Introduction

As the SAT School Day associate supervisor, you play an important role in ensuring the successful administration of the SAT, a key milestone on the path to college for many students. Taking the SAT during the school day in a familiar, easily accessible environment allows students to improve college and career readiness. It also means that more students can participate in College Board programs that support college access.

Using This Manual

This manual is for associate supervisors’ use for SAT School Day testing only (not Saturday or Sunday testing) in spring 2018. Please do not share it with students or anyone else besides testing staff.

Where appropriate, the content is organized with tasks (what you need to do), followed by key information (what you need to know) related to those tasks. For example, tasks related to room set up are followed by key information about seating requirements.

You'll also find a list of key terms later in this introductory section.

Before the Test

Before the test you’ll need to complete the training, and you’ll need to prepare your room and materials. Completing the tasks in this section prepares you for testing.

During the Test

During the test you’ll administer the test by reading aloud the scripts exactly as they appear in this manual. Scripts appear in tinted areas; all other text is for your information and not to be read aloud.

After the Test

After the test you’ll have a few things to do to wrap up the administration, such as accounting for all materials and returning them to the supervisor. Completing the tasks in this section ensures that students receive their scores.

Important Changes

The College Board is making significant improvements to SAT School Day. Your supervisor can now use the test ordering site that is used to order PSAT–related assessments to order SAT School Day materials. The online ordering site simplifies and centralizes tracking, ordering, and returning test and makeup materials. Some of the changes that affect you are:

1. The answer sheets have changed:
   a. Students will answer questions about themselves, their high school experiences, and their college plans on the answer sheet. This eliminates the need for a separate questionnaire form. They can also use their four free score sends by marking where they want to send their scores directly on the answer sheet.
   b. The answer sheet also includes a testing room code field. Your supervisor may elect to assign a three-digit code to each test room to allow more timely identification of answer sheets related to any reported irregularities.
   c. All forms reference the six-digit school (AI) code. Test center codes are no longer used.
2. To allow you to save time on test day, your school will receive answer sheets and related instructions in a separate shipment from your test books.
   a. Your district or state may also have submitted a file for pre-ID labels, which your supervisor will need to apply before distributing answer sheets to you for your students.
   b. You may be asked to lead a preadministration session to allow your students to fill in student background information and request their four free score sends before test day. The instructions for such a session are in the “Before Test Day Tasks and Information” section of this manual.

3. Admission tickets are no longer issued, making your test administration easier and more manageable.

4. Your school may be providing printed support aids for English language learners (ELL students), such as translated directions or word-for-word glossaries. Your supervisor will provide these materials to you if needed by the students testing in your room.

Testing Basics

About the SAT

The SAT is part of the SAT Suite of Assessments, closely aligned assessments that reflect what students are already learning in their classrooms and help educators monitor student progress. Visit sat.org to learn more about the SAT Suite.

The SAT focuses on the skills and knowledge that research indicates are essential for career and college success.

Standardized Testing

Uniform procedures are essential to a standardized testing program. To ensure comparable scores, testing staff must follow the same testing procedures and give instructions exactly as they appear in this manual.

Please ensure that you comply with all applicable laws, including those relating to discrimination. By strictly following our policies and procedures, you give students the best guarantee of fair testing and the best possible test day experience.

As the associate supervisor, you are responsible for conducting a secure, valid administration. You are accountable for everyone in the testing room and everything that takes place there. You will account for all testing materials, conduct the testing, appropriately document irregularities, and monitor students to ensure a fair administration.

If you also serve as the SSD coordinator for your school, you will have other responsibilities as well. The SSD coordinator works with students to apply for College Board–approved accommodations through the SSD online portal. In addition, the SSD coordinator accesses and prints the NAR and assists the SAT School Day supervisor in determining testing rooms and staff needed for administering the test with accommodations. All testing materials, including nonstandard materials for use during the accommodated testing window, are shipped to the supervisor; however, the SSD coordinator can assist in ensuring the secure storage and timely return of any materials that remain in use after standard materials used on the primary test date have been returned for scoring.

