break in the middle of Sections 1 and 4, and the SAT Essay, if applicable.
- **Extended Breaks**: Give extended breaks to approved students by doubling the standard time of regularly scheduled breaks. If you have students who are approved for both extra and extended breaks, provide 10-minute breaks between each test section; if students ask to resume testing sooner, they may, but you shouldn’t prompt students to end their breaks early.

- **Breaks “As Needed”**: When a student is approved for breaks “as needed,” they may take a break during a test section. Most students’ needs are met with a 10-minute break. However, if a student requests additional time, grant the request, within reason. This time does not count toward testing time (that is, the testing clock stops).

Accommodated Testing on One Day
The first three scripts in this manual can be used for all types of one-day testing.

- **Script 1**: Standard Time with Accommodations
- **Script 2**: Standard Time with Extra Breaks
- **Script 3**: 50% Extended Time for One-Day Testing. This script covers 1-day testing for students:
  - testing with 50% extended time for math (Math Test only)
  - taking the SAT with no Essay and testing with 50% extended time for reading, use of a reader or scribe, or the 50% extended time EL support (entire assessment)
  - taking the SAT with Essay and testing with 50% extended time for writing (Essay only)

Accommodated Testing During the Window
The accommodated testing window begins on the primary test date and extends through the following two weeks. Testing during the window encompasses combinations of accommodations, and may involve using the following scripts or combinations of any of the scripts in the manual. The NAR includes specific instructions for combining scripts.

- **Script 4**: 100% Extended Time. This script covers:
  - 1-day testing for math only, 100% extended time
  - 1-day testing for writing only, 100% extended time on the SAT with Essay
  - 2-day testing for reading, 100% extended time
  - 2-day testing for combined math and writing, 100% extended time on the SAT with Essay

**IMPORTANT**: Students using the ATC format must receive 100% extended time for Section 2. All other sections should be timed based on the student’s approved accommodations.

- **Script 5**: 50% Extended Time for Two-Day Testing. This script covers 2-day testing for students taking the SAT with Essay with 50% extended time on the entire test (for reading, use of a reader or scribe, or the 50% extended time EL support).
- **Script 6**: MP3 Audio Format Script. This script covers 2-day testing of students using the MP3 audio format, including 100% extended time, plus an additional 45 minutes for Section 2 of the test.
Accommodated Testing Over Two Days
Students may only test over two days if they are approved for an accommodation or support that requires two-day testing. All students testing over two days should be tested as early in the window as possible and over consecutive days whenever possible. Students who are absent on the second day should resume testing on the day they return to school. In most cases, testing on the first day will end with Section 3. You will return the materials to your test coordinator for secure overnight storage. Students will complete the test on the second day.

Large Print
Students who test with large print (14-point, 20-point, or larger font) test with standard time and breaks unless approved for other accommodations.

Braille Test Formats
- Students who test with braille test formats test with standard time and breaks unless approved for other accommodations.
- Braille test formats are in Unified English Braille (UEB) with Nemeth Code for math.
- To supplement each braille test and accompanying braille Essay book (when applicable), a regular-type test book and Essay book are included for your use as a reference. A reader's script will also be sent in case the student asks to have a question read.
- Provide each student with a copy of the Guide to the Nemeth Code and the Braille Reference Information (a braille math reference book). The Guide to the Nemeth Code lists the current versions of Nemeth Code mathematical symbols with their meanings. Students taking the braille test or using the graphs and figures supplement may refer to the Guide during the test. The Braille Reference Information contains math reference material required for the braille test.

Braille Graphs and Figures
Some students who don’t read braille may be approved to use the accommodation of braille graphs and figures (along with a reader or MP3 audio format). Labels and numbers given with braille figures can be found in corresponding locations in both the regular-type and large-type tests.

MP3 and ATC
The MP3 audio and ATC test formats are delivered as computer files on flash drives. To use either format, a student must have a school-provided computer. Chromebook, Mac®, and Windows formats are supported. For flash drives, a USB port is required, so a tablet may not be used to take the test.

The MP3 audio format is an audio recording of the test. It consists of read-only files and a built-in player to deliver the test content.

- Setup for MP3 testing should be done in advance of test day to ensure a smooth administration.
- The MP3 audio format provides the actual test as an audio recording for the student to listen to. All sections of the test, including the Essay, are included in one set of MP3 audio files.

The ATC format is composed of five Microsoft® Word files created to work with students’ assistive technology, such as screen magnification or screen readers. The ATC format has been tested with ZoomText® (with and without reader), JAWS®, and NVDA, on both a PC and a Mac laptop. If you have a student who is using other assistive technology, encourage them to try a practice test, as some of the freeware or less commonly used screen readers may not be compatible with ATC files. When using VoiceOver on a Mac, the student must use the mouse, not the keyboard, for navigation. Additionally, Kurzweil doesn’t offer enough functionality to be used for the SAT.

- Students using the ATC format need to double-click on a separate file for each section and enter the password printed on the ATC packaging. When timing of each section ends, they need to close the file.
- During testing, allow these students to keep the ATC packaging at their desks, and be ready to help students locate the password on the inside flap of the envelope and give students time to open the file before you start each timed section. Once a student has successfully entered the password for a test section, they should be instructed to place the ATC packaging under their desk.

Prepare Computers for Accommodated Testing
If you are testing students who are approved for an accommodation that requires a computer, you need to make sure the computer(s) are ready for test day.

- When a student is approved for the use of a computer for the SAT Essay, they are approved only for the use of a word processor to complete the Essay task.
- Software or assistive technology, such as screen readers, may only be used when specifically approved in SSD Online.
- Make sure that computers are not connected to the internet or to any network (disable all LAN or Ethernet connections). Disable all unapproved assistive features such as spell-checkers, grammar checkers, thesauruses, dictionaries, or word processing features (for example, cut and paste).
Before Test Day  Prepare Computers for Accommodated Testing

TASKS
Typed Essays
Typed essays must comply with certain guidelines to be properly scored and for the students to receive online images of their essays. Set up and test the computer and word processor to meet the following criteria:

- Computer is connected to a working printer.
- Access to the internet is disabled as well as all assistive features noted earlier. If you cannot disable these features, you must monitor students to ensure that they do not use them.
- Page setup requirements are met. (Refer to Page Settings for Printing Essays on page 19 for specific fonts and other formatting details.)

Braille Writers
Manual braille writers (for example, Perkins Brailler) may be used for all test sections, but electronic braille writers/notetakers (for example, Braille Note) may only be used for essay writing and math calculations. An electronic braille writer may not be connected to any network, but it must be connected to a monitor so that the proctor can see what the student is typing. In addition, a student may not use a personal computer or a computer belonging to their family as a braille writer.

Flash Drives
The MP3 audio and ATC test formats are delivered on flash drives; therefore a student must have a computer with a USB port. Chromebook, Mac, and Windows formats are supported. Since a USB port is required, a tablet may not be used to take the test.

- Before test day, check each flash drive to ensure its functionality.
- Ensure each student's computer is powered on and the flash drive inserted.
- Disconnect the computer from any networks and from the internet.
- Verify that all spelling and grammar check tools are disabled. Errors that are to be identified by the student as part of the assessment must not be flagged by software.
- Read the setup instructions given here for these devices thoroughly so that they are ready for use on test day.
- After ensuring the devices function properly, remove and securely store each flash drive in its original packaging for use on test day.

Setup for MP3 testing should be done in advance of test day to ensure a smooth administration. From time to time, a license may fail on specific machines or USB ports. If you experience error messages referring to media authorization or unlocking of media and/or licenses, follow the instructions under Troubleshooting for Flash Drive Formats later in this section.

If you have any questions or would like support in this process, please contact SSD.

Set Up Computers for MP3 Audio Users
The MP3 audio flash drive contains read-only files and a built-in player to deliver the test content.

1. Print the student's last name, first name, and middle initial on the back of the MP3 package, and on the back cover of the accompanying regular- or large-print test book.
2. Remove each flash drive from its packaging.
3. Insert the flash drive into a USB port.

Set Up PCs or Macs
- Open the flash drive:
  - On both PCs and Macs, find the icon in the lower left of your screen.
  - On a Mac, click on the icon to open Finder.
  - You should see a description of the drive in the pop-up list.
- On a PC, right click on the icon and select File Manager or File/Windows Explorer. The flash drive will appear in the list labeled This PC or Computer.
  - Double-click the name of the drive.
  - Start the software: Double-click the software application icon, which is labeled Start (".exe" on PC or ".app" on Mac).
    - A media player named Flux Player will launch.
    - When you launch the application, a table of contents will display the sections of the test.

Set Up Chromebooks
Start the software: Click the Launcher, the icon on the far left of the taskbar.

- Select Files, which will bring up another taskbar.
- Find the flash drive in the task list and click it to display a list of file folders on the drive.
- Open the folder called Chrome_Version to access the test sections.
Set Up Computers for ATC Users

1. Print the student’s last name, first name, and middle initial on the back of the ATC package.
2. Remove each flash drive from its packaging.
3. Insert the flash drive into a USB port on a computer that has Microsoft Word and the student’s usual assistive software installed (JAWS or ZoomText for example).
4. You will be asked to enter a password. Enter the password that is on the label in the package containing the flash drive. You must share the password with the student testing and make sure they have access to it during testing.

KEY INFORMATION

Troubleshooting for Flash Drive Formats
If you see an error message about failed authorization or unlocking of media files or if you encounter other problems related to the flash drive, first try changing to a different computer. If you still encounter a problem, follow these steps:

- From within the Flux Player, select the Help drop-down menu.
- Click Contact support.
- In the Describe your issue box, type “Failed to apply license file” or any other message that describes the problem.
- Type in the email address so the fix can be emailed to you. (If you have a technical support person, use their email address.)
- Check the box for “I agree to collect support related information about this computer” (this step identifies which license you need).
- Click Send.

Technical support will review the request and respond with specific instructions.

If technical difficulties are encountered during the test, the proctor should pause the test timing and instruct the student to step away from the computer. Once they have resolved the issue, they can permit the student to return to the computer and resume test timing. If you have any questions during the test administration, contact the SSD Office.

Prepare Your Room for Test Day

Prepare to Collect Student Belongings
The College Board requires testing staff to collect mobile phones, wearable technology, and other prohibited electronic devices (if permitted under school policy) before administering the SAT. Plan ahead for collecting electronic devices and backpacks as students enter the testing room.

During check-in, instruct students to power off electronic devices. If collecting devices, be ready to label items collected so they can be returned after testing. If your school is not allowed to collect devices, tell students to store their phones in a bag or backpack placed to the side of the room away from the testing area. (Have a supply of clear plastic bags to offer students who don’t have a bag or backpack with them.) More information is given under Preventing Issues Involving Phones and Electronic Devices on page 35.

KEY INFORMATION

Testing Room Requirements
To promote an effective and secure administration, testing rooms must fulfill the following requirements:

- Rooms must be located away from noisy areas and distracting activities.
- Rooms should be near restrooms.
- Rooms must have:
  - A working clock, visible to students
  - Proper lighting
  - Proper ventilation
  - Proper seating that follows the seating requirements given in this section
  - No materials related to test content on display (these can be removed or covered)

Seating Requirements
The following are seating requirements for all testing rooms:

- Chairs must have backs.
- Seats must face the same direction.
- Chairs must be placed directly behind those in the preceding row.
- Each student must be separated by a minimum of 4 feet from right to left (measure from center of desk).
- Staff access to every student must be unimpeded.
- Only 1 student can be seated at a table measuring 6 feet in length or less.
- At tables longer than 6 feet, students must be seated at least 4 feet apart (measured from the center of the table) and facing the same direction.
- Large, smooth writing surfaces, preferably desks or tables, must be provided.
- Tablet-arm chairs must have a minimum writing surface of 12 × 15 inches (30 × 38 centimeters).

The following seating arrangements are not allowed:

- Round tables, study carrels, lapboards, language laboratory booths, and tables with partitions or dividers.
-Seat assignments that follow any expected patterns (such as alphabetical order). If using a homeroom as a testing room, make sure students are seated at random.

---

Prepare Your Students

Your test coordinator should ensure that all students receive a copy of the SAT School Day Student Guide to help them learn about and prepare for the test. In addition, students will be advised about how to mark their answers and what to bring on test day. Accommodated students may need additional information, depending on their approved accommodations.

- Inform students who are testing in the accommodated testing window of when and where to report for testing.
- Tell students testing with MP3 audio format:
  - To bring earphones for taking the test (unless the school is providing earphones).
  - That they will test over 2 days.
  - That they will use the MP3 format to access test questions, but still must record their answers on an answer sheet (or other method according to an approved accommodation).
  - To practice to become familiar with the software before testing. For tips and practice tests, go to collegeboard.org/students-with-disabilities/after-approval.
- Tell students using the ATC format to bring earphones if they are using text-to-speech software (unless the school is providing earphones). Remind them that they will use the ATC format to access test questions, but still must record their answers on an answer sheet (or other method according to an approved accommodation).
- Tell students with College Board approval to use a calculator on the Math Test – No Calculator portion of the SAT to bring a separate four-function calculator for this purpose. (Percentage and square-root functions are permitted.)
- Tell students who are approved for extended time that they will need to stay for the entire test. They cannot move on to the next section or leave early if they finish before time is up.

---

IMPORTANT: Students may not select their own seats.
Prepare Your Preadministration Session

TASKS

Prepare for the Session Using Pre-ID Labels

If you are using labeled answer sheets, your test coordinator will provide these materials for your session:

- **Student Answer Sheet Instructions**, a copy for each student
- Prelabeled answer sheets
- Prelabeled large-block answer sheets (if applicable)
- Mobile Opt-In Policies document, a copy for each student
- A room roster with the type of answer sheet needed (large-block or standard)
- A copy of the pre-ID Supplemental Instructions for SAT School Day

Students must receive and bubble in their information on their own answer sheets. Take care to match students with their correct prelabeled answer sheets when distributing them.

Students won’t need to fill in the fields listed on the Pre-ID Supplemental Instructions for SAT School Day memo provided by your coordinator. Use the memo to update the script under Script for Answer Sheets with Pre-ID Labels on page 24. You’ll need to place a check mark next to each boldface instruction that indicates a section of the answer sheet that can be skipped. Here’s an example:

- If Address is listed on the Supplemental Instructions, tell students to skip boxes 9–13.

Prepare for the Session Using Unlabeled Answer Sheets

If you are using unlabeled answer sheets, your test coordinator will provide these materials for your session:

- **Student Answer Sheet Instructions**, a copy for each student
- Blank standard answer sheets
- Blank large-block answer sheets (if applicable)
- Mobile Opt-In Policies document, a copy for each student
- A list of students with the type of answer sheet needed (large-block or standard)

Conduct the Preadministration Session

**TASKS**

- Before starting the session, post any information the students will need, such as the 6-digit school (AI) code, school name, city, and state.
- Give each student an answer sheet, a copy of the Mobile Opt-In Policies document, and a copy of the *Student Answer Sheet Instructions*. A large-print version of the *Student Answer Sheet Instructions* is provided for students with approved accommodations that necessitate large print.
- If your school has pre-ID labels, make sure you correctly match any labeled answer sheet to the student whose information is on the label. Give any student who doesn’t have a labeled answer sheet a blank answer sheet.
- Some students may be using large-block answer sheets. This accommodation will be noted on the list of students received from the test coordinator. (Note that the Mobile Opt-In Policies document is formatted with large print.)
- Read aloud the scripts in shaded areas and pause when `pause` appears to give students time to follow instructions. Instructions for the proctors that shouldn’t be read aloud appear outside the shaded areas.
  - Not every school uses the same approach to various fields on the answer sheet. Watch for scripts with letter designations and read the script that applies to your school.
  - Students should skip fields A–E and the Certification Statement on the answer sheet because these sections are completed on test day.

**IMPORTANT:** *Do not hand out test books during the preadministration session.*

If you are conducting a session for students with pre-ID labels on their answer sheets, turn to Script for Answer Sheets with Pre-ID Labels on page 24.

---

**Script for Unlabeled Answer Sheets**

**To all students, say:**

Take out the *Student Answer Sheet Instructions* booklet that I gave you. Follow along in this booklet as I read instructions to you.

Students using braille, MP3 audio, or ATC formats may need you to read instructions from the *Student Answer Sheet Instructions*.

Fill in the school code in the script before beginning.

**When students are ready, say:**

Today we will complete the identifying information portion of the SAT answer sheet. You’ll be able to take advantage of your four free score sends by indicating which eligible colleges, universities, or scholarship programs to send your scores to. You’ll also have the opportunity to opt in to Student Search Service® and provide information about yourself to help connect you with colleges and universities.

**To students who are using LARGE-BLOCK answer sheets, say:**

If you’re using a large-block answer sheet, read the directions on the front page for how to mark your answers. Your page numbers will be different from those I announce, but the field numbers will be the same as the field numbers I give for everyone. You’ll mark the squares with an X instead of filling in bubbles.