Test Types

SAT School Day offers three ordering and administration options:

1. SAT (students won’t take the essay)
2. SAT with Essay (all students take the essay)
3. Both SAT and SAT with Essay (must be administered in separate rooms)

IMPORTANT: If your school is testing as part of a contract, your district or state will determine which options are available to your students. These are the only options that will be displayed in the test ordering site.

Test Sections and Timing

Everyone testing on the primary test date will need to begin testing at the same time. Use the sample schedule in the Appendix to aid in planning.

The SAT is composed of several tests that follow the same order in every test book.

Evidence-Based Reading and Writing: Includes a Reading Test and a Writing and Language Test. Each test is composed of multiparagraph passages and multiple-choice questions.

TIME ALLOTTED:
- 65 minutes for Reading
- 35 minutes for Writing and Language

Math: Includes two portions: one that permits calculator use and one that does not. Each portion is composed of multiple-choice and student-produced response questions.

TIME ALLOTTED:
- 25 minutes for Math Test – No Calculator
- 55 minutes for Math Test – Calculator

SAT Essay (in separate book): Students are asked to read a passage and analyze how the author builds an argument to persuade an audience.

TIME ALLOTTED:
- 50 minutes
Accommodated Testing Overview
The College Board is dedicated to ensuring that students with disabilities receive appropriate accommodations on tests, such as braille, large-print tests, and extended time. Using the College Board’s SSD Online system, SSD coordinators can manage student requests and approvals for accommodations. Once approved, students remain approved for College Board accommodations until one year after high school graduation. See “Prepare to Test with Accommodations” for more information.

Terminology

Key Terms
The following terms are used frequently in this manual.

Accommodation: A change in the format or administration of a test to provide access for a person with a disability and produce college-reportable scores. Must be approved by the College Board. Some examples include extended testing time, special formats of the test, large-block answer sheets, readers, writers, sign language interpreters for spoken test instructions, extended or more frequent rest breaks, and others.

AI code: A six-digit code that identifies an attending institution (a school where a student is enrolled). Each attending institution has a unique AI code. This code is sometimes referred to as a CEEB code or a school code.

Associate supervisor: Staff member responsible for conducting a secure and fair test administration and for reading the scripts aloud to students. Accountable for and monitors everyone and all testing materials in the testing room.

ELL: English language learner.

ETS: Educational Testing Service. The College Board partners with ETS to support test administration in various capacities.

Hall proctor: Person responsible for monitoring the hallways during testing.

Irregularity: A problem, disruption, or unacceptable behavior during a test administration. An irregularity may result in a canceled test score or a required makeup. Refer to the Irregularity Chart in the Appendix for more information.

Litho code: Eight-digit serial number listed on the answer sheet at the bottom right corner of the first page. This code is used when reporting irregularities.

Master Student List: The list of test takers developed by the test supervisor for a test administration at a particular test site or school.

Nonstandard Administration Report (NAR): A list of students approved for accommodations who are taking a specific test. Generated in SSD Online, it includes detailed information about the accommodations the students are approved for.

Pre-ID label: Label provided for each student for schools that participate in bulk registration (preidentification) of students. Label contains some student personal information, such as name, school, birth date, and grade level. The pre-ID label is applied to the answer sheet before the test.

Room proctor: Person responsible for assisting the associate supervisor with monitoring students in the testing room.

Room roster: The list of students assigned to a particular testing room.

Services for Students with Disabilities (SSD) Office: College Board department that supports accommodation requests and accommodated testing.

SSD coordinator: School staff member who works with students to apply for accommodations through the SSD Online portal, accesses and prints the NAR for the supervisor, and assists the supervisor in determining testing rooms and staff needed for administering the test with accommodations.

Supervisor’s Irregularity Report (SIR): Scannable form used to document any irregularities that occur, including security incidents, misconduct, test question errors or ambiguities, other incidents or disturbances, or student complaints.

Test supervisor: The staff member responsible for managing the test site and testing staff and for ensuring all test materials are handled securely. The person assuming this role is expected to be at the school to supervise all activities related to testing, including accommodated testing.
SAT Test Materials

The supervisor will provide all the necessary materials needed on test day for your room.