**For field 1, say:**

Begin by filling in your legal last name, first name, and middle initial (if you have one) in field 1. Include spaces, hyphens, or apostrophes if these are part of your name. Print the letters in all caps in the boxes, then fill in the corresponding bubbles. Make sure each mark is dark and completely fills the bubble. Look up when you’re done. `pause`

**For fields 2 and 3, say:**

Move on to field 2. Fill in the bubble for “Yes,” if you are testing at your school. Then print our school’s name, city, and state in field 3. Look up when you’re done. `pause`
For field 4, say:
In field 4, print our 6-digit school code _________ and fill in the corresponding bubbles. Look up when you're done. [pause]

For field 5, say:
In field 5, print and bubble in your student ID number, starting with the first column to the left. If there are letters in your ID number, skip them and only enter the numerals. If you don't know your student ID number, leave field 5 blank. Look up when you're done. [pause]

For field 6, say:
In field 6, fill in the bubble for your current grade.

For field 7, say:
In field 7, fill in all 3 parts of your date of birth. Any 2-digit fields need to start with a zero if the number is less than 10. Fill in only the last 2 digits of the year you were born. Raise your hand if you have any questions. [pause]

For field 8, say:
Mark the correct bubble in field 8.

For fields 9–13, say:
Turn to page 2 of your answer sheet, and fill in your address in fields 9–12. Leave field 13 blank. Fill your current address in carefully so that eligible colleges, universities, and scholarship programs can contact you about opportunities. If your address changes, you can always update it through your College Board account. Raise your hand if you have any questions. Look up when you're done. [pause]

When everyone is ready, say:
We'll come back to field 14 later.

For field 15, say:
Turn to page 3 of your answer sheet. Field 15 asks if you would like to opt in to Student Search Service. This service can help you connect with opportunities. Saying “Yes” to this service allows eligible colleges and universities and scholarship and other educational programs to send you information about the educational and financial aid opportunities they offer. Eligible colleges and universities and scholarship and other educational programs that request it will receive information you provide on the answer sheet, but they will not receive your actual test scores or phone number. There is more information about Student Search Service in your Student Answer Sheet Instructions. If you do not answer and previously chose to participate in this service, the College Board will continue providing your information. Please make your selection. [pause]

For field 16, say:
If you'd like to get information from the College Board via email, including information about your scores once they become available online, write in your email address and fill in the corresponding bubbles in field 16. Indicate at the top of the field whether this is your own email address or a parent's or guardian's address. If you give your own email address and opted in to Student Search Service, you may also get information from colleges sent to your email address. Please look up when you're finished. [pause]

For field 17, say:
Field 17 asks for your U.S. mobile number. Only U.S. mobile numbers are accepted. Please review the document I gave you about the Mobile Opt-In Policies before deciding whether to give your number. You will be able to take this document home with you for later reference. By providing your number, you agree to receive text messages from the College Board about the SAT, about participating in research surveys, and about getting free information on college planning services. Standard text messaging rates apply. You may opt out at any time. The College Board will not share your phone number with other organizations.

This field is optional. If you agree to these terms, enter your phone number. Please look up when you're done. [pause]

Continue with the Script for Student Answer Sheet Instructions on page 27.
Script for Answer Sheets with Pre-ID Labels

To all students, say:

Take out the Student Answer Sheet Instructions booklet that I gave you. Follow along in this booklet as I read instructions to you.

Students using braille, MP3 audio, or ATC formats may need you to read instructions from the Student Answer Sheet Instructions.

Fill in the school code in the script below before beginning. Refer to the Supplemental Instructions provided to you by your coordinator to identify which fields the students in your room can skip. Use this information to select the right script to use for these fields.

Next check that the school code listed is as follows: __________. Raise your hand if the school code is incorrect.

Next, check your date of birth, which is marked with the letters “DOB.” Also check that your sex is correctly noted, and your grade. Raise your hand if your date of birth or sex is incorrect.

Check your address. If your address is incorrect on the label, you’ll be able to fix it on your answer sheet. Raise your hand if you have any questions.

Before continuing, resolve any issues with labels:

- If a student’s address is incorrect, but all other information is accurate, they may continue to use their pre-ID label. They can update their address by filling it out on the answer sheet.
- If a student has the wrong label on their answer sheet, see if it belongs to another student. Check the other answer sheets that you distributed to try to locate the correct one.
- If a student’s labeled answer sheet is unusable (has incorrect name, school code, date of birth, sex, or grade on it) or if you can’t locate their correct answer sheet:
  - Check with your test coordinator to see if an additional preadministration session can be held for these students.
  - If you need to keep them in your session, give them each a blank answer sheet, and tell them to follow your directions to fill in their information. These students should fill in all fields, even those that are marked to be skipped in this Script for Answer Sheets with Pre-ID Labels. If you have just a few students in this situation, have them remain after others have finished and been dismissed, then go back to the items they need to complete. Securely destroy the answer sheet with the incorrect label.

Your state or district may require that students validate their label information by filling in all fields on the answer sheet. Throughout this section, you can choose either the script that tells students to skip field(s) provided on the label or the script that guides them to fill in the field(s).
**Fields 1–4—Name and School Information:**
*Read script A to students who can skip these fields.*
*Read script B to any students who need to supply their name and school information. If you have any students with unlabeled answer sheets, you may need to read both scripts.*

**READ ALL THAT APPLY.**

A To students who can skip fields 1–4, say:

Don’t make marks in fields 1–4. Your name and school information are given on the label.

B To students who need to fill in fields 1–4, say:

Begin by filling in your legal last name, first name, and middle initial (if you have one) in field 1. Include spaces, hyphens, or apostrophes if these are part of your name. Print the letters in all caps in the boxes, then fill in the corresponding bubbles. Make sure each mark is dark and completely fills the bubble. Look up when you’re done. [pause]

Move on to field 2. Fill in the bubble for “Yes.” Look up when you’re done. [pause]

In field 3, print our school’s name, city, and state. Look up when you’re done. [pause]

In field 4, print our 6-digit school code __________ and fill in the corresponding bubbles. Look up when you’re done. [pause]

☐ If Student ID appears on your school’s Supplemental Instructions, students with correct labels can skip field 5.

**Field 5—Student ID Number:**
*Read script A to students who can skip field 5.*

Make no marks in field 5. Your label includes this information.

B To students who need to fill in field 5, say:

In field 5, print and bubble in your student ID number, starting with the first column to the left. If there are letters in your ID number, skip them and only enter the numerals. If you don’t know your student ID number, or don’t want to give it, leave field 5 blank. Look up when you’re done. [pause]

**Field 6—Grade Level:**
*Read script A to students who can skip this field.*
*Read script B to any students who need to provide their grade level.*

**READ ONLY ONE OPTION.**

Read script **B** to students who need to give their address.

**READ ONLY ONE OPTION.**

**A** To students who don’t need to fill in their address, say:

Don’t make marks in fields 9–13.

**B** To students who need to give their address, say:

Turn to page 2 of your answer sheet, and fill in your address in fields 9–12. Leave field 13 blank. Fill your current address in carefully so that eligible colleges, universities, and scholarship programs can contact you about opportunities. If your address changes, you can always update it through your College Board account. Raise your hand if you have any questions. Look up when you’re done. [pause]

**When everyone is ready, say:**

We’ll come back to field 14 later.

**For field 15, say:**

Turn to page 3 of your answer sheet. Field 15 asks if you would like to opt in to Student Search Service. This service can help you connect with opportunities. Saying “Yes” to this service allows eligible colleges and universities and scholarship and other educational programs to send you information about the educational and financial aid opportunities they offer. Eligible colleges and universities and scholarship and other educational programs that request it will receive information you provide on the answer sheet, but they will not receive your actual test scores or phone number. There is more information about Student Search Service in your Student Answer Sheet Instructions. If you do not answer and previously chose to participate in this service, the College Board will continue providing your information. Please make your selection.

**Field 16—Email Address:**
Read script **A** to students who can skip this field.
Read script **B** to students who need to give or change their email address.

**READ ONLY ONE OPTION.**

**A** To students who don’t need to fill in field 16, say:

Your label indicates that your email address has been provided. If your email address has recently changed, raise your hand and I’ll give you directions for field 16. If your email address is unchanged, make no marks in field 16.

**B** To students who need to fill in field 16, say:

Indicate at the top of the field whether this is your own email address or a parent or guardian’s address. If you give your own email address and opted in to Student Search Service, you may get information from colleges sent to your email address. I’ll tell you more about Student Search Service later in this session. Please look up when you’re finished. [pause]

**For field 17, say:**

Field 17 asks for your U.S. mobile number. Only U.S. mobile numbers are accepted. Please review the document I gave you about the Mobile Opt-In Policies before deciding whether to give your number. You will be able to take this document home with you for later reference. By providing your number, you agree to receive text messages from the College Board about the SAT, about participating in research surveys, and about getting free information on college planning services. You may opt out at any time. The College Board will not share your phone number with other organizations.

This field is optional. If you agree to these terms, enter your phone number. Please look up when you’re done. [pause]

Continue with the Script for Student Answer Sheet Instructions on page 27.
Script for Student Answer Sheet Instructions

Make sure students have approximately 45 minutes to complete the remaining fields on the answer sheet.

For field 14, say:

We're now going to skip back to field 14 on page 2 of your answer sheet. When you take the SAT as a part of SAT School Day, you're entitled to send your scores—for free—to as many as four colleges, universities, or scholarship programs. Completing this section is optional. Colleges and universities are always eager to get scores from students, even if you're not ready to apply.

Open your Student Answer Sheet Instructions booklet and find the Score Reporting Code List. Use this list to find the 4-digit number for the schools or scholarship programs you want to send your scores to. U.S. colleges and universities are listed first in order by state, and then alphabetically by name. Institutions in U.S. territories come next, followed by international ones. The final list in this document shows scholarship programs listed by state or country, in alphabetical order.

For each place you want to send scores to, copy the 4 digits in the boxes and fill in the corresponding bubbles (if using a large-block answer sheet, print the digits as clearly as you can). Let me know if you have any questions.

Look up when you're done. [pause]

When students are ready, say:

Now, turn to page 11 of your answer sheet to complete fields 22–38 using your instructions booklet. Look up when you are done. [pause]

When everyone is ready, say:

Now we'll complete the rest of the fields, starting on page 3 of your answer sheet (pages 8–15 on a large-block answer sheet).

There are certain advantages for you to complete this optional information. It's important that you know the College Board will be able to use this information and provide it to others for additional uses, such as research.

You can complete these fields or leave them blank—it's up to you. If your parent or guardian has told you that you shouldn't complete any optional or voluntary information, please just sit quietly as we go through this activity. Do not complete any field that asks for information your parent or guardian has told you not to provide.

For fields 18–21, say:

Using your instructions booklet, complete fields 18–21. Look up when you are done. [pause]

For fields 22–38, say:

Now, turn to page 11 of your answer sheet to complete fields 22–38 using your instructions booklet. Look up when you are done. [pause]

When students are ready, say:

Leave fields A–E unmarked. When you're finished, close your Student Answer Sheet Instructions booklet and place it next to your answer sheet on your desk. Please wait quietly while others finish. Raise your hand if you have any questions.

Complete the Preadministration Session

- After the session, collect an answer sheet and Student Answer Sheet Instructions booklet from every student. Notify students that their answer sheets will be returned to them on test day. Students should keep the Mobile Opt-In Policies document for future reference.
- The session is now over—you may dismiss your students or carry on with your regular school day.
- Organize the answer sheets and Student Answer Sheet Instructions as directed by your test coordinator and return them to the test coordinator for secure storage until test day.

TASKS

Follow Your Test Day Schedule
To ensure standardization across all School Day testing, please adhere to the prearranged schedule as closely as possible.

Prepare the Testing Room
Be sure to:

- Double-check that your testing room meets seating requirements, including guidelines for type and spacing of seats. (See Sample Seating Plans on page 101 in the Appendix.)
- Cover or remove any instructional material, such as maps and charts if not done previously.
- Check the clock to make sure it’s working properly.
- Assign seats at random or by prearrangement with the coordinator. Never allow students to select their own seats.
- Post the following information for students:
  - Test date
  - School name, city, and state
  - 6-digit school (AI) code assigned to your school (If applicable, be ready to supply proper codes to students who are not from your school, including “970000” to any homeschooled students.)
  - 3-digit testing room code (or other room identifier)
  - “SAT with Essay” and/or “SAT,” as appropriate
  - “Use a No. 2 pencil only. Do not use a pen or mechanical pencil.”
- If provided in your testing room packet (see Account for Testing Materials later in this section), post the “No Electronic Devices” flyer in the room and the “Quiet Please” flyer on the outside of your testing room door.
- Plan to collect electronic devices and backpacks as students enter the testing room. Be ready to label items collected so they can be returned after testing.

If applicable, post this information for students using MP3 audio format as relevant to the equipment students are using:

- For PC or Mac, starting and navigating the test:
  - Test Directions: Select to listen to directions
  - Start Section: Select Section icon
  - Next Section: Click the black Stop square at the bottom of the screen to return to Section Library
  - Change Volume: Click and drag slider bar at the bottom center of the screen
- Keyboard navigation:
  - Pause or Play: Ctrl/Command-P
  - Back: Ctrl/Command-B
  - Forward: Ctrl/Command-F
- For Chromebook, starting and navigating the test:
  - In the file list, select the folder Test Directions and then the file itself to hear general usage directions.
  - To select a section, select the test section folder (e.g., SAT Section 1 Reading Test).
  - To start the files in a section playing, press Ctrl-A to highlight all files in the folder, then press Enter.
  - Chromebook navigation uses the mouse on the media player menu to pause or play.

Study and Prepare Scripts Before Testing
Review the script that you’ll read before starting the test.

- Some of the instructions have alternative scripts to read depending on options in use by your school. Review these scripts in advance and mark the appropriate ones for your testing room.
- Refer to the NAR to know which test script(s) to use.
- Before admitting students, fill in the appropriate information where a blank line “__________” appears in the text.
- If you are administering the test to MP3 audio format users, review Script 6. If students in your room are using one type of computing device, mark the scripts for easier reading. (For example, if they are all using Chromebooks, cross out directions for PCs and Macs.)

Account for Testing Materials
Your test coordinator will provide a packet of testing materials containing:

- A room roster or copy of the NAR showing students assigned to your room
- A Testing Room Materials Report form listing the test materials for your room
- Multiple-choice test books, Essay books if administering the SAT with Essay, and any additional testing materials and alternate test formats that your students require
- Answer sheets for your students, which may have been prelabeled and/or pregridded, if your school uses pre-ID labels and/or held a preadministration session
Testing in the Accommodated Room

During the Test

- Some blank answer sheets, Mobile Opt-In Policies documents, and Student Answer Sheet Instructions for students who need to complete some or all of the preadministration information on their answer sheets
- A copy of the Supplemental Instructions if you have students with pre-ID labels who didn’t attend a preadministration session
- Two optional testing room flyers (“No Electronic Devices” and “Quiet Please”)
- Translated test directions and/or word-to-word glossaries for EL students, if needed
- Blank forms, including an IR and at least one Request to Cancel Tests Scores form

Count all of your testing materials when you receive them from your test coordinator, when you distribute them to students, and when testing is complete.

- Before admitting students to the room, count the test books for your room and compare the serial numbers to those listed on the Testing Room Materials Report form in your testing room packet. You’ll also record the number of Essay books received (if applicable).
- Later, after testing has begun, you will show the distribution of test books in your room by recording the serial numbers on the seating chart (Part B of the form).
- After testing, when you prepare to return materials to the test coordinator, you will record the serial numbers of the test books that you are returning in Part A of the form, along with the number of answer sheets and Essay books (if applicable) being returned.
- If you discover that a test book is missing, follow these procedures:
  - If a test book is missing before testing has begun, determine the serial number of the missing book and then check the desk of the student who was assigned that serial number as well as the desks of students who received the test books with serial numbers before and after the serial number of the missing book.
  - If testing has already begun, notify the test coordinator as soon as possible, but wait until a scheduled break or the end of the testing session to search the room. Before dismissing students or starting a break, announce that a test book is missing and that no one will be dismissed until it is located. If no one acknowledges having the test book, check each student desk (even unoccupied desks, since the test book may have been placed there).

If the test book is still missing, ask the test coordinator to call School Day Support immediately. Report the incident on an IR.

Distribute Materials

IMPORTANT: Do not distribute any test materials until instructed to in the scripts.

Check the NAR to ensure that you have the right test materials:
- Purple test books are for 1-day testing on the primary test date.
- Students approved to test during the accommodated testing window will have specific materials with blue covers.

Each flash drive (for MP3 audio or ATC format) provides all sections of the test, including the Essay.

IMPORTANT: Essay books will have a colored bar that matches the other materials (purple or blue) as well as an Essay icon. Essay books should be distributed only after students have completed all 4 sections of the SAT test.

IMPORTANT: Testing students with incorrect materials may invalidate scores. Refer to the NAR for information about which color test book to use.

KEY INFORMATION

Preparing for ATC and MP3 Audio Formats

In the ATC or MP3 room, set up the computers and insert the flash drives before admitting students. See Prepare Computers for Accommodated Testing on page 17 for step-by-step procedures.

You will need to distribute test books to these students in case they need to reference them during testing.

Testing in the Accommodated Room

Using the Scripts

Decide ahead of test day which script or combination of scripts to use for the students in your room. Use the NAR to plan ahead for the script(s) you need to use for the students in your room. If your students require more than one script (e.g., for math-only extended time), review the instructions in advance. See the key information for an explanation of how the scripts are used.

If you are testing students using the ATC format, you’ll need to add special instructions to all places where you tell students to start and stop testing. Before each section, tell students to locate the password on the inside flap of their test packaging so that they can open the file for the section. Give students time to enter the password and open the file before starting the timed section. Once a student has successfully entered the password for a test section, the student should be
During the Test  

Testing in the Accommodated Room

instructed to place the ATC packaging under their
desk. When the timing of each section ends, students
need to close the file. See the script under Specific
Format Instructions on page 42 for more information.

IMPORTANT: Students approved for writing-only extended
time receive extended time only on the SAT Essay. When
these students take the SAT (no Essay) they test in standard
testing rooms unless they have other accommodations that
require an accommodated testing room.

TASKS

- Use Script 1 for students who are approved for
  accommodations that do not require extended time—
  for example, breaks as needed, extended breaks,
  computer for essays, or permission to test blood
  sugar—or who are approved for extended time on
  only some sections of the test (e.g., math only).
- Use Script 2 for students who are approved for
  accommodations that do not require extended time,
  or who receive standard time on only some sections
  of the test, and who are also approved for extra
  breaks.
- Use Script 3 for students who are approved for 50%
  extended time for:
  - Reading on the SAT (no Essay).
  - Use of a writer/scribe or reader on the SAT (no
    Essay).
  - Math only (start with Script 1 or 2).
  - Writing only on the SAT with Essay (start with
    Script 1 or 2).
  - Combined math and writing (start with
    Script 1 or 2).
  - EL 50% extended time testing on the SAT
    (no Essay).

Scripts 4–6 are for use during the accommodated testing
window. The testing of students with nonstandard (blue)
materials is not confined to these scripts. Some students
may require standard timing (Script 1 or 2) for one or
more sections of the test, for example.

- Use Script 4 for students who are approved for
  100% extended time for:
  - Reading. These students test over 2 days.
  - Math only (start with Script 1 or 2). These
    students test in 1 day.
  - Writing only on the SAT with Essay (start with
    Script 1 or 2). These students test in 1 day.
  - Combined math and writing (start with
    Script 1 or 2). These students test in 1 day.
  - Combined math and writing on the SAT with
    Essay (start with Script 1 or 2). These students
    test over 2 days.
  - Use Script 5 for students taking the SAT with Essay
    with 50% extended time on the entire test (for reading,
    use of a reader or scribe, or the 50% extended time EL
    support). These students test over 2 days.
  - Use Script 6 for students who are using the MP3
    audio format. These students test over 2 days. Day 1
    testing stops after Section 2 for these students.

Administer the Test

If you're collecting personal belongings from
students:

Before you collect any phones, backpacks, or other
personal belongings from students, students should
power off their cell phone or electronic device and take
out any snacks or drinks to store under their desks during
testing. These items must stay under the desks during
testing. Instruct students to completely power off all cell
phones and electronic devices before turning them in.

IMPORTANT: Students will be dismissed from testing if
they are seen with a phone or their cell phone makes
noise during the test (including breaks) while in their
possession. Phones that are on or under the desk are
considered in their possession.

Check that students are in the correct testing room.
Students testing in your room must appear on the NAR
and your room roster, if any.

TASKS

Admit Students to the Testing Room

Admit students one at a time, taking care to assign
them seats at random or by prearrangement. Verify
that students have powered cell phones off as you
admit them to the room. If your school is conducting
classroom check-in, check each student against the
room roster as they enter the room:

- Write a “P” (present) next to the name of each
  student who checks in.
- If you don't recognize a student, ask them for
  identification. Send any student who can't present
  acceptable ID to the test coordinator.
- After you have closed the testing room door, put an
  “A” next to the name of any student who is absent.
- Write in student information for students not on the
  room roster if the student provides a note from the
  test coordinator.

If a student arrives late, you can admit them as long as
you have not yet begun the timed sections of the test.
Time the Test

- Accurately time each test section. Students must be given the entire amount of time and cannot move on to the next SAT section until time is called.
- Record the start and stop times on the lines provided in the script as students begin working on each section; post the times for students to see.
- Announce the remaining time at regular intervals, as noted in the script. This is particularly important if the room clock malfunctions.
- Before you call stop, check your watch against the time you have written down.
- Verify the time with the monitor, if one is assisting in the room.
- Refer to the appropriate Section Timing Chart in the Appendix to ensure that the stop time is correctly calculated.

Monitor Breaks

Testing staff will need to monitor students during breaks to make sure they don’t discuss the test or use calculators, phones, or prohibited aids.

For the breaks:

- Post the break time and include what time testing will resume.
- Walk around the room to check that all test books are closed and that answer sheets are placed inside them. Also check that any translated instructions or word-to-word glossaries are closed and left on the desks.
- Students are not allowed to use phones during breaks for any reason. Phones should be collected and must remain powered off and put away until the test is completely over.
- Students may eat and drink during breaks in designated areas, as long as they placed their food and beverages under their desks before the start of the test, as instructed. Do not allow students to access their bags or backpacks until the test is over.
- If students ask, they may go to the restroom, but under no circumstances should unsupervised groups of students be allowed to leave the room.

Complete the Count of Materials

- On the Testing Room Materials Report form in the back of this manual or provided to you by the test coordinator, account for all test materials (used and unused) in Part A of the form. If a book appears to be missing, follow procedures in Account for Testing Materials earlier in this section.
- Make a note of the count of Essay books in Part A as well (if applicable).
- Use the chart in Part B of the Testing Room Materials Report form (also printed on the back of this manual) to record the serial numbers of the test books distributed to students and the order in which you handed out the test books.

KEY INFORMATION

Calculator Policies and Guidelines

Calculators may be used only on the Math Test – Calculator portion of the SAT, unless a student has been preapproved by the College Board to use a four-function calculator as an accommodation on the Math Test – No Calculator portion. To help staff monitor calculator use, the top of each test book page in the Math Test – No Calculator portion has a crossed-out calculator symbol. Similarly, each page of the Math Test – Calculator portion has a calculator symbol. Students may have calculators on their desks only when working on these questions. See Acceptable Calculators on page 100.

General policies are as follows:

- All questions can be answered without a calculator.
- We recommend that students use a scientific or graphing calculator they are familiar with on the Math Test – Calculator portion of the SAT.
- Students should supply their own calculators.
- Students may also bring acceptable backup calculators in case their primary calculator or batteries fail, but they need the proctor’s permission to use the backup.

Calculator Malfunction

Students should raise their hands if their calculator malfunctions before or during the test and they wish to use a backup. Allow them to use an acceptable backup calculator or batteries that they brought and to continue to test.

Students without backup equipment may continue testing, since all questions can be solved without a calculator. If they choose to cancel their score, they must cancel the entire test. They will need to fill out a Request to Cancel Test Scores form before leaving the testing room.

Monitoring Equipment Use

Follow instructions in the scripts to monitor the use of calculators.

- Only battery-operated, hand-held equipment can be used for testing.
- Students may not share calculators.
- All scientific and most graphing calculators are acceptable. Four-function calculators are permitted but not recommended.
- Students may use calculators with enlarged or raised displays, but they should be seated where the calculators are not visible to other students.

Students approved to use a calculator on the Math Test – No Calculator section must use a four-function calculator for this purpose. (Percentage and square-root functions are allowed.) Confirm that the calculators in use aren’t more advanced models.
Scheduled Breaks
College Board policy requires every student to be offered breaks at regular intervals. Scheduled break time does not count as testing time.

Students who receive standard time on the entire test, whether taking the test with other accommodations or not, receive:

- a 10-minute break after Section 1
- a 5-minute break after Section 3
- a 2-minute break after Section 4 (if taking the SAT with Essay)

During breaks after Sections 1 and 3, students may go to the restroom or to the area designated for eating snacks.

Some students may be approved for extra and/or extended breaks (see Administering Accommodated Breaks for details). Students approved for extended time on some or all of the assessment receive extra breaks (see Administering Extended Time for details). Specific timing instructions may be noted on the NAR.

The Overview of Accommodated Timing and Breaks on page 91 in the Appendix provides a visual guide to these requirements. This manual includes specific instructions for accommodated breaks, and the scripts include break timing.

Unscheduled Breaks
When students take an unscheduled break, the clock does not stop. To maintain security, staff should adhere to the following guidelines for permitting unscheduled breaks:

- Inform students they won’t get extra testing time.
- Allow only one student at a time to take an unscheduled break.
- Collect the student’s test book and answer sheet before they leave the room. Make sure the test book is the actual test book and not a substitute. Fan the book to make sure no pages have been removed. Also collect any EL supports (translated directions or glossary) the student may be using.
- Never leave the testing room unattended. If possible, have a monitor accompany the student. It isn’t necessary to record a student taking an unscheduled break on an IR unless you find the activity suspicious.

Administering Accommodated Breaks
Some students may be approved for extra and/or extended breaks. Break time is not included as part of testing time and is timed separately. Specific timing instructions may be noted on the NAR. During their breaks, students who are approved for accommodated breaks are still subject to the same regulations that apply to standard breaks. Post break times for the students as noted in the scripts.

Students who are approved for extra breaks receive a break between each test section, a break in the middle of Sections 1 and 4, and, if applicable, for the SAT Essay. These breaks are noted in the scripts. Use Script 2 for students who are approved for extra breaks, and who are not approved for extended time.

Give extended breaks to approved students by doubling the standard time of regularly scheduled breaks.

For students who are approved for both extra and extended breaks, provide 10-minute breaks between each test section; if students ask to resume testing sooner, they may, but you should not prompt students to end their breaks early.

When a student is approved for breaks as needed, they may break during a test section. Most students’ needs are met with a 10-minute break. However, if a student requests additional time, grant the request, within reason. This time does not count toward testing time. Use Script 1 unless the student is approved for other accommodations.

Administering Extended Time
The SAT is timed by section in all rooms, standard and accommodated. Students must be given the entire amount of time and cannot move on to the next SAT section until time is called. This manual includes timing charts for each script in the Appendix. Students who are approved for extended time are also provided extra breaks, as included in each script.

You should plan ahead for which scripts apply to the students in your room. Students approved for math-only or writing-only extended time will be tested with a combination of scripts. EL students testing with 50% extended time test with Script 3 if taking the SAT or Script 5 if taking the SAT with Essay.

Students approved for extended time receive extra breaks:

- Students approved for extended time on the entire test (for reading, use of a reader or scribe, or as an EL support) receive an extra break half way through Section 1, Section 4, and if applicable, the SAT Essay. They also receive an extra 5-minute break before Section 3.
- Students approved for math-only extended time receive standard time on the first 2 sections of the test, but should receive an extra 5-minute break before Section 3 and halfway through Section 4.
- Students approved for writing-only extended time receive an extra 5-minute break halfway through the SAT Essay portion of the test. They receive extended time only on the SAT Essay, not on Section 2.
Once you have begun each test section, record the start and stop times in this manual in the space provided in the scripts, then post the times on the board for students to see. Use the Timing Charts in the Appendix to ensure that you have correctly calculated the stop time based on the minutes after the hour that you started the section. Each script indicates when to announce the time elapsed and when to take an extra break for longer sections when testing with extended time.

Administering Large-Print Tests
Students who are approved for large-print test books are approved for a specific font size, such as 14 point, 20 point, or larger. Make sure that each student is given their correct test book. Students who test with the 14-point test will test on the primary test date unless approved for additional accommodations that require window testing. Students who are approved for the 20-point or larger font test must test during the window. Refer to the NAR for more information.

Students approved for use of a large-print test book are tested with standard time, unless also approved for extended time.

General Notes for Electronic Devices
Make sure that any electronic device used for testing, including a computer for use of an MP3 audio or ATC format, a braille writer, or any magnifying machine, is not connected to the internet or to any network (disable all LAN or ethernet connections). Disable all unapproved assistive features such as spell checkers, grammar checkers, thesauruses, dictionaries, or word processing features (for example, cut and paste). Any device or computer or monitor connected to a magnifying device must not be able to copy, store, or print the magnified images. Any capability for recording, storage, snapshot, or transmission of data, whether in the form of pictures, text, or other information, is strictly prohibited.

To be scored, all typed essays must be printed out according to the guidelines outlined in Page Settings for Printing Essays on page 19. All written responses must be deleted from the equipment following successful printout.

Administering MP3 and ATC
Students using the MP3 audio format must be given 100% extended time on the entire test, and in addition, must be given 45 extra minutes on Section 2, the Writing and Language Test, to allow for software navigation. These students test over two days.

Students using the ATC format should be tested with standard time unless they have also been approved by the College Board for extended time. However, for Section 2, the Writing and Language Test, allow all ATC users 100% extended time to navigate between the questions and the answer choices. A student approved for more than 100% extended time should test with that time allowance. Administer the test one section at a time, with strict timing, just as you would a paper test. Monitor students to be sure they’re not accessing any other sites while working on the test.

Students using the ATC format need to double-click on a separate file for each section and enter the password printed on the ATC packaging. When timing of each section ends, they need to close the file. Allow these students to keep the ATC packaging at their desks. Before starting to time a section, be ready to help students locate the password on the ATC packaging and give them time to open the file. Once a student has successfully entered the password for a test section, the student should be instructed to place the ATC packaging under their desk.

The Essay file can be found on the same USB flash drive as the multiple-choice sections.

Administering Braille Test Formats
The braille test is divided into several books, which you will distribute one at a time. The braille type used is Unified English Braille (UEB). The Math Test uses the 1972 revised Nemeth Code.

Users of braille will receive a supplemental reference, Braille Reference Information. The Braille Reference Information contains math reference material required for the braille test. All labels and numbers in that book are in braille. (As with the test itself, the braille type used is UEB, and the math material uses the 1972 revised Nemeth Code.) Braille users will also receive the Guide to the Nemeth Code.

You’ll also receive a blue multiple-choice test book, Essay book (if applicable), and a reader’s script to help interpret labels and numbers in the braille reference book.

Students recording answers on a braille device may also use scratch paper.

Administering Braille Graphs and Figures
Some students using formats other than braille may be approved for the accommodation of braille graphs and figures. During the test, when questions refer to figures, students may refer to either the regular-type or large-type test or to the book of braille graphs and figures (the Braille Figure Supplement).

If a student doesn’t read braille but is approved to use the book of braille graphs and figures, you may help them find their place. Labels and numbers given with figures can be found in corresponding locations in both the regular-type and large-type tests.
Administering Readers
Distribute any supplemental materials to the reader: a reader’s script for the reader’s use, a regular-type test book for the student’s use (unless the student is approved for large print), a separate Essay book (if applicable), and additional test materials for student use as approved in SSD Online (for example, braille materials).

Students who use readers in conjunction with other formats will find that the two texts differ slightly because the script read by a reader describes the figures in greater detail than given in other formats. Students testing with a reader must test in a one-to-one setting.

Administering Scribes
Scribes may only write what the student dictates in English; they may not prompt the student in a way that would result in a different response. Be sure to read the instructions given in the script to a personal assistant who is writing answers for a student.

Students should dictate punctuation, but they do not need to dictate spelling unless the spelling is in question. Students testing with a scribe must test in a one-to-one setting.

Maintain Security in the Testing Room
Make sure you understand and follow these policies:

- Follow scripts exactly and minimize confusion by giving students ample opportunity to ask questions about procedures.
- Remain vigilant at all times during testing. Staff must not engage in activities that are not related to testing, such as talking or texting on phones, using a computer, or grading papers.
- Ensure that at least one staff member is in the testing room at all times.
- Ensure that students do not use calculators, phones, or prohibited aids during breaks.
- Monitor test materials at all times; do not leave them unattended under any circumstances.
- Guard against test materials being removed from the room.
- No one is permitted to access or use phones in the testing room, or to eat or drink during testing unless they have an approved accommodation.
- Immediately report significant problems or events that interfere with specific testing procedures or that compromise test security.

TASKS
Prohibited Aids
During the opening scripts you read to students, you’re directed to check desks for prohibited aids and devices, which cannot be on the desks or used during testing, including breaks. Because electronic devices, including phones, can be used to record test questions and answers, you must exercise special care to prevent issues involving them, as covered in Preventing Issues Involving Phones and Electronic Devices. Anyone using other prohibited aids during any part of the administration, including breaks, should be warned and, if warranted, dismissed from the test. (The only exceptions are for College Board–approved accommodations for particular testing aids.) Note any such activities on an IR.