Test Books

The test books for students who are required to test on the primary test date have covers with purple accents. They display the test name (SAT or SAT with Essay), along with important notes for the student. For the SAT with Essay, you’ll also have Essay books to distribute. An essay icon appears on covers for both the SAT with Essay test books and the separate Essay books.

Students testing with accommodations may use standard purple test books or accommodated materials that are blue, depending on their approved accommodations. See a copy of the NAR for more information.

Rosters

Each associate supervisor will receive a roster for their room.

Forms and Reporting

You need to be familiar with the reports and forms used in the testing room.

Testing Room Materials Report Form (Required)

The Testing Room Materials Report form is provided on the back cover of this manual.

- The supervisor uses the Testing Room Materials Report form to indicate testing room information, including the associate supervisor assigned to the room, the testing room code, and the test materials issued to the associate supervisor.
- Inside the testing room, the associate supervisor uses the Testing Room Materials Report form to check the testing materials received against the serial numbers listed on the form.
- As indicated in the scripts, the associate supervisor uses the seating chart on the back of the Testing Room Materials Report form to record the serial number of each multiple-choice test book distributed to each seat in the room.

- If possible, staff should include the last name of each student. If any issues arise, the chart will be used in investigating the reported irregularity.
- In the SAT with Essay room, the associate supervisor should check the number of Essay books received from the supervisor and record the number returned to the supervisor.

SAT School Day Supervisor’s Irregularity Report (SIR)

You will receive at least one blank SIR to use in the event an irregularity occurs during School Day testing. The testing staff performs a critical role in reporting any and all irregularities and affected students.

Without information, we can’t resolve issues that arise. All SIRs submitted are thoroughly reviewed. Refer to the irregularity chart in the Appendix in this manual for instruction on when to fill out an SIR.

Request to Cancel Test Scores Form

Students use this form to request score cancellation. Direct students to fill out the form with exactly the same information that’s given on their answer sheets or pre-ID label, if applicable.

Students must sign and date the form, then submit it in one of the following ways:

- Hand the form to the testing staff before leaving on the day of the test.
- Fax the form to the number indicated no later than 11:59 p.m. ET on the fourth business day following the date testing ends.
- Send the form by overnight delivery to the address indicated, to arrive no later than 11:59 p.m. ET on the fourth weekday following the date testing ends.

Scores cannot be canceled by email or phone.

In cases of equipment failure or illness, the associate supervisor must sign the form for students who decide to cancel their scores using the SAT School Day Request to Cancel Scores form. Fill out an SIR in these cases. An SIR is not necessary for other cancellation situations.
Prepare Yourself

**TASKS**

- Read this entire manual.
- Sign the Testing Staff Agreement.

Prepare to Serve as SSD Coordinator

If you are the SSD coordinator for your school, you will have some additional tasks to complete to ensure that students who need accommodations can test successfully.

**Review Approved Students**

- Identify students who will be testing this year and confirm accommodations.
- Use the dashboard to lookup students, or print the eligibility roster. The roster lists all students approved for accommodations at your school.
- For new students or students who need accommodations that have not yet been requested, submit a request in SSD Online.
- For students with previously approved accommodations, verify:
  - The accommodations approved match the student’s current identified IEP/504 accommodation needs.
  - The student’s name, birth date, and graduation date are correct.
  - The student is receiving the testing accommodation on school and district assessments.
- For any students no longer at your school, notate the information on the eligibility roster. Fax the roster to (866) 360-0114 to have students removed from your dashboard and reports.

**Work with Supervisor**

The SSD coordinator will need to supply the supervisor with:

- Notification when they are alerted by email of the College Board decision for an accommodations request. This will prompt the supervisor to order test materials for that student and update the Master Student List.
- A list of needed personal assistants for staffing purposes.
- Help with setting up any computers for typed essays or USB formats.
- Assistance with planning for rooms and materials.

**Download and Verify the NAR**

You need to supply the supervisor with the NAR regularly in the weeks leading up to the test administration. An updated NAR can be accessed through SSD Online.

**Preparing for Testing with Accommodations**

Review the tasks and key information that apply to the accommodations you are providing in your room.