Prohibited aids include, but are not limited to:

- Mobile phones, smartphones, smartwatches, or other wearable technology
- Audio players/recorders, tablets, laptops, notebooks, Bluetooth, or any other personal computing devices
- Separate timers of any type
- Cameras or any other photographic equipment
- Pens, highlighters, and mechanical or colored pencils
- Books or references of any kind (not including EL supports)
- Compasses, rulers, protractors, or cutting devices
- Papers of any kind, including scratch paper
- Earplugs
- Unacceptable calculators that have QWERTY (typewriter-like) keypads, use paper tape, make noise, or use a power cord

Medical Devices
Epinephrine auto-injectors (e.g., EpiPens) are permitted in the testing room without the need for accommodations. They must be placed in a clear bag and stored under the student’s desk during testing. For other medications or medical devices, contact the SSD office.

In some cases, a student may have College Board approval to have a cell phone in the testing room for use with a glucose monitor. Only students who are specifically approved to have a cell phone in the testing room may do so. (Approval to test blood sugar does not permit the student to have a cell phone, unless they are also approved for a cell phone). In these circumstances, the phone must remain on the proctor’s desk and can only be viewed under direct supervision. The phone must be in airplane mode (except when the share app is being used) and the camera feature disabled. Before the beginning of testing, the proctor should ask the
Maintain Security in the Testing Room

During the Test

Student for instructions on how to access the share app and how to proceed if any alarm goes off (including how to operate the phone). The phone settings must be adjusted so sounds are produced only when monitoring is required because of the student’s medical status. In no cases may a student keep their phone at their desk.

Preventing Issues Involving Phones and Electronic Devices

At the beginning of testing, proctors will read scripts reminding students to turn off their phones and other electronic devices and to turn them in to the proctor, if allowed under school policy. If your school does not permit the collection of devices, proctors must instruct students to store their powered-down devices in a bag or backpack placed to the side of the room away from the testing area.

Once the script has been read, if a student is observed with a prohibited device, regardless of whether the device makes noise or is being used, the test coordinator must dismiss that student and, if warranted, confiscate the device. (More information about when you should confiscate a device is given in the incidents listed under Security Violations/Student Misconduct on page 104.) If a student’s phone makes noises while in the proctor’s possession or stored away from the student’s desk, this should not be considered grounds for dismissal, but the proctor should turn off the phone to prevent additional disturbances during testing and issue a warning to the student who owns the phone that additional disturbances will result in dismissal.

If a student is observed with a device or the device makes noise while in a student’s possession, follow instructions in the irregularity chart for collection and checking of electronic devices. A student doesn’t need to be holding a phone for it to be considered in their possession—a phone is considered in the student’s possession if it’s on or under the student’s desk. The test coordinator should contact School Day Support immediately for further instructions if test content is detected on a device.

Suggested Collection Procedures:

If your school already collects phones and electronic devices, we encourage you to continue using the methods that work for you and your students. If you do not currently collect students’ electronic devices, here are some suggestions for doing so:

- Instruct students to disable alarms and power off cell phones and electronic devices when they enter the testing room.
- Collect students’ cell phones and wearable technology in a basket, envelope, or bag before testing begins.

- Give students sticky notes and/or small envelopes to label their items with their name.
- Collect labeled items from students once they’re seated. If possible, keep student items in the order they were collected in, for easier return after testing.
- Keep the devices at the front of the room on the proctor’s desk for the duration of testing.

Monitor Students

- Walk around the room to check that everyone is working on the correct section.
- Make sure that students who are using a large-block answer sheet are following instructions on the front of the answer sheet about where and how to mark their answers.
- If a student loses their place on the answer sheet, resulting in misplaced answers, follow the instructions in the irregularity chart in the Appendix.
- Make sure students do not use any prohibited aids, as instructed in the scripts.

Monitor Students Approved to Type Their Essays

- Have students use the print layout view so that they can properly limit the length of their essays.
- Monitor students to make sure that they do not:
  - Exceed the page limit
  - Use any special word-processing features or access the internet (see General Notes for Electronic Devices on page 33)
- When time is called for the SAT Essay, tell students to stop typing and send the essay to the printer. Whether printing from a computer or other electronic aid, print the pages according to the page settings given in Page Settings for Printing Essays on page 19.
- Once the essay is printed, you will read a script instructing students to write their full name on the back of each sheet (in the center of the sheet), before they are collected.
- Check to make certain the essay file is deleted and the computer’s deleted items folder is emptied before turning off the computer.

Prevent Copying and Communication

Copying and prohibited communication are the most common ways for students to obtain an unfair advantage. Staff must:

- Watch for use of cell phones or other prohibited items, or for “cheat sheets” written on paper, calculators, or clothing and shoes.
- Watch for roaming eyes. Some students may try to copy from a neighbor.
During the Test  Maintain Security in the Testing Room

- Carefully observe students using calculators. A smartphone can be disguised as a calculator with a plastic cover.
- Watch for signals. Students may signal across a testing room by using their hands, tapping their feet, using different colored pencils, and so on.
  
  **Staff must always note any such activities on the IR. They should immediately report significant problems or events that interfere with specific testing procedures or that compromise test security. If the Irregularity Chart indicates to call School Day Support, report the situation immediately.**

Report Irregularities

- Immediately inform the test coordinator of any timing irregularities.
- Record irregularities and actions taken on the Irregularity Report (IR).
- Complete the Irregularity Report (IR)
  [The IR form is scanned, so use a No. 2 pencil, or a pen with black or blue ink, and do not write any notes or make any other extraneous marks on the form. Be sure to print all information neatly and fill in bubbles completely.]
  
  **IMPORTANT:** Always include the names of students and the answer sheet litho codes (8-digit serial number from bottom right corner of answer sheet) involved in an irregularity. (See the Sample Irregularity Report (IR) on page 110.)

- For all irregularities, fill in fields 1–4 (page 1) and field 10 (page 3) of the form.
  - In field 4a, write your 6-digit school (AI) code.
  - In field 4b, fill in the appropriate bubble for your test date. Fill in your primary or your makeup test date according to what administration you’re reporting.
  - In field 4c, fill in the bubble if the irregularity has occurred during a makeup administration.
  - Leave field 4d blank.
  - To report a group irregularity (an issue that affects all or a portion of a testing room), fill in fields 6 (page 1), 9 (page 3), and 11 (page 4) to denote the type of occurrence, describe the events and actions, and list information about the students affected. You’ll need to note the date of birth and answer sheet litho code for each affected student.
  - To report an individual irregularity (an issue that affects one student, such as illness), fill in fields 5 (page 1), 7 (page 2), and 9 (page 3) to denote the type of occurrence and the events and actions taken. Be sure to fill out the information in its entirety.
  - In all situations, provide as much detail as possible. Do not attach answer sheets to the IR, but return them to your test coordinator.

KEY INFORMATION

Test Observers and Visitors

Staff from the College Board, Educational Testing Service (ETS), or administrators from your district or school may visit your school the day of the test or the week preceding it. Verify that visitors have government-issued identification and a letter of authorization from the College Board, ETS, or your district administration.

Staff, including assistants for students with approved accommodations, and authorized visitors are the only individuals allowed in the testing rooms besides test takers. There are no exceptions. Keep unauthorized individuals away from secure testing materials and out of the sight and hearing of the students until testing is complete. Limit access to the testing rooms and adjoining hallways.

**IMPORTANT:** If you have any concerns about an individual’s authorization, check with the test coordinator for verification before admitting that person to a testing room.

Using the Irregularity Chart

The Irregularity Chart on page 102 in the Appendix lists the most common irregularities along with the procedures and actions you should use in response to them. When the chart indicates the need for immediate action, respond right away. The chart also indicates when you should complete and submit an IR and when you should order makeup tests.

Use the IR to record an irregularity, including:

- Security incidents
- Misconduct
- Test question errors or ambiguities
- Other incidents or disturbances
- Student complaints
- Staff misadministrations

Make sure reports are complete and explicit. Fill out just one form for each issue, even if it affects more than one student (such as mistiming).

Irregularities filed by proctors must be countersigned by the test coordinator, who should add any information that might be useful. Tell students that a report will be submitted, but inform them that if they feel they were affected, they can call to file a complaint.
SAT Scripts for Testing Accommodated Students

Tasks
Uniform testing conditions depend on your reading the scripts exactly as written in this section. Take time to study the scripts and timing before test day.

Read scripts in shaded areas aloud exactly as written.
- Read slowly enough to give students time to fill in their information. Pause where you see [pause] in the script to allow students time to follow instructions.
- Text that appears outside of the shaded areas is intended for proctors and should not be read aloud.
- Answer student questions about procedure only, not about test content.
- Repeat parts of the script if requested to do so.
- Before admitting students, supply the appropriate information where a blank line “__________” appears in the text.

IMPORTANT: If you are administering the test with the ATC or MP3 audio format, you must complete setup of the computers before you begin testing. See Prepare Computers for Accommodated Testing on page 17 for complete instructions.

Some of the instructions that follow have alternative scripts to read depending on various criteria, such as options in use by your school. When you see multiple choices with lettered options (for example, A and B), read the prompts silently before choosing which script to read.

Begin the Test Here
Before starting the test, check the roster for students who need translated directions and/or word-to-word glossaries, and distribute them to those students.

At all administrations, say:

Good morning. Today you are going to take the SAT. This is your chance to show how prepared you are for college and career.

If you have questions about any of the instructions I give you, please ask them so that you can be sure of doing your best. If you are using printed directions that are translated, open the booklet now to follow along as I give instructions.

Continue by saying:
The College Board has designed policies to give each of you an equal opportunity to show your skills and knowledge. We will dismiss and cancel the scores of anyone who tries to gain an unfair advantage by:
- Giving or receiving help of any kind on the test
- Looking through the test book before the start of the test
- Working on the wrong section or looking at a previous or future section of the test book or answer sheet
- Using a calculator during a non-calculator section (unless approved for an accommodation)
- Marking answers after time is called
- Sharing test questions or answers with anyone during or after the test
- Using any unauthorized testing aids, including phones, during testing or on breaks
- Attempting to take the test for someone else

Engaging in any of these activities may affect your ability to take College Board tests in the future.

You may also be dismissed for:
- Eating or drinking during testing (unless this has been approved as an accommodation—otherwise, eating and drinking are only permitted during breaks)
- Causing a disturbance of any kind or distracting other students
- Going to your locker or leaving the building during breaks
You have until 11:59 p.m. Eastern Time on the fourth weekday from the end of the test to file a test day complaint. If you see any behavior that causes you concern, please notify the test coordinator, who will explain how to contact the College Board. Are there any questions? [pause]

**Collection of personal belongings:**

Most schools will be collecting students’ phones, electronic devices, and/or backpacks. Read script A if this is the case in your school. Read script B if your school does not allow collection of students’ belongings.

**READ ONLY ONE OPTION.**

A  If your school is collecting personal belongings, say:

By this time you should have turned in all phones, or any other electronic devices. If anyone still has an electronic device of any kind, please disable any alarms, power it off, and turn it in to me now, and it will be returned to you at the end of the test. [pause]

Any electronic device that is not turned off and put away may be confiscated and its contents inspected as part of a thorough investigation. If your cell phone makes a noise while in your possession, you’ll be dismissed from testing. [pause]

Allow time for students to turn in or put away any of these devices.

**Confirm that no phones are allowed by saying:**

If I see any student with a phone from this point on, I will dismiss that student.

**Now say:**

Now we’re going to prepare to start the test.

- Remove everything from your desk except your pencils and acceptable calculator.

B  If your school does not allow collection of personal belongings, say:

At this time, if you have a phone or any other electronic device in your possession, you must disable any alarms, completely power it off, and put it in a bag or backpack to the side of the room until the test is over. If you need a plastic bag to store your phone in, raise your hand and I will give one to you. [pause]

Any electronic device that is not turned off and put away may be confiscated and its contents inspected as part of a thorough investigation. If your cell phone makes a noise while in your possession, you’ll be dismissed from testing. [pause]

Walk around the room to make sure no one has the following unauthorized materials or aids on their desk (unless approved by the College Board for use on a test as an accommodation).

- Mobile phones, smartphones, or any wearable technology
- Audio players, recorders, tablets, laptops, notebooks, Bluetooth, or any other personal computing devices
- Separate timers of any type
- Cameras or any other photographic equipment
- Pens, highlighters, and mechanical or colored pencils
- Books or references of any kind
- Compasses, rulers, protractors, or cutting devices
- Papers of any kind, including scratch paper
- Earplugs
- Unacceptable calculators that have QWERTY (typewriter-like) keypads, use paper tape, make noise, or use a power cord (see Appendix for additional information on acceptable and unacceptable calculators)

If unauthorized devices or aids are displayed, have students remove them from their desks. If any students have mechanical pencils, give them No. 2 pencils to use instead.

**IMPORTANT:** EpiPens are permitted in the testing room without the need for accommodations. They must be placed in a clear bag and stored under the student’s desk during testing. If needed during testing, monitor the student while using the device.

**NOTE:** Some students with diabetes may be accustomed to using a cell phone to check their blood sugar. The cell phone must be specifically pre-approved to remain at the proctor’s desk during testing. Ensure that the phone is in airplane mode and set to make sounds only when required for monitoring purposes.
Then say:

You may not share or exchange calculators at any time. Put your calculator under your desk now. You will not need it until a later section.

Make sure that students have put their calculators under their desks and that any phones have either been collected or placed in a bag to the side of the room, not in a pocket.

**Distribute Answer Sheets**

Distribute the answer sheets. If your school held a preadministration session, make sure that each student receives their own answer sheet with identifying information complete. Give any students who did not participate in a preadministration session a blank answer sheet or, if applicable, a prelabeled answer sheet (making sure each student receives their own labeled answer sheet). You may need to read both script A and script B if you have a mixture of students with blank, prelabeled, or prepopulated answer sheets in your room. In addition, if your school requires all fields on pre-ID labels to be confirmed by having the student fill them in, read script B to students with pre-ID labels who haven’t yet completed these fields.

For students who may need them, hold on to the Student Answer Sheet Instructions and Mobile Opt-In Policies documents until after the test is over. These will be used after you have dismissed students whose answer sheets are complete.

After distributing answer sheets, say:

These are the answer sheets that you will use to mark your answers on the test. If you are using a large-block answer sheet, read the instructions on the front page of your answer sheet now. Your page numbers will be different from those I announce, but the field numbers will be the same as the field numbers I give for everyone. You’ll mark the squares with an X instead of filling in bubbles.

If there are students in the room who have the wrong answer sheet, try to resolve the discrepancy. If you are unable to do so, or if students have incorrect information on their answer sheets, give them blank answer sheets and read the scripts under B. If all students in the room have correct answer sheets populated during a preadministration session, skip the scripts and proceed to Distribute Test Books.

If your school uses pre-ID labels, say:

| **If your answer sheet has a label on it, please check it now to make sure it has your correct information. Raise your hand if you find any errors. [pause]** |

If a student has the incorrect name, date of birth, or school information on their label, give them a blank answer sheet. If the address is incorrect, they can still use the answer sheet.

**Next, say:**

| **If field 1 is blank, fill in your legal last name, first name, and middle initial (if you have one). Include spaces, hyphens, or apostrophes if these are part of your name. Print the letters in all caps in the boxes, then fill in the corresponding bubbles. Make sure each mark is dark and completely fills the bubble. Look up when you’re done. [pause]** |
### For field 2, say:

If field 2 is blank and you attend this school, fill in the bubble for “Yes.” Anyone who doesn’t regularly attend this school should fill in the bubble that applies to them. Raise your hand if you aren’t sure what to fill in. [pause]

### Before distributing test books, say:

If you have other fields to complete in the non-test part of your answer sheet, you’ll have a chance to complete them after the test is over.

---

### Distribute Test Books

**IMPORTANT:** If you are administering the SAT with Essay in your room, place the Essay books aside in a location where students can’t access them (these will be distributed after test books are collected as prompted in the SAT Essay script).

**Now say:**

I will now distribute your test books. Do not open them until I tell you to.

Distribute to each student the appropriate test materials in serial-number order. Students testing with computer-based formats (ATC or MP3 audio) should receive test books at this time. Their computers should already have the test installed and ready to be administered.

**Continue by saying:**

When you get the test book, turn it over and print your last name, first name, and middle initial, if you have one. Then print this school’s code _______, school name ________________________________, and this room’s number (or name) ____________________. If you are using a flash drive format, you need to make sure this information is on your flash drive package as well. [pause]

Check that students have filled in these fields, including room number/name, on their test books and any flash drive package. (Note that students should not write on braille books.)

**Then say:**

Now read the back cover. It has important information about marking answers and scoring. When you have finished reading, please look up. [pause]

Are there any questions about what you just read? [pause]

**After you have answered all questions, say:**

The following instructions are critical to the scoring of your test. If you don’t follow my directions exactly, you may not receive a score. Listen carefully.

---

### For fields 3 and 4, say:

If fields 3 and 4 are blank and you attend this school, print our school’s name, city, and state in field 3; then print our 6-digit school code _______ in field 4 and fill in the corresponding bubbles. Look up when you are done. If you don’t attend this school or are homeschooled, raise your hand. I will come over to give you the correct code to enter in field 4. [pause]

Homeschooled students should leave field 3 blank, and enter the code “970000” in field 4. Students from other schools should fill in field 3 with their school information. For field 4, if your test coordinator gave you the correct AI codes for these students, provide them those codes to fill in.