The College Board requires preapproval for all accommodations. Providing accommodations without authorization may result in the student’s scores being canceled. To help ensure that the students testing in your school receive reportable scores, provide testing accommodations only under one of the following conditions:

- The student appears on the online NAR accessed by the SSD coordinator.
- Your SSD coordinator has verified the student’s eligibility with the College Board SSD office.
The student has a documented College Board approval for accommodations.

The student is included in the school’s online dashboard of students with approved accommodations (available to the SSD coordinator through the SSD Online system).

Students who are approved for accommodations will fall into these groups, as indicated on the NAR:

- Those who will use standard (purple) testing materials and must test on the primary School Day test date, and
- Those who will use accommodated (blue) testing materials and may test on any day during the accommodated testing window.

Accommodated students must adhere to all standard testing administrative procedures, requirements, and timing regulations, unless otherwise approved as an accommodation. Students approved to test with accommodations cannot elect to test without those accommodations unless they present a written statement signed by a parent/guardian or by the student if over 18 years of age.

**TASKS**

**Prepare to Use the Scripts**

Your supervisor will provide a copy of the NAR with the students assigned to your room and their accommodations. A day or two before test day, review the list and make sure all of the students in your room are taking the same test with the same timing. There are six test scripts for the SAT based on the type of accommodation(s) a student is approved for. The first three scripts may be used with either the standard (purple) materials on the primary test day or with specific accommodated (blue) materials during the testing window. The second three scripts are used with the specific accommodated (blue) materials during the accommodated testing window. Take time to study the section “Using the Scripts” under “During the Test Tasks and Information” to make sure you are ready to use the correct scripts for the students assigned to your room.

Review the chart “Overview of Timing and Breaks” in the Appendix, and map out any shifts from one script to another that might be needed in your room.

These are the scripts:

- Script 1: Standard Time for Accommodated Students
- Script 2: Standard Time with Extra Breaks
- Script 3: 50% Extended Time for One-Day Testing
- Script 4: 100% Extended Time
- Script 5: 50% Extended Time for Two-Day Testing
- Script 6: MP3 Audio Format

**Plan for Computer Usage**

If you are testing students with any of the following accommodations, your school must provide a computer for the student:

- Computer use for the essay
- MP3 audio format
- ATC format
- An electronic braille writer must be connected to a monitor so that the proctor can see what the student is typing. In addition, a student may not use a personal computer or a computer belonging to their family as a braille writer.

Make sure necessary computers are provided in rooms.

- For students using MP3 audio or ATC format, make sure the computers have USB ports.
- For students approved to use a computer for the Essay, make sure the computer provides word processing software. The computer must be attached to a working printer.
- Test the equipment before test day and ensure that important precautions for electronic equipment are followed. See “Prepare Your Room for Test Day” later in this section for related tasks and information.

**Plan for Personal Assistants and Aids**

Students may be approved for accommodations such as a reader to dictate test questions, or a computer, braille device, or scribe to record responses. You will be provided additional materials (for example, a Reader’s Script) for personal assistants. Be ready to distribute these materials to the assistants when you distribute other test materials during the test administration.

If you are testing students who need the following accommodations, plan ahead to provide them.

- Students assisted by a reader or a scribe:
  - Will test with at least 50% extended time (or more, depending on their accommodations).
  - If taking the SAT with Essay, students using a reader or scribe will test over two days.

- Students who are deaf or hearing-impaired may:
  - Have a sign language interpreter translate test directions from spoken English. Sign language interpreters may only provide translations of your instructions to the student, not of test content.
  - Be approved to have a copy of the spoken directions and/or blank paper for communicating with the test administrator available on test day.

- Students may use the Guide to the Nemeth Code if they are taking the braille format of the SAT.

When students are approved for these accommodations, the SSD office will contact your supervisor, so that you are prepared.
KEY INFORMATION

Types of Accommodations and Materials
We offer extended time; special formats such as braille, MP3 audio, and large-print materials; and other accommodations to approved students with documented needs. Some students may be approved for one or more alternate test formats. A brief explanation of how to administer these formats follows. The information here will help you plan for administering the test to students using these formats.

Timing and Breaks
Some of your students may be approved for accommodations that require different timing and/or breaks for one or more sections on the test.