---

### For field 5, say:

If field 5 is blank, print and bubble in your student ID number, starting with the first column to the left. If there are letters in your ID number, don’t include them and only enter the numerals with no spaces between them. If you don’t know your student ID number, leave field 5 blank. Look up when you’re done. [pause]

---

### For field 6, say:

If field 6 is blank, fill in the bubble for your current grade. [pause]

---

### For field 7, say:

If field 7 is blank, fill in all 3 parts of your date of birth. Any 2-digit fields need to start with a zero if the number is less than 10. Fill in only the last 2 digits of the year you were born. Raise your hand if you have any questions. [pause]

---

### For field 8, say:

If field 8 is blank, mark the correct bubble.
Make sure you are using a Number 2 pencil and that you fill in the bubbles darkly and completely on the answer sheet. If you change your response, erase it as completely as possible. Avoid making stray marks, and do not use your answer sheet for scratch work. You cannot use a mechanical pencil.

**IMPORTANT:** For the next set of instructions, students must correctly copy codes from their test books onto their answer sheets. Students must fill in the test book information on the back of their answer sheets (fields A–C and E as prompted in the scripts); without this information, their answer sheets cannot be scored.

**A** If your school is using testing room codes, say:

In field D on your answer sheet, fill in the 3-digit testing room code, ______, which I have posted for you. [pause]

**B** If your school is not using testing room codes, say:

Leave field D blank on your answer sheet.

**For field A, Form Code, say:**

On the back cover of your test book, find the field labeled Form Code. Copy the letters and numbers onto field A on the back of your answer sheet exactly as shown on the back of your test book or flash drive package and fill in the bubbles. If you are using a large-block answer sheet, this is on page 16. [pause]

**For field B, Test ID, say:**

Now find the field labeled Test ID. Copy the number onto your answer sheet in field B. [pause]

**For field C, Test Book Serial Number, say:**

Look at the front cover of your test book or flash drive package. Find the number in the upper right corner labeled Test Book Serial Number and enter it into field C on your answer sheet. Fill in the corresponding bubbles. [pause]

**To all students, say:**

Take a moment to ensure that the Form Code, Test ID, and Test Book Serial Number fields are completed correctly. It is critical that you enter the correct codes on your answer sheet. Otherwise, you may not receive scores.

Check that students are filling in the correct codes.

**To all students, say:**

Here are some important things to remember as you take the test: If you finish before time is called, you may check your work on this section, but you may not turn to any other section. You may use the test book for scratch work, but you must mark your answers on the answer sheet unless you are approved to mark them in your test book. After time has been called, you may not transfer answers from your test book to your answer sheet or fill in empty bubbles.

During testing, keep your answer sheet and test book flat in the center of your desk. If you find something wrong with your answer sheet or test book, such as a missing page, or if you realize that you have been writing answers in the wrong section of your answer sheet, raise your hand.

Finally, answer sheets and test books must never be removed from the testing room.

I will walk around the room to check your progress. I will also keep the official time for the test. You will have breaks during the test when you can leave this room to have a snack or use the restroom.

Remember, after the test has ended, no one may leave the room until I dismiss you. If you have any questions about testing procedures, please ask them now. I cannot answer questions during the timed sections of the test. [pause]
Specific Format Instructions

If you have students who are using a scribe, reader, ATC, or braille format, find and read the appropriate instructions that follow before proceeding to the script that is appropriate for the students in your room.

For all other students, turn now to Proceed to Appropriate Script on page 43.

To a scribe, say:

Please follow these instructions:
- You must write only what the student dictates.
- You may not prompt the student in a way that would result in a different response.
- When a student is dictating the essay, if the student uses a word that is unfamiliar to you or that you don’t know how to spell, ask the student to spell it.
- When a student is dictating the essay, the student doesn’t have to dictate spelling (unless you have a question), but they should dictate punctuation.

To a student who is using a scribe, say:

Your answers and any corrections will be recorded as you dictate them. If you want to review your work, your answers will be read to you. Do you have any questions? [pause]

To a reader, say:

If you are reading the script to a student, please read questions as often as requested. It’s important to read only what is in the script. Do not elaborate beyond what is in the script, even if the student asks for it. If a student using the braille graphs and figures doesn’t read braille, you can find the labels and numbers in corresponding locations in the regular-type books, if needed. Do you have any questions about these procedures? [pause]

For students using braille format, say:

The braille test is divided into several books. You will be given one book at a time. The Reading and Writing and Language sections are in regular grade 2 braille. Throughout the test, each question is separated from another with a line. Each question begins in cell 1, with runovers beginning in cell 5. Each answer choice begins in cell 3, with runovers beginning in cell 5.

The braille type used is Unified English Braille (UEB), and the Math sections are in the 1972 revised Nemeth Code.

The braille math reference book contains math formulas and directions for use with all mathematics sections.

If you are using a braille device to record your answers, on each page you use, type your full name and the number of the section you’re working on. Type the question number as well as your answer. It is not necessary to capitalize your answer choices.

Do you have any questions about these procedures? [pause]

At the end of a section, if a student has finished with a braille book, collect it and give the student the next braille book just before the next section begins.

To students using the ATC format, say:

Today you will be taking the test in a format that is compatible with your screen reader or other software. I have loaded this Assistive Technology Compatible or “ATC” format onto the computer that is on your desk.

Please prepare for testing now by opening and reading the electronic document called Beginning Directions and Information for Users of ATC. When you are finished reading the document, please click the minimize button and look up. [pause]

During the test, you will be reading the same directions on the screen as other students who are reading in their test books. All the directions for timing and other procedures that I read apply to you. When I tell you to start testing in a section, open the correct section file and type in your password, which is printed under the open flap of your test packaging. Once you have typed in your password, place your test packaging under your desk. When I call time, stop testing and close the file. Are there any questions? [pause]

IMPORTANT: Be sure to leave the ATC packaging at the student’s desk. Students will need it to refer to the password before starting each section of their test.

At the beginning of each test section, to students using the ATC format, say:

Open the file for section _____ and type in your password. Your password appears under the open flap of your test packaging. Once you have typed in your password, place your test packaging under your desk.

At the end of each test section, to students using the ATC format, say:

Stop testing and close the section file. Do not open the file for any other section.

SECTION 1: Reading Test

When everyone is ready, say:

Once we begin, you will have 65 minutes to work on Section 1, the Reading Test. We will take a short break when this section is finished. Do not open your test book until I tell you to. Please keep your calculator under your desk; you won’t need it for this section.

Make sure you are using a Number 2 pencil and that you fill in the entire bubble for your answer darkly and completely. If you change your response, erase it as completely as possible.

Remember that you receive points for correct answers, but you don’t lose points for incorrect answers. That means you should try to answer every question, even if you’re not sure of the correct answer.

Find Section 1 on your answer sheet. Be sure to mark your answers in the numbered spaces that correspond to the numbered test questions in Section 1. Open your test book to Section 1, read the directions, and begin work. Time starts now. Good luck.

Procedures to Follow During Testing

Please be alert and vigilant throughout the test. Don’t read, grade papers, work on a computer, talk or text on a phone, or do any other task unrelated to the test administration. Don’t look through testing materials. Follow the procedures given earlier in this manual:

- Time the Test on page 31
- Monitor Students on page 35
- Complete the Count of Materials on page 31
- Monitor Breaks on page 31

After 30 minutes, say:

You have 35 minutes remaining in this section.

After 60 minutes, say:

You have 5 minutes remaining in this section.
After exactly 65 minutes, say:

Stop work and put your pencil down. [pause] Close your answer sheet and place it inside the front of your test book. Close your test book and leave it on your desk. We’ll now stop for a 10-minute break.

You may not use a phone or any other electronic device during this or any other break. If you brought a snack, you may eat it in designated areas only. Don’t go anywhere other than designated areas, the hallway, or the restroom. Don’t talk in the hallway or discuss the test questions with anyone. Be considerate of those in other rooms.

We will start testing again in exactly 10 minutes.

For the Break

- Post the break time of 10 minutes and the time testing will resume.
- Walk around the room to check that all test books are closed and that answer sheets are inside the test books.

At the end of the break, say:

Please take your seat.

Certification Statement

Before beginning Section 2, students must complete and sign the Certification Statement. Students whose disabilities prevent them from writing the statement should leave it blank. However, they should be encouraged to sign their names.

When everyone is ready, say:

When you submit your answer sheet, you are agreeing that you will not, under any circumstances, take any test questions from the testing room, give them to anyone, or discuss them with anyone through any means, including but not limited to email, text messages, or the internet. These conditions are spelled out in the SAT School Day Student Guide and online at sat.org.

Take out your answer sheet, but leave your test book closed. Turn to the back of your answer sheet, and find the Certification Statement field. After reading the paragraph of terms at the bottom, copy the statement in your usual handwriting style—print or cursive is fine. Then sign your full name as you would on an official document. Next to your signature, enter today’s date. Look up when you are done. [pause]

Walk around the room and ensure that all students are writing the Certification Statement.

SECTION 2: Writing and Language Test

For Students Using ATC Format

- To allow enough time to navigate Section 2, students using the ATC format must be given 100% extended time on Section 2. For these students, turn to Script 4 for Section 2: Writing and Language Test on page 63, then follow the directions to continue with the appropriate script for Section 3—Math – No Calculator.

For All Other Students

- Continue below.

When everyone is ready, say:

Once we begin, you will have 35 minutes to work on Section 2, the Writing and Language Test. If you finish before time is called, you may check your work on this section, but you may not turn to any other section. Please keep your calculator under your desk; you won’t need it for this section.

Keep your answer sheet and test book flat on your desk. Now find Section 2 on your answer sheet. Be sure to mark your answers in the numbered spaces that correspond to the numbered test questions in Section 2. Open your test book to Section 2, read the directions, and begin work. Time starts now.

After 15 minutes, say:

You have 20 minutes remaining in this section.

After 30 minutes, say:

You have 5 minutes remaining in this section.

After exactly 35 minutes, say:

Stop work and put your pencil down. [pause] Place your answer sheet on the page in your test book where you stopped working. Close your test book.
SECTION 3: Math Test – No Calculator

FOR STUDENTS WITH EXTENDED TIME ON MATH
- For students approved for 50% extended time on math, you will use Script 3 for both parts of the Math Test. Turn to Script 3 and start at Break Before Section 3 on page 57.
- For students approved for 100% extended time on math, you will use Script 4 for both parts of the Math Test. Turn to Script 4 and start at Break Before Section 3 on page 63.

FOR ALL OTHER STUDENTS
- Continue below.

IMPORTANT: Some students may be approved to use a four-function calculator on this section as an accommodation. If you are asked to test a student with this accommodation, confirm that the calculator the student uses is not a scientific or graphing calculator. (Percentage and square root functions are permitted.)

When everyone is ready, say:

Once we begin, you will have 25 minutes to work on Section 3, the Math Test without Calculator. We will take a short break when this section is over.

Although this is a math section, you are not allowed to use a calculator on this portion of the test and must keep your calculator under your desk unless you have an approved accommodation to use a four-function calculator. Are there any questions? [pause]

Directions for how to grid your answers to the questions labeled “Student-Produced Responses” are in your test book. Your answers to these questions may be shorter, but not longer, than 4 characters. Be sure to mark your answers in the numbered spaces that correspond to the numbered test questions in Section 3.

If you finish before time is called, you may check your work in this section, but you may not turn to any other section.

Please open your test book and take out your answer sheet. Keep your answer sheet and test book flat on your desk. Find Section 3 on your answer sheet. Now turn to Section 3 in your test book, read the directions, and begin work. Time starts now.

Walk around the room to check that students do not have calculators on their desks.

After 10 minutes, say:

You have 15 minutes remaining in this section.

After 20 minutes, say:

You have 5 minutes remaining in this section.

After exactly 25 minutes, say:

Stop work and put your pencil down. [pause]

Put your answer sheet on the page in your test book where you stopped working. Close your test book, and leave it on your desk. We’ll take a break now for 5 minutes. If you brought a snack, you may eat it in designated areas only. As before, don’t go anywhere other than designated areas, the hallway, or the restroom. Don’t talk in the hallway or discuss the test questions with anyone. Be considerate of those in other rooms. We’ll start testing again in exactly 5 minutes.

For the Break
- Post the break time of 5 minutes and the time testing will resume.
- Walk around the room to check that all test books are closed and that answer sheets are inside the test books.

At the end of the break, say:

Please take your seat. [pause]
SECTION 4: Math Test – Calculator

When everyone is ready, say:

Once we begin, you will have 55 minutes to work on Section 4, the Math Test with Calculator.

You may use a calculator for this section. Please take your calculator out now and place it in the center of your desk. [pause]

When using a calculator, follow these guidelines:

- Keep it flat on your desk or hold it so that other students can’t view your work.
- Do not share or exchange your calculator.
- If you brought a backup calculator or batteries, keep them on the floor underneath your desk.
- If your calculator malfunctions and you have batteries or a backup calculator, raise your hand. I will see if your substitute is acceptable. If you do not have a backup, continue to test. All math questions can be answered without a calculator.

Directions for how to grid your answers to the questions labeled “Student-Produced Responses” are in your test book. Your answers to these questions may be shorter, but not longer, than 4 characters. Be sure to mark your answers in the numbered spaces that correspond to the numbered test questions in Section 4.

If you finish before time is called, you may check your work on this section, but you may not turn to any other section.

Please open your test book and take out your answer sheet. Keep your answer sheet and test book flat on your desk. Find Section 4 on your answer sheet. Now turn to Section 4 in your test book, read the directions, and begin work. Time starts now.

After 25 minutes, say:

You have 30 minutes remaining in this section.

If your school is providing calculators for students, distribute them now.

After 50 minutes, say:

You have 5 minutes remaining in this section.

After exactly 55 minutes, say:

Stop work and put your pencil down. [pause] Close your test book and answer sheet. Place your answer sheet next to your test book.

Now say:

Before I collect your test materials, please turn over your answer sheet (or turn to page 16 if you’re using a large-block answer sheet) and check that you have filled in the form code in field A. This form code is required for scoring your test. [pause]

Check that you have also completed fields B–E. Please raise your hand if you need help completing any fields. [pause]

Collect each test book from each student in the same order in which the books were distributed. Count the books to ensure you have the correct number before beginning the next section. Place the test books where students cannot access them.

SAT Test Type:

If your students are taking the SAT (no Essay), complete the steps under A.

If your students are taking the SAT with Essay, complete the steps under B.

FOLLOW ONLY ONE OPTION.

A In the SAT (no Essay) Room: Testing is now complete.

To all students taking the SAT (no Essay), say:

Congratulations, you have just finished the test! Please remain quietly in your seat until I dismiss you.

Proceed to After the Test on page 86 and read the remaining instructions to collect answer sheets before dismissing students.

B In the SAT with Essay Room: Continue with the break that follows.

For the Break

Do not distribute Essay books until after all test books are collected and accounted for and you have begun the script for the SAT Essay.
**Script 1  SAT Essay  SAT Scripts for Testing Accommodated Students**

**IMPORTANT:** If you are testing students using the ATC format, do not collect the drives until after administering the SAT Essay. The flash drive includes the SAT Essay.

After collecting and counting test books, say:

Place your calculator under your desk. We’ll take a break now to stretch for 2 minutes. You may not leave the room or discuss test questions.

Post the break time of 2 minutes and the time testing will resume.

**At the end of the break, say:**

Please take your seat. [pause]

**FOR STUDENTS WITH EXTENDED TIME FOR WRITING**

- For 50% extended time for writing only, turn to **Script 3, SAT Essay on page 59**.
- For 100% extended time for writing only, turn to **Script 4, SAT Essay on page 67**.

**FOR ALL OTHER STUDENTS**

- Continue with the script that follows.

**To all students, say:**

I will now give an Essay book to each of you. Don't open your Essay book until I tell you to do so.

Hand an Essay book to each student. If a student is approved to use a large-type test book, give them the appropriate large-type Essay book. Record the number of Essay books distributed for later reporting on the Testing Room Materials Report form.

Before reading the next script, fill in the school and room information to give to students.

Continue by saying:

When you receive your Essay book, turn it over and print your last name, first name, and middle initial, if you have one. Then print this school's code number ________, school name __________________, and this room number (or name) ________.

**Next, say:**

Now, open your answer sheet to page 6. If you are using a large-block answer sheet, open to page 30. On the back of your Essay book, find the Essay Code. Copy the Essay Code into the field on your answer sheet exactly as it appears on the back of your Essay book and fill in the corresponding bubble. This field must be correctly filled in, or your essay might not be scored.

Keep your answer sheet open to this page, and take a moment to read the statement about the use of your essay, then decide whether or not to mark the bubble (or square). When you've finished reading, please look up. [pause]

Check that students have filled in the Essay Code.

**IMPORTANT:** Students must write their essays on their answer sheets. They may not use scratch paper.

When all students have an Essay book, say:

Once we begin, you'll have 50 minutes to work on the SAT Essay. You may make notes and plan your essay on the unlined Planning Page, but anything written there will not be scored. When you're ready, start writing your essay on the first lined page, which says “Begin Your Essay Here.” You must write your essay on the appropriate answer sheet pages and within the marked margins. Don't write past the word “STOP” on the last lined page, because anything written past that point will not be scored. No extra pages are allowed. You must write your essay using a Number 2 pencil. If you don't use a Number 2 pencil, your essay will appear blank. If you leave the essay blank, you will receive an Essay score of zero.

**To students using a computer for the Essay, say:**

When using a computer for the Essay, you may not use any special word processing features, applications, software, or assistive technology unless it has been specifically approved. If you are using a test book with larger type size, you may use that type size for your essay. Four pages are allowed for regular type, 6 pages for 14-point type, and 10 pages for 20-point type. Any pages beyond your appropriate page limit will not be scored.

Your typed essay is what will be seen by readers and by colleges to which you send scores. I will come by now and make sure you are set up properly for typing your essay. Do you have any questions? [pause]

See Prepare Computers for Accommodated Testing on page 17 if you need to adjust computers for the Essay.
Continue by saying:

Read the directions on your Essay book cover, and then open your Essay book and begin work. Time starts now.

Use this time to confirm that you have a serialized test book for each student and to record the number of Essay books distributed on the Testing Room Materials Report form. (Essay books aren’t serialized.)

After 25 minutes have elapsed, say:

You have 25 minutes remaining in this section.

After 45 minutes, say:

You have 5 minutes remaining in this section.

After exactly 50 minutes, say:

Stop work and put your pencil down. [pause] Close your answer sheet and your Essay book. Place your answer sheet face up next to your Essay book.

If you have students using a computer for writing the Essay, say:

Stop typing and send your essay to the printer. Once your essay is printed, write your full name on the back and in the center of each sheet. When you are finished, place the typed sheets in the back of your answer sheet. [pause]

Whether printing from a computer or other electronic aid, print the pages according to the page settings given in Prepare Computers for Accommodated Testing on page 17. After students have written their full name on the back of each sheet (in the center of the sheet), they should place the typed sheets inside their answer sheet.

To all students, say:

Congratulations, you have finished the test! Please sit quietly while I collect your Essay books.

Collect an Essay book from each student. Count them to make sure you have accounted for all books distributed to your room, and place them where students can’t access them.

IMPORTANT: Testing is now complete. Proceed to After the Test on page 86 to collect test materials and dismiss students.

SCRIPT 2: Standard Time with Extra Breaks

IMPORTANT: Use this script to test students who have been approved for extra breaks with standard timing. Students with extended breaks or breaks as needed should be tested with Script 1.

Congratulations, you have just finished the test! Please remain quietly in your seat until I dismiss you.

Proceed to After the Test on page 86 and read the remaining instructions to collect answer sheets before dismissing students.

B In the SAT with Essay Room: Continue with the break that follows.

For the Break
Do not distribute Essay books until after all test books are collected and accounted for and you have begun the script for the SAT Essay.

IMPORTANT: If you are testing students using the ATC format, the flash drives include the SAT Essay; do not collect the drives until after administering the SAT Essay.

Post the break time of 2 minutes and what time testing will resume.

At the end of the break, say:

Please take your seat. [pause]

Now say:

Before I collect your test materials, please turn over your answer sheet (or turn to page 16 if you’re using a large-block answer sheet) and check that you have filled in the form code in field A. This form code is required for scoring your test. [pause]
SAT ESSAY

Keep your answer sheet open to this page, and take a moment to read the statement about the use of your essay, then decide whether or not to mark the bubble (or square). When you've finished reading, please look up.

Then say:

Once we begin, you'll have 50 minutes to work on the SAT Essay. We will take a 5-minute break after 25 minutes.

You may make notes and plan your essay on the unlined Planning Page in your answer sheet, but anything written there will not be scored. When you're ready, start writing your essay on the first lined page, which says "Begin Your Essay Here." You must write your essay on the appropriate answer sheet pages and within the marked margins. Don't write past the word "STOP" on the last lined page, because anything written past that point will not be scored. No extra pages are allowed. You must write your essay using a Number 2 pencil. If you don't use a Number 2 pencil, your essay will appear blank. If you leave the essay blank, you will receive an Essay score of zero.

Hand an Essay book to each student. If a student is approved to use a large-type test book, give them the appropriate large-type Essay book. Record the number of Essay books distributed for later reporting on the Testing Room Materials Report form.

Before reading the next script, fill in the school and room information to give to students.

Continue by saying:

When you receive your Essay book, turn it over and print your last name, first name, and middle initial, if you have one. Then print this school's code number __________, school name __________________, and this room number (or name) ____________.

Next, say:

Now, open your answer sheet to page 6. If you are using a large-block answer sheet, open to page 30. On the back of your Essay book, find the Essay Code. Copy the Essay Code into the field on your answer sheet exactly as it appears on the back of your Essay book and fill in the corresponding bubble. This field must be correctly filled in, or your essay might not be scored.
Use this time to confirm that you have a serialized test book for each student and to record the number of Essay books distributed on the Testing Room Materials Report form. (Essay books aren’t serialized.)

Find Section 1 on your answer sheet. Be sure to mark your answers in the correctly numbered spaces in Section 1. Now turn to Section 1 in your test book, read the directions, and begin work. Time starts now. Good luck.

Procedures to Follow During Testing

Please be alert and vigilant throughout the test. Don’t read, grade papers, work on a computer, talk or text on a phone, or do any other task unrelated to the test administration. Don’t look through testing materials. Follow the procedures given earlier in this manual:

Certification Statement

Before beginning Section 2, students must complete and sign the Certification Statement. Students whose disabilities prevent them from writing the statement should leave it blank. However, they should be encouraged to sign their names.

When everyone is ready, say:

When you submit your answer sheet you are agreeing to the following conditions: You will not, under any circumstances, take any test questions from the testing room, give them to anyone, or discuss them with anyone through any means, including, but not limited to, email, text messages, or the internet. These conditions are spelled out in the SAT School Day Student Guide and online at sat.org.

Take out your answer sheet, but leave your test book closed. Turn to the back page of your answer sheet, and find the Certification Statement field. After reading the paragraph of terms at the bottom, copy the statement in your usual handwriting style—either print or cursive is fine. Then sign your full name as you would on an official document. Next to your signature, enter today’s date. Look up when you are done. [pause]

Walk around the room and ensure that all students are writing the Certification Statement.

SECTION 4: Math Test – Calculator

To all students, say:

Once we begin, you will have 1 hour and 50 minutes to work on Section 4, the Math Test with Calculator. We will stop for a short break after 55 minutes.

You may use a calculator for this section. Please take your calculator out now and place it in the center of your desk. [pause]

When using a calculator, follow these guidelines:

- Keep it flat on your desk or hold it so that other students cannot view your work.
- Do not share or exchange your calculator.
- If you brought a backup calculator or batteries, keep them on the floor underneath your desk.
- If your calculator malfunctions and you have batteries or a backup calculator, raise your hand. I will see if your substitute is acceptable. If you do not have a backup, continue to test. All math questions can be answered without a calculator.

Directions for how to grid your answer to the questions labeled “Student-Produced Responses” are in your test book. Your answers to these questions can be shorter, but not longer, than 4 characters. Be sure to mark your answers in the numbered spaces that correspond to the numbered test questions in Section 4.

If you finish before time is called, you may check your work on this section, but you may not turn to any other section.

Please open your test book and take out your answer sheet. Keep your answer sheet and test book flat on your desk. Find Section 4 on your answer sheet. Now turn to Section 4 in your test book, read the directions, and begin work. Time starts now.

After 30 minutes, say:

You have 1 hour and 20 minutes remaining in this section and 25 minutes until the break.

After 50 minutes, say:

You have 1 hour remaining in this section and 5 minutes until the break.

After 55 minutes, say:

Stop work and put your pencil down.

Put your answer sheet on top of the page that you are currently working on in your test book. Close your test book and leave it on your desk. You will now have 5 minutes to stretch. Do not discuss test questions during the break or leave the testing room without permission. We will start testing again in exactly 5 minutes.

For the Break

Post the break time of 5 minutes and what time testing will resume.

At the end of the break, say:

Please take your seat. You have an additional 55 minutes remaining in Section 4. Open your test book to the page where you inserted your answer sheet. Place your answer sheet flat on your desk, and begin work where you left off.

After 30 minutes (from the break), say:

You have 25 minutes remaining in this section.

After 50 minutes (from the break), say:

You have 5 minutes remaining in this section.

After exactly 55 minutes (from the break), say:

Stop work and put your pencil down. [pause] Close your test book and answer sheet. Place your answer sheet next to your test book.

Now say:

Before I collect your test materials, please turn over your answer sheet (or turn to page 16 if you’re using a large-block answer sheet) and check that you have filled in the form code in field A. This form code is required for scoring your test. [pause]
Check that you have also completed fields B–E. Please raise your hand if you need help completing any fields. [pause] When you are finished checking, place your answer sheet face up on your desk.

Collect each test book from each student in the same order in which the books were distributed. Count the books to ensure you have the correct number before beginning the next section. Place the test books where students cannot access them.

**SAT Test Type:**
- If your students are taking the SAT (no Essay), complete the steps under A.
- If your students are taking the SAT with Essay, complete the steps under B.

**FOLLOW ONLY ONE OPTION.**

**A In the SAT (no Essay) Room:** Testing has concluded.

To all students, say:

Congratulations, you have just finished the test! Please remain quietly in your seat until I dismiss you.

Proceed to After the Test on page 86 and read the remaining instructions to collect answer sheets before dismissing students.

**B In the SAT with Essay Room:** Continue with the break that follows.

**For the Break**

Do not distribute Essay books until after all test books are collected and accounted for and you have begun the script for the SAT Essay.

**IMPORTANT:** If you are testing students using the ATC format, the flash drives include the SAT Essay; do not collect the drives until after administering the SAT Essay.

Post the break time of 2 minutes and what time testing will resume.

At the end of the break, say:

Please take your seat. [pause]
Next, say:

Now, open your answer sheet to page 6. If you are using a large-block answer sheet, open to page 30. On the back of your Essay book, find the Essay Code. Copy the Essay Code into the field on your answer sheet exactly as it appears on the back of your Essay book and fill in the corresponding bubble. This field must be correctly filled in, or your essay might not be scored.

Keep your answer sheet open to this page, and take a moment to read the statement about the use of your essay, then decide whether or not to mark the bubble (or square). When you’ve finished reading, please look up. [pause]

Check that students have filled in the Essay Code.

IMPORTANT: Unless approved for an accommodation, students must write their essays on their answer sheets and should not use scratch paper for the Essay.

To all students, say:

Once we begin, you’ll have 1 hour and 40 minutes to work on the Essay. We will stop for a short break after 50 minutes.

To students writing the essay on the answer sheet, say:

You may make notes and plan your essay on the unlined Planning Page, but anything written there will not be scored. When you’re ready, start writing your essay on the first lined page, which says “Begin Your Essay Here.” You must write your essay on the appropriate answer sheet pages and within the marked margins. Don’t write past the word “STOP” on the last lined page, because anything written past that point will not be scored. No extra pages are allowed. You must write your essay using a Number 2 pencil. If you don’t use a Number 2 pencil, your essay will appear blank. If you leave the essay blank, you will receive an Essay score of zero.

To students using a computer for the Essay, say:

When using a computer for the Essay, you may not use any special word processing features, applications, software, or assistive technology unless it has been specifically approved. If you are using a test book with larger type size, you may use that type size for your essay.

Four pages are allowed for regular type, 6 pages for 14-point type, and 10 pages for 20-point type. Any pages beyond your appropriate page limit will not be scored.

Your typed essay is what will be seen by readers and by colleges to which you send scores. I will come by now and make sure you are set up properly for typing your essay.

Do you have any questions? [pause]

See Prepare Computers for Accommodated Testing on page 17 if you need to adjust computers for the Essay.

To students, say:

Now read the directions, then open your Essay book, and begin work. Time starts now.

Use this time to confirm that you have a serialized test book for each student and to record the number of Essay books distributed on the Testing Room Materials Report form. (Essay books aren’t serialized.)

After 25 minutes, say:

You have 1 hour and 15 minutes remaining in this section and 25 minutes until the break.

After 45 minutes, say:

You have 55 minutes remaining in this section and 5 minutes until the break.

After 50 minutes, say:

Stop work and put your pencil down. Put your answer sheet on top of the page that you are currently working on in your Essay book. Close your Essay book and leave it on your desk.

You will now have 5 minutes to stretch. Do not discuss test questions during the break or leave the testing room without permission. We will start testing again in exactly 5 minutes.

For the Break

Post the break time of 5 minutes and what time testing will resume. Students may stand and stretch but should not leave the room without your permission.

At the end of the break, say:

Please take your seat. You have an additional 50 minutes remaining in the SAT Essay. Open your Essay book to the page where you inserted your answer sheet. Place your answer sheet flat on your desk, and begin work where you left off.
After 25 minutes (from the break), say:
You have 25 minutes remaining in this section.

After 45 minutes (from the break), say:
You have 5 minutes remaining in this section.

After exactly 50 minutes (from the break), say:

If you have students using a computer for writing the Essay, say:
Stop typing and send your essay to the printer. Once your essay is printed, write your full name on the back and in the center of each sheet. When you are finished, place the typed sheets in the back of your answer sheet. [pause]

Whether printing from a computer or other electronic aid, print the pages according to the page settings given in Prepare Computers for Accommodated Testing on page 17. After students have written their full name on the back of each sheet (in the center of the sheet), they should place the typed sheets inside their answer sheet.

To all students, say:
Congratulations, you have finished the test! Please sit quietly while I collect your Essay books.

Collect an Essay book from each student. Count them to make sure you have accounted for all books distributed to your room, and place them where students can’t access them.

**IMPORTANT:** Testing is now complete. Proceed to After the Test on page 86 and follow the instructions to collect test materials and answer sheets before dismissing students.

**SCRIPT 5:**

**50% Extended Time for Two-Day Testing**

**IMPORTANT:** The following script is for 50% extended time on the entire test (for reading or use of a reader/scribe) for students who are taking the SAT with Essay. If you are testing students with 50% extended time on the SAT (no Essay), turn to Script 3: 50% Extended Time for One-Day Testing on page 55.

**Accommodated Testing Manual**  Spring 2019 SAT School Day
Procedures to Follow During Testing
Please be alert and vigilant throughout the test. Don’t read, grade papers, work on a computer, talk or text on a phone, or do any other task unrelated to the test administration. Don’t look through testing materials. Follow the procedures given earlier in this manual:

- Time the Test on page 31
- Monitor Students on page 35
- Complete the Count of Materials on page 31
- Monitor Breaks on page 31

After 30 minutes, say:
You have 68 minutes remaining in this section and 19 minutes until the break.

After 44 minutes, say:
You have 54 minutes remaining in this section and 5 minutes until the break.

After 49 minutes, say:
Stop work and put your pencil down. Put your answer sheet on top of the page that you are currently working on in your test book. Close your test book and leave it on your desk. You will now have 5 minutes to stretch. Do not discuss test questions during the break or leave the testing room without permission. You may not use a phone or any other electronic device during this or any other break. We will start testing again in exactly 5 minutes.

For the Break
Post the break time of 5 minutes and what time testing will resume.

At the end of the break, say:
Please take your seat. [pause] Do not open your test book until I tell you to do so.

Certification Statement
Before beginning Section 2, students must complete and sign the Certification Statement. Students whose disabilities prevent them from writing the statement should leave it blank. However, they should be encouraged to sign their names.

When everyone is ready, say:
When you submit your answer sheet you are agreeing to the following conditions: You will not, under any circumstances, take any test questions from the testing room, give them to anyone, or discuss them with anyone through any means, including, but not limited to, email, text messages, or the internet. These conditions are spelled out in the SAT School Day Student Guide and online at sat.org.

Take out your answer sheet, but leave your test book closed. Turn to the back page of your answer sheet, and find the Certification Statement field. After reading the paragraph of terms at the bottom, copy the statement in your usual handwriting style—either print or cursive is fine. Then sign your full name as you would on an official document. Next to your signature, enter today’s date. Look up when you are done. [pause]

Walk around the room and ensure that all students are writing the Certification Statement.
SECTION 2: Writing and Language Test

FOR STUDENTS USING THE ATC FORMAT
- To allow enough time to navigate Section 2, students using the ATC format must be given 100% extended time on Section 2. For these students, use Script 4 for Section 2: Writing and Language Test on page 63, then return to this script and resume at Break Before Section 3.

FOR ALL OTHER STUDENTS
- Continue below.

To all students, say:

Once we begin, you will have 53 minutes to work on Section 2, the Writing and Language Test. We will stop for a 5-minute break after the section is over.

Now find Section 2 of your answer sheet. Do not begin work until I tell you to.

If you finish before time is called, you may check your work on this section, but you may not turn to any other section. Please keep your calculator under your desk; you won’t need it for this section.