- There are different types of breaks a student can be approved for. See “Testing in the Accommodated Room” for more information.
- Students will get extended time only for the subject area(s) they’re approved for (e.g., math only or writing only). **Exception: Students approved for extended time for reading will receive extended time for the entire test.**
- You may need to use combinations of scripts for some students. See the “Overview of Accommodated Timing and Breaks” chart in the Appendix for detailed information about which scripts to use for various accommodations.

Accommodated Testing on One Day
The first three scripts in this manual can be used for all types of one-day testing.

- Script 1: Standard Time with Accommodations.
- Script 3: 50% Extended Time for One-Day Testing.

Accommodated Testing During the Window
The accommodated testing window begins on the primary test date and extends through the following two weeks. Testing during the window encompasses combinations of accommodations, and may involve using the following scripts or combinations of any of the scripts in the manual.

- Script 4: 100% Extended Time. This script covers:
  - One-day testing for math only 100% extended time.
  - One-day testing for writing only 100% extended time on the SAT with Essay.
  - Two-day testing for reading 100% extended time.
  - Two-day testing for combined math and writing 100% extended time on the SAT with Essay.

**IMPORTANT:** Students using the ATC format test must receive 100% extended time for Section 2. All other sections should be timed based on the student’s approved accommodations.

- Script 5: 50% Extended Time for Two-Day Testing. This script covers two-day testing for students taking the SAT with Essay with 50% extended time for reading.
- Script 6: MP3 Audio Format Script. This script covers two-day testing of students using the MP3 audio format, including 100% extended time, plus an additional 45 minutes for Section 2 of the test.

Two-Day Testing
All students testing over two days should complete their testing on the next consecutive day within the window whenever possible. If a student is absent on the second day, they should resume testing on the day they return to school. In most cases, testing on the first day will end with Section 3. See the “Overview of Timing and Breaks” chart in the Appendix for detailed information. You will return the materials to your test supervisor for secure overnight storage. Students will complete the test on the second day.

Large Print
Students who test with large print (14 point, 20 point, or larger font) test with standard time and breaks unless approved for other accommodations. Students may use large-block answer sheets.

Braille Test Formats
- Students who test with braille test formats test with standard time and breaks unless approved for other accommodations.
- Braille test formats are in Unified English Braille (UEB) with Nemeth Code for math. Your supervisor will distribute the proper format to you for each student’s use on test day.
- To supplement each braille test and accompanying braille Essay book (when applicable), a regular-type test book and Essay book are included for your use as a reference. A reader’s script will also be sent in case the student asks to have a question read.
- Provide each student with a copy of the Guide to the Nemeth Code and a braille math reference book.

Braille Graphs and Figures
- Some students who don’t read braille may be approved to use the accommodation of braille graphs and figures (along with a reader or MP3 audio test). Labels and numbers given with braille figures can be found in corresponding locations in both the regular-type and large-type tests.
- The Guide to the Nemeth Code lists the current versions of Nemeth Code mathematical symbols with their meanings. Students taking the braille test, or using the supplemental book of braille math graphs and figures, may refer to it during the test. The Braille Reference Information contains math reference material required for the braille test.
Check and Test Computer Files

If you are testing students who are approved for an accommodation that requires a computer, you need to make sure the computer(s) are ready for test day.

When a student is approved for the use of a computer for the SAT Essay, they are approved ONLY for the use of a word processor to complete the Essay question.

Software or assistive technology, such as screen readers, may only be used when specifically approved by the College Board.

Make sure that computers are not connected to the internet or to any network (disable all LAN or Ethernet connections). Disable all unapproved assistive features such as spell-checkers, grammar checkers, thesauruses, dictionaries, or word processing features (for example, cut and paste).

Tasks

Typed Essays

Typed essays must comply with certain guidelines to be properly scored and for the students to receive online images of their essays. Set up and test the computer and word processor to meet the following criteria:

- Computer is connected to a working printer.
- Access to the internet is disabled as well as all assistive features noted earlier.
- Meets the page setup requirements provided in key information.

If you cannot disable these features, you must monitor students to ensure that they do not use them.