Keep your answer sheet and test book flat on your desk. Be sure to mark your answers in the numbered spaces that correspond to the numbered test questions in Section 2.

Now, open your test book to Section 2, read the directions, and begin work. Time starts now.

After 30 minutes, say:

You have 23 minutes remaining in this section.

After 48 minutes, say:

You have 5 minutes remaining in this section.

After exactly 53 minutes, say:

Stop work and put your pencil down. [pause]

Place your answer sheet on the page in your test book that you have just finished working on. Close your test book and leave it on your desk.

Break Before Section 3

For the break, say:

You will now have 5 minutes to stretch. Do not discuss test questions during the break or leave the testing room without permission. We will start testing again in exactly 5 minutes.

Post the break time of 5 minutes and what time students should return to their seats.

At the end of the break, say:

Please take your seat. Do not open your test book until I tell you to. Keep your test book, with your answer sheet inside, flat in the center of your desk. [pause]

SECTION 3: Math Test – No Calculator

IMPORTANT: If a student has College Board approval to use a four-function calculator as an accommodation on this portion of the Math Test, be sure to confirm that the calculator is not a scientific or graphing calculator. Percentage and square root function keys are permitted.

When everyone is ready, say:

Once we begin, you will have 38 minutes to work on Section 3, the Math Test without Calculator. We will take a short break when this section is over.

Although this is a math section, you are not allowed to use a calculator on this portion of the test and must keep your calculator under your desk unless you have an approved accommodation to use a four-function calculator.

Directions for how to grid your answer to the questions labeled “Student-Produced Responses” are in your test book. Your answers to these questions may be shorter, but not longer, than 4 characters. Be sure to mark your answers in the numbered spaces that correspond to the numbered test questions in Section 3.

If you finish before time is called, you may check your work on this section, but you may not turn to any other section.
Please open your test book and take out your answer sheet. Keep your answer sheet and test book flat on your desk. Find Section 3 on your answer sheet. Now turn to Section 3 in your test book, read the directions, and begin work. Time starts now.

After 20 minutes, say:
You have 18 minutes remaining in this section.

After 33 minutes, say:
You have 5 minutes remaining in this section.

After exactly 38 minutes, say:
Stop work and put your pencil down. Close your answer sheet and place it inside the front cover of your test book. [pause]

End of Day 1
To students, say:
We have completed testing for today. You will take the rest of the test tomorrow. I will now collect your answer sheet and test materials. Please sit quietly until you are dismissed.

Collect all answer sheets and test materials, including any computer or braille pages and scratch paper, and lock them in a secure area until the second day of testing. Return any collected cell phones once you are sure you have all testing materials. Note in the following script what time students should report for testing on Day 2, then read the script to dismiss students.

When all materials have been accounted for, say:
When you return to the testing room tomorrow, remember to bring your acceptable calculator and Number 2 pencils with soft erasers. We begin Day 2 testing at ______________.
Please gather your belongings and exit the room quietly.

On Day 2 of Testing
Follow standard admission procedures. Seat students in the same seats according to your seating chart from Day 1.

Powering Off and Storing Devices

Collection of personal belongings:
Most schools will be collecting students’ phones, electronic devices, and/or backpacks.
Read script A if this is the case in your school.
Read script B if your school does not allow collection of students’ belongings.

READ ONLY ONE OPTION.

A If your school is collecting personal belongings, say:
Good morning. By this time you should have turned in all phones, or any other electronic devices. If anyone still has an electronic device of any kind, please disable any alarms, power it off, and turn it in to me now, and it will be returned to you at the end of the test. [pause]

B If your school does not allow collection of personal belongings, say:
Good morning. At this time, if you have a phone or any other electronic device in your possession, you must disable any alarms, completely power it off, and put it in a bag or backpack to the side of the room until the test is over. If you need a plastic bag to store your phone in, raise your hand and I will give one to you. [pause]

Any electronic device that is not turned off and put away may be confiscated and its contents inspected as part of a thorough investigation. If your cell phone makes a noise while in your possession, you’ll be dismissed from testing. [pause]

Allow time for students to turn in or put away any of these devices.

Confirm that no phones are allowed by saying:
If I see any student with a phone from this point on, I will dismiss that student.

Preparing to Test
Set aside the Essay books in a location where students cannot access them. These will not be distributed until after the multiple-choice test books have been collected once Section 4 has been completed.
Continue by saying:

Now we’re going to prepare to start the test.

- Remove everything from your desk except your pencils with erasers and any items you’re approved to use as an accommodation. [pause]
- Put all calculators and extra batteries under your seat in plain sight. [pause]
- Place any water bottles or snacks under your desk. Close all bags and backpacks and put them under your desk until the test is over.

Once desks are cleared of prohibited items, say:

I will take a moment now to look around and make sure you are using approved calculators. [pause]

Walk around the room to make sure no one has the following unauthorized materials or aids on their desk. (The NAR will indicate if an aid has been approved for use on a test as an accommodation.)

- Mobile phones, smartphones, or any wearable technology
- Audio players, recorders, tablets, laptops, notebooks, Bluetooth, or any other personal computing devices
- Separate timers of any type
- Cameras or any other photographic equipment
- Pens, highlighters, and mechanical or colored pencils
- Books or references of any kind
- Compasses, rulers, protractors, or cutting devices
- Papers of any kind, including scratch paper
- Earplugs
- Unacceptable calculators that have QWERTY (typewriter-like) keypads, use paper tape, make noise, or use a power cord

If unauthorized devices or aids are displayed, have students remove them from their desks. If any students have mechanical pencils, give them No. 2 pencils to use instead.

Then, say:

Please sit quietly while I distribute your test materials. When you receive them, please check to make sure they are yours. Raise your hand if the answer sheet or test materials do not display your name.

Distribute the designated test materials and answer sheet from Day 1 to each student. Make sure every student or scribe has a No. 2 pencil. Check to ensure that no one is using pens or mechanical pencils. Distribute paper to students who are approved to use scratch paper.

SECTION 4: Math Test – Calculator

To all students, say:

Once we begin, you will have 1 hour and 23 minutes to work on Section 4, the Math Test with Calculator. We will stop after 42 minutes and take a 5-minute break.

You may use a calculator for this section. Please take your calculator out now and place it in the center of your desk. [pause]

When using a calculator, follow these guidelines:

- Keep it flat on your desk or hold it so that other students can’t view your work.
- Do not share or exchange your calculator.
- If you brought a backup calculator or batteries, keep them on the floor underneath your desk.
- If your calculator malfunctions and you have batteries or a backup calculator, raise your hand. I will see if your substitute is acceptable. If you do not have a backup, continue to test. All math questions can be answered without a calculator.

Directions for how to grid your answer to the questions labeled “Student-Produced Responses” are in your test book. Your answers to these questions can be shorter, but not longer, than 4 characters. Be sure to mark your answers in the numbered spaces that correspond to the numbered test questions in Section 4.

If you finish before time is called, you may check your work on this section, but you may not turn to any other section.

Please open your test book and take out your answer sheet. Keep your answer sheet and test book flat on your desk. Find Section 4 on your answer sheet. Now turn to Section 4 in your test book, read the directions, and begin work. Time starts now.

Now read the directions, then open your Essay book and begin work. Time starts now.

Use this time to confirm that you have a serialized test book for each student and to record the number of Essay books distributed on the Testing Room Materials Report form. (Essay books aren’t serialized.)

After 20 minutes, say:

You have 55 minutes remaining in this section and 18 minutes until the break.
**After 33 minutes, say:**

You have 42 minutes remaining in this section and 5 minutes until the break.

---

**After 38 minutes, say:**

---

**To all students, say:**

Congratulations, you have finished the test! Please sit quietly while I collect your Essay books.

Collect an Essay book from each student. Count them to make sure you have accounted for all books distributed to your room, and place them where students can’t access them.

**SCRIPT 6: MP3 Audio Format**

The following script is for MP3 audio format users. You should have already inserted flash drives and distributed test materials to students. If this hasn’t been done yet, turn back to SAT Scripts for Testing Accommodated Students on page 37.

**IMPORTANT:** Be sure to write the student’s name on the MP3 packaging.

---

**To all MP3 audio format users, say:**

The test is recorded on a flash drive and has been loaded onto your computer. The test takes place over 2 days. Today we will finish the first 2 sections. I will go over the navigation with you now. Do not begin the test until I tell you to.

---

**To students who are using a PC or a Mac, say:**

If you are using a PC, your keyboard navigation will use the Control key. If you are using a Mac, your keyboard navigation will use the Command key.

---

**To students who are using Chromebooks, say:**

Your navigation will be with the mouse using the media play menu.
To all students, say:

Plug in your earphones or headphones. Once I tell you to start the test directions, you should put them on to hear the introduction. Once you have listened to the introduction, select Pause or press Control- or Command-P to pause, take off your earphones, and look up to signal that you are ready to continue with the test. Now select Directions to hear the introduction. [pause]

When all students are ready, say:

Each test question will be on a separate track. The media player screen displays a list of all the tracks for the test section being played. The list is organized by track number, and each track has a brief descriptive title. Gray shading indicates which track is currently playing. If you cannot easily see the track names, widen the title column.

I have written the keyboard and other navigation commands on the board. The audio recording will play continuously through the entire test section unless you manually pause the playback. To play or pause the audio on a PC or Mac, click the play icon or the pause icon at the bottom of the media player window, or use the keyboard command by pressing Control- or Command-P. On a Chromebook, click the pause or play icon on the media player menu.

You can move forward and backward within a track by clicking a position on the timeline ribbon at the bottom of the media player screen. This area displays buttons that correspond to the audio playback controls.

Select a track in the list to skip directly to the beginning of that track. If you are using a PC or Mac, you can also use keyboard commands for skipping tracks. Press Control- or Command-B to skip back to a previous track, and Control- or Command-F to skip forward to the next track.

Click and drag the volume control slider to change the volume. If you need assistance at any point, raise your hand.

Audio playback will stop automatically at the end of the last track for the section. If your track ends before time is called, you can return to any tracks within the section to review your work.

During the test, I will flick the lights or tap your shoulder whenever I post the time remaining or to signal that it is time to stop and take off your earphones.

Are there any questions about the information that I have just read? [pause]

Answer all questions about procedure and then continue with the script.

Once we begin, you will have 2 hours and 10 minutes to work on Section 1, the Reading Test. We will take a brief break after 65 minutes.

Please keep your calculator under your desk; you won’t need it on this section.

Make sure you are using a Number 2 pencil and that you fill in the entire bubble for your answer darkly and completely. If you change your response, erase it as completely as possible.

Remember that you receive points for correct answers, but you don’t lose points for incorrect answers. That means you should try to answer every question, even if you’re not sure of the correct answer.

Find Section 1 on your answer sheet. Be sure to mark your answers in the numbered spaces that correspond to the numbered test questions in Section 1. When I signal you to stop, take off your earphones so that you can hear my directions. Your computer screen should show the section table of contents.

To students who are using a PC or a Mac, say:

When I tell you to start, you will select the icon for Section 1.

To students who are using a Chromebook, say:

Select the Section 1 folder and press Control-A to highlight all the tracks. When I tell you to start, you will press Enter.

To all students, say:

When I say “Time starts now,” put on your earphones, start Section 1, listen to the directions, and begin work. Good luck. Time starts now.

Certification Statement
Before beginning Section 2, students must complete and sign the Certification Statement. Students whose disabilities prevent them from writing the statement should leave it blank. However, they should be encouraged to sign their names.

When you submit your answer sheet you are agreeing to the following conditions: You will not, under any circumstances, take any test questions from the testing room, give them to anyone, or discuss them with anyone through any means, including, but not limited to, email, text messages, or the internet. These conditions are spelled out in the SAT School Day Student Guide and online at sat.org.

Take out your answer sheet, but leave your test book closed. Turn to the back page of your answer sheet, and find the Certification Statement field. After reading the

This concludes day 1 of testing. Close your test book and place your answer sheet on top of it. I will now collect your answer sheet, test book, and flash drive. Please sit quietly until you are dismissed. Remember, after testing has ended, no one may leave the room until I announce dismissal.

Collect Test Materials
Keep students seated until you are sure you have an answer sheet and all test materials from each student. Walk around the room to close each media player and collect materials.

First, collect the answer sheets, test books, and any scratch paper from each student in the same order in which they were distributed.

1. Close the media player as follows:
   - For PCs, click the Account drop-down menu and click Exit.
   - For Macs, click the Flux Player drop-down menu and click Quit Flux Player.
   - For Chromebooks, click the x in the top right corner of the media player window.
2. Eject the USB Drive by doing the following:
   - For PCs, in the notification area in the lower right corner of the monitor, select Show hidden icons, select Safely remove hardware and eject media, and then click on Eject USB Disk.

Thank you for your cooperation. When you return to the testing room tomorrow, remember to bring your earphones, acceptable calculator, and Number 2 pencils with soft erasers. We begin Day 2 testing at _________.

Please gather your belongings and exit the room quietly.

Return any collected cell phones and dismiss students.

Day 2 of Testing
Before Admitting Students for Day 2 of Testing

2. Use the seating chart on the back of the Testing Room Materials Report to place each flash drive in the same computer that a student used on the first day of testing.
3. Repeat the steps given in Prepare Computers for Accommodated Testing on page 17.
4. Ensure that navigation notes are posted for students to see (as given in Prepare the Testing Room on page 28).

Admitting Students
Follow standard admission procedures. Seat students in the same seats according to your seating chart from Day 1.

Powering Off and Storing Devices

Collection of personal belongings:
Most schools will be collecting students’ phones, electronic devices, and/or backpacks.
Read script A if this is the case in your school.
Read script B if your school does not allow collection of students’ belongings.

READ ONLY ONE OPTION.

A If your school is collecting personal belongings, say:

Good morning. By this time you should have turned in all phones, or any other electronic devices. If anyone still has an electronic device of any kind, please disable any alarms, power it off, and turn it in to me now, and it will be returned to you at the end of the test. [pause]

B If your school does not allow collection of personal belongings, say:

Good morning. At this time, if you have a phone or any other electronic device in your possession, you must disable any alarms, completely power it off, and put it in a bag or backpack to the side of the room until the test
is over. If you need a plastic bag to store your phone in, raise your hand and I will give one to you. [pause]

Any electronic device that is not turned off and put away may be confiscated and its contents inspected as part of a thorough investigation. If your cell phone makes a noise while in your possession, you’ll be dismissed from testing. [pause]

Allow time for students to turn in or put away any of these devices.

Confirm that no phones are allowed by saying:

If I see any student with a phone from this point on, I will dismiss that student.

Preparing to Test

If you are administering the SAT with Essay, set aside the Essay books in a location where students cannot access them. These will not be distributed until after the multiple-choice test books have been collected once Section 4 has been completed.

Continue by saying:

Now we’re going to prepare to start the test.

- Remove everything from your desk except your pencils with erasers and any items you’re approved to use as an accommodation. [pause]
- Put all calculators and extra batteries under your seat in plain sight. [pause]
- Place any water bottles or snacks under your desk. Close all bags and backpacks and put them under your desk until the test is over.

Once desks are cleared of prohibited items, say:

I will take a moment now to look around and make sure you are using approved calculators. [pause]

Walk around the room to make sure no one has the following unauthorized materials or aids on their desk. (The NAR will indicate if an aid has been approved for use on a test as an accommodation.)

- Mobile phones, smartphones, or any wearable technology
- Audio players, recorders, tablets, laptops, notebooks, Bluetooth, or any other personal computing devices
- Separate timers of any type
- Cameras or any other photographic equipment
- Pens, highlighters, and mechanical or colored pencils

- Compasses, rulers, protractors, or cutting devices

- Papers of any kind, including scratch paper
- Earplugs
- Unacceptable calculators that have QWERTY (typewriter-like) keypads, use paper tape, make noise, or use a power cord

If unauthorized devices or aids are displayed, have students remove them from their desks. If any students have mechanical pencils, give them No. 2 pencils to use instead.

Then, say:

Please sit quietly while I distribute your test materials. When you receive them, please check to make sure they are yours. Raise your hand if the answer sheet or test materials do not display your name.

Distribute the designated test materials and answer sheet from Day 1 to each student. Make sure every student or scribe has a No. 2 pencil. Check to ensure that no one is using pens or mechanical pencils. Distribute paper to students who are approved to use scratch paper.

Hand an Essay book to each student. If a student is approved to use a large-type test book, give them the appropriate large-type Essay book. Record the number of Essay books distributed for later reporting on the Testing Room Materials Report form.

Before reading the next script, fill in the school and room information to give to students.

**Continue by saying:**

When you receive your Essay book, turn it over and print your last name, first name, and middle initial, if you have one. Then print this school’s code number ________, school name ______________________, and this room number (or name) ____________.

Don’t write past the word “STOP” on the last lined page, because anything written past that point will not be scored. No extra pages are allowed. You must write your essay using a Number 2 pencil. Whether printing from a computer or other electronic aid, print the pages according to the page settings given in Prepare Computers for Accommodated Testing on page 17. After students have written their full name on the back of each sheet (in the center of the sheet), they should place the typed sheets inside their answer sheet.

   b. For Mac computers, eject the flash drive by clicking on the up arrow next to the icon under DEVICES.
   c. For Chromebooks, click on the eject icon next to the flash drive in the devices list.
2. Place each drive in the original package for each student.
3. Before powering off each computer, ensure that the cache is emptied and that no files have been copied onto the computer.

Before Collecting Answer Sheets
Read this script to determine if any students need to complete nontest information on their answer sheets.

To all students, say:

If you still have nontest information to fill out on your answer sheet, including any new score sending selections that you want to make, please open your answer sheet to page 2 (or page 5 for a large-block answer sheet). Sit quietly and do not write anything on the answer sheet while I dismiss other students. In a few minutes I’ll help you complete your answer sheets.

If you have already completed all the nontest information on your answer sheet, leave your answer sheet face up on your desk.

For students who have completed nontest information on the answer sheets, proceed to Collect Answer Sheets on page 88. When you have dismissed these students, return to Completing the Answer Sheets below for any students remaining.

Completing the Answer Sheets
Distribute a copy of the Student Answer Sheet Instructions and Mobile Opt-In Policies document to students remaining in the room and completing the nontest information on their answer sheets. Students may keep the Mobile Opt-In Policies, but check that the student has not recorded any test questions or information on it.

To all students, say:

Follow along in the Student Answer Sheet Instructions booklet as I read instructions to you.

Students using braille, MP3 audio, or ATC formats may need you to read instructions from the Student Answer Sheet Instructions.

For fields 9–13, say:

Turn to page 2 (or page 4 in the large-block answer sheet), and fill in your address in fields 9–12. Leave field 13 blank. Raise your hand if you have any questions. Look up when you’re done. [pause]

For field 14, say:

Find field 14 on page 2 of your answer sheet (page 5 of the large-block answer sheet). When you take the SAT as a part of SAT School Day, you’re entitled to send your scores—for free—to as many as 4 colleges or scholarship programs. Completing this section is optional. Colleges and universities are always eager to get scores from students, even if you’re not ready to apply.

Find the Score Reporting Code List, in your Student Answer Sheet Instructions booklet. Use this list to find the 4-digit number for the schools or scholarship programs you want to send your scores to. The U.S. colleges and universities are listed first in order by state, and then alphabetically by name. Institutions in U.S. territories come next, followed by international ones. The final list in this document shows scholarship programs listed by state or country, in alphabetical order.

For each place you want to send scores to, copy the 4 digits in the boxes and fill in the corresponding bubbles (if using a large-block answer sheet, print the digits as clearly as you can). Let me know if you have any questions.

Look up when you’re done. [pause]

Now say:

If you have no other information to include on your answer sheet, close the Student Answer Sheet Instructions and your answer sheet, and place the answer sheet face up on your desk. I will help other students start completing the rest of the answer sheet, and while they are working, I will dismiss anyone who is finished testing.

Read the remaining scripts below if you have students who need to complete fields 15–38. Proceed to Collect Answer Sheets on page 88 if no one needs to complete these fields.

For field 15, say:

Turn to page 3 (or stay on page 5 if using a large-block answer sheet). Field 15 asks if you would like to opt in to Student Search Service. This service can help you connect with opportunities. Saying “Yes” to this service allows eligible colleges, scholarship programs, and other educational programs to send you information about the educational and financial aid opportunities they offer. Colleges and universities and scholarship and other educational programs that request it will receive information you provide on the answer sheet, but they will not receive your actual test scores or phone number.
There is more information about the Student Search Service in your Student Answer Sheet Instructions. If you do not answer and previously chose to participate in this service, the College Board will continue providing your information. Please make your selection.

**For field 16, say:**

If you'd like to get information from the College Board via email, including information about your scores once they become available online, write in your email address and fill in the corresponding bubbles in field 16. Indicate at the top of the field whether this is your own email address or a parent or guardian’s address. If you give your own email address and opted in to Student Search Service in field 15, you may also get information from colleges sent to your email address. [pause]

**To all students, for field 17, say:**

Field 17 asks for your U.S. mobile number. Only U.S. mobile numbers are accepted. Please review the document I gave you about the Mobile Opt-In Policies before deciding whether to give your number. You will be able to take this document home with you for later reference. By providing your number, you agree to receive text messages from the College Board about the SAT, to participate in research surveys, and to get free information on college planning services. Standard text messaging rates apply. You may opt out at any time. The College Board will not share your phone number with other organizations. This field is optional. If you agree to these terms, enter your phone number and fill in the corresponding bubbles. Please look up when you're done. [pause]

**When everyone is ready, say:**

Now we'll complete the rest of the non-test questions, which ask for more information about you, your educational background, experiences, and outside school activities and interests.

There are certain advantages for you to complete this optional information. If you opted in to Student Search Service, it's provided to colleges, universities, and scholarship providers, and used to identify students who may be interested in the opportunities they offer. However, it's important that you know the College Board will also be able to use this information and provide it to others for additional uses, such as research.

You can complete this section or leave it blank—it's up to you. If your parent or guardian has told you that you shouldn't complete any optional or voluntary information, please just sit quietly as we go through this activity. Do not complete any field that asks for information your parent or guardian has told you not to provide.

Instructions for how to complete these fields are provided in your Student Answer Sheet Instructions booklet starting on page 3. Follow the instructions to complete fields 18–21. Then turn to the inside back cover of your answer sheet (or page 8 in your large-block answer sheet) to complete fields 22–38. Raise your hand if you have any questions. [pause]

When you're finished, close your Student Answer Sheet Instructions booklet and place it next to your answer sheet on your desk. Place your answer sheet face up on your desk. Please wait quietly while others finish.

**IMPORTANT:** If you have students who only asked to change their score sends, you can dismiss them while others are completing the fields.

When you are ready to dismiss students, continue with the instructions under Collect Answer Sheets.

**Collect Answer Sheets**

Collect an answer sheet (and Student Answer Sheet Instructions booklet, if applicable) from each student who is ready for dismissal—these students should have their answer sheets placed face up on their desks.

For each student, before moving on to the next person, do the following:

- Check to see that all the identifying information on the answer sheet is complete. Ensure that the letters in field 1, Name, correspond to the filled bubbles in each column. Answer sheets without a label must have fields 1–8 (Name, School Information, Student ID Number, Current Grade, Date of Birth, and Sex) filled in.
- If there is a discrepancy, ask the student to show ID and explain the discrepancy. Document this on an IR.
- If you suspect impersonation, note the student's name on the IR. Notify the test coordinator immediately.
- Flip the answer sheet over to make sure students have completed the Form Code and other fields from the Complete on Test Day section, fields A–E. (For large-block answer sheets, these fields are on page 16.)

Proceed to Before Dismissing Students.
Before Dismissing Students

Make sure answer sheets are not inserted in or between test books or Essay books (if any).

- Verify by count that you have a multiple-choice test book, an Essay book (if any), and an answer sheet for each student being dismissed.
- Verify by serial number that you have collected the test books assigned to your room.
- Keep students seated until you are sure you have an answer sheet and the testing materials assigned to each student.
- Make sure students have completed all fields on the front page of the answer sheet (fields 1–8) and the test information (A–E) on the back of their answer sheets. (On the large-block answer sheet, the fields have the same numbers/letters, but different locations on the answer sheet.) These fields must be completed for a student to receive a score report.
- If you have any students who are approved to write their answers in the test book, you must ensure that their answer sheets include the students’ personal and test information for fields 1–8 and A–C and E before dismissing students. You must transcribe their answers after students are dismissed.

After all materials are accounted for, say:

Remember, you should not, under any circumstances, take any test questions from the testing room, give them to anyone, or discuss them with anyone through any means, including email, text messages, or the internet.

To students who completed the SAT Essay, say:

In addition, you are not permitted to discuss or share today’s Essay question until after the Essay is available online.

Returning collected items:

If you have collected personal belongings from students, read script A.

If you have not collected any belongings, read script B.

READ ONLY ONE OPTION.

A To students who need to collect their belongings, say:

This test administration is now over. As you prepare to leave, please come up and retrieve your personal belongings that I collected from you earlier. Once you have all your belongings, you may exit the room quietly. Please keep in mind that students in other rooms may still be testing. Congratulations again and thank you for your participation and for all of your hard work.

B To students who have all their belongings, say:

This test administration is now over. Gather your belongings, and exit the room quietly. Please keep in mind that students in other rooms may still be testing. Congratulations again and thank you for your participation and for all of your hard work.

Once all students have left the room, continue with the tasks under After Students Leave the Room.
After Students Leave the Room

TASKS

Transcribe Student Responses for Scoring
A completed answer sheet must be submitted for a student to receive a score report.

- If you have any students approved to write their answers in the test book, do the following:
  - On the test book, write the student's name, 6-digit school (AI) code, and litho code (8-digit serial number) from the shaded box on the bottom right corner of the answer sheet.
  - Transfer responses from the test book to the regular answer sheet pages.

- For students approved to use braille writers or computers to record answers, you or a monitor or support staff member must:
  - Transfer multiple-choice and student-produced responses from braille or computer pages to the regular answer sheet pages. (Typed essays do not need to be transcribed, and should be returned according to the instructions under Prepare the Typed Essay for Scoring.)
  - On the materials from which you transferred answers, write the student's name, 6-digit AI code, and answer sheet litho code.

- Clip transcribed answer sheets to the associated test books and deliver them to the test coordinator to return with the used accommodated answer sheets.

Prepare the Typed Essay for Scoring
If you have tested students who were approved for a computer to type their essays, prepare the typed essay for scoring as follows:

- Ensure that each essay page includes identifying information so that the essay can be matched with the student's answer sheet. On the back of each page—leaving a minimum of a 2-inch margin at the top and a 1-inch margin at the bottom, left, and right of the page—write the following information:
  - Name (if not already printed by the student)
  - 6-digit school (AI) code
  - Original answer sheet litho code number (shaded box in the bottom right corner of page 1)

- Attach the typed essay page(s) by paper clip to the student's answer sheet and place both into the white Accommodated Testing Envelope.

- Print and save an extra copy of the typed essay with the student's name written on it and give it to the coordinator for their records.

- If the essay cannot be included with the answer sheets (e.g., printer failure), note this on an IR. Do not allow retyping of an essay for any reason once the test is over. Doing so will result in score cancellation.

  IMPORTANT: After you have printed and saved a copy of the essay, check to make certain the essay file is deleted and the computer's deleted items folder is emptied before turning off the computer.

- Make sure the Essay Code has been gridded in on the answer sheet (page 6).

Finish Up

- Complete and sign the Testing Room Materials Report form and seating chart.
- Fill out an IR if you encountered an irregularity.
- Include all materials from which you transferred answers with the used answer sheets when you return materials to the test coordinator.
- Make sure your room roster or NAR identifies who was present or absent.
- Check the testing room to make sure nothing has been left behind.
- Check that all flash drive formats have been returned to their packaging.
- Ensure that all temporary files are deleted from computers.
- Return the annotated room roster or NAR, the completed Testing Room Materials Report form, and all test materials and forms to the test coordinator.

Sample Nonstandard Administration Report (NAR)

The NAR will include a summary of students with their SSD numbers, followed by a listing of the students with accommodations who will test on the primary test date. If applicable, the primary test date list will be followed by another section that provides a listing of students with accommodations who will complete testing during the accommodated testing window. The NAR will also provide additional instructions for testing students with accommodations. The sample below shows a page from a NAR showing two of these groups of accommodated students.

### SECTION 2 - STUDENTS WHO CAN COMPLETE THE TEST OVER THE ACCOMMODATED TESTING WINDOW

**Information about window testing:**

- All students in this section are eligible to complete testing during the accommodated testing window. Testing can begin as early as the primary test date and can extend through the timeline indicated in your Coordinator Manual.
- All students testing over two days should complete their testing on the next consecutive day within the window whenever possible. If a student is absent on the second day, they can resume testing on the day they return to school.

**Instructions:**

- Work with the test coordinator to identify which testing rooms students will be assigned to before the test day.
- Students with the same testing group can be tested together. Be sure to place students with different testing groups into separate rooms.
  - Note: Students in the following testing groups cannot test together and must test in their own, individual room (1:1 setting): SB1, SB2, SB3, SB4, SB15 and SB28. For example, if you have 4 students in group SB1, you will need 4 rooms for them (one for each student).
- If your school is using testing room codes, your test coordinator will provide you with the three-digit code for each of your testing rooms. Write in the testing room code and Proctor assigned to each student/group.
- On test day, mark an “A” next to any student who is absent.
- Test scripts are located in your SAT School Day Accommodated Testing Manual. All staff will BEGIN reading from the section labeled “SAT Scripts for Testing Accommodated Students” and then PROGRESS to the script name listed for each student on your roster.
- Refer to the Appendix for any additional instructions and a description of the script name listed on the roster.

Photo ID Requirements

Acceptable IDs
You are not required to confirm with a photo ID the identity of students who regularly attend your school and are familiar to you. For students who are unfamiliar to you, refer to this list of acceptable and unacceptable forms of identification.

ID Requirements
Photo IDs aren't required for SAT testing unless a student is testing at a school they do not normally attend.

To be acceptable, a photo ID must:
- Be a valid (unexpired) photo identification that is government issued or issued by the student's school. (A school ID from 2017-18 is valid through December 31, 2018, and is not acceptable for spring 2019 testing.)
- Be an original, physical document (not photocopied or electronic).
- Bear the student’s full, legal name.
- Bear a photo that clearly matches the student’s appearance. Black and white photos are acceptable.
- Be in good condition, with clearly legible English language text, and a clearly visible photo.

Examples of Acceptable ID
- Government issued driver's license or non-driver ID card
- Official school-produced student ID card from the student's current school
- Government issued passport or U.S. Global Entry identification card
- Government issued military or national ID card
- SAT School Day Student ID form, available under Educator Downloads at sat.org/school-day (must be prepared by the student's school or signed by a notary if a student is homeschooled)

Unacceptable IDs
Types of Identification to Reject
- Any document that doesn’t conform to the requirements
- Any document that is worn, torn, scuffed, scarred, or otherwise damaged
- An electronic document presented on a device
- Any document that appears tampered with or digitally altered

| Defective answer sheet             | • Replace defective answer sheet. Direct the student to print their name on the new answer sheet, then continue with next question.  
  - If testing time is lost because of defective answer sheet, allow the student to make up the time, and complete the demographic information, at the end of test administration.  
  - **Important**: After testing is over, have the student completely grid their name (1) school information (2–4), student ID number (5) if available, grade level (6), date of birth (7), sex (8), and fields A–E on the back of the answer sheet. Make sure that both answer sheets have these items completed, and clip both answer sheets together.  
  - Return with other used answer sheets.  
  • If an extra answer sheet is not available, follow the procedures in this chart under “Insufficient number of answer sheets.”                                                                                                                            | Describe the defect and note any loss of testing time. If time was made up, indicate when. Include the litho code (8-digit serial number) from the front of answer sheet. If a defective answer sheet has no student marks on it, attach it to the IR.

| Defective test book                | • Replace the defective book if you have an extra book with the same cover that doesn’t have the same defect. If able to replace the book, direct the student to continue testing with original answer sheet.  
  • If the test book can’t be replaced, dismiss the student and tell them they will take a makeup test. Add this student to your list of makeups needed and order makeup testing materials.  
  • If the defective test book causes a loss of testing time, allow the student to make up the time for that section at the end of test administration.  
  • On front cover of the test book, print “Defective” and identify error, school number, and location and nature of defect.                                                                                                                                                                      | Describe the defect. | Admission/Identification Issues    | **Student changing from standard to accommodated**  
  The test coordinator may allow a student to change from standard to accommodated testing when they have confirmed the student’s eligibility approval. The test coordinator will follow these steps as long as they have appropriate materials and enough staff and space available:  
  • Mark the student as moved on the standard room list.  
  • Add the student to the NAR and note their SSD eligibility number.  
  • Write a note for the student to present to you, asking that you add them to your room roster.  
  • Provide the appropriate testing materials for the student.                                                                                                                                                                                                 | No IR is needed.                                                                                                                                                       |

  • Ask the student to close test book or direct student to proper section of test book. Warn the student individually that a subsequent violation will be grounds for dismissal. (You don’t need to complete an IR for a warning.)  
  • If behavior continues, collect the test book and answer sheet. Notify the coordinator and dismiss the student. Do not readmit the student to the testing room.

  - Tell the student to hand it to you immediately.
  - Inform the student that you must write up the incident, their scores will be canceled, and the device will be returned.

- This should not be considered grounds for immediate dismissal, as long as the device is not under the desk or otherwise in the student’s possession.
- The proctor should turn off the phone in order to prevent additional disturbances during testing.
- The proctor should issue a warning to the student who owns the phone that additional disturbances will result in dismissal.
- You do not need to report these actions on an IR.

**Test coordinator:** If you have any suspicion that the device was used to share test information, immediately call School Day Support while the student is still in your charge.