Refer to the key information about “Page Settings for Printing Essays” for specific fonts and other formatting detail.

Braille Writers

Manual braille writers (for example, Perkins Brailler) may be used for all test sections, but unless otherwise approved, electronic braille writers/notetakers (for example, Braille Note) may only be used for essay writing and math calculations. An electronic braille writer can’t be connected to any network, but it must be connected to a monitor so that the proctor can see what the student is typing. In addition, a student can’t use a personal computer or a computer belonging to their family as a braille writer.

USB Flash Drives

The MP3 audio and ATC test formats are delivered on USB flash drives. To use either format, a student must have a computer with a USB port. Chromebook, Mac®, and Windows formats are supported. Since a USB port is required, a tablet may not be used to take the test.

- Prior to test day, check each USB drive to ensure its functionality.
- Ensure each student’s computer is powered on and the USB flash drive inserted.
- Disconnect the computer from any networks and from the internet.
- Verify that all spelling and grammar check tools are disabled. Errors that are to be identified by the student as part of the assessment must not be flagged by software.
- Read the setup instructions given here for these devices thoroughly so that they are ready for use on test day.
- After ensuring the devices function properly, remove and securely store each USB file in its original packaging for use on test day.

Setup for MP3 testing should be done in advance of test day to ensure a smooth administration. From time to time, a license may fail on specific machines or USB ports. If you experience error messages referring to media authorization or unlocking of media and/or licenses, follow the instructions under “Troubleshooting for USB Formats” later in this section.

IMPORTANT: If you have any questions or would like support in walking through this process, please contact SSD.

Set Up Computers for MP3 Audio Users

The USB flash drive contains read-only files and a built-in player to deliver the test content.

1. Print the student’s last name, first name, and middle initial on the back of the MP3 package, and on the back cover of the accompanying regular- or large-type test book.
2. Remove each flash drive from its packaging.
3. Insert the USB flash drive into a USB port.

Set up PCs or Macs

- Open the USB drive:
  - On both PCs and Macs, find the icon in the lower left of your screen.
  - On a Mac, click on the icon to open “Finder.” You should see a description of the USB as a drive in the pop-up list.
- On a PC, right click on the icon and select “File Manager” or “File/Windows Explorer.” The USB drive will appear in the list labeled “This PC” or “Computer.”
- Double click the name of the USB drive.
Prepare Your Room for Test Day

Before Test Day

- Start the software: Double click the software application icon, which is labeled “Start” (.exe” on PC or “.app” on Mac).
- A media player named “Flux Player” will launch.
- When you launch the application, a table of contents will display the sections of the test.

Set up Chromebooks

Start the software: Click the Launcher, the icon on the far left of the taskbar.
- Select “Files,” which will bring up another taskbar.
- Find the USB drive in the task list and click it to display a list of file folders on the drive.
- Open the folder called “Chrome_Version” to access the test sections.

Set Up Computers for ATC Users

The ATC format has been tested with ZoomText® (with and without reader), JAWS®, NVDA®, on both a PC and a MacBook laptop. If you have a student who is using other assistive technology, encourage them to try a practice test as some of the freeware or less commonly used screen readers may not be compatible with ATC files. When using VoiceOver on a Mac, the student must use the mouse, not the keyboard, for navigation. Additionally, Kurzweil does not offer enough functionality to be used for the SAT.

1. Print the student’s last name, first name, and middle initial on the back of the ATC package.
2. Remove each USB flash drive from its packaging.
3. Insert the USB flash drive into a USB port on a computer that has Microsoft® Word and the student’s usual assistive software installed (JAWS or ZoomText for example).
4. You will be asked to enter a password. Enter the password that is on the label in the package containing the flash drive. Do not share the password with the student.

The ATC format is composed of six Microsoft Word files that have been created to work with students’ assistive technology for screen magnification or screen readers.

KEY INFORMATION

Troubleshooting for USB Formats
If you see an error message about failed authorization or unlocking of media files or if you encounter other problems related to the USB, first try changing to a different computer. If you still encounter a problem, follow these steps:
- From within the Flux Player, select the “Help” dropdown menu.
- Click “Contact support.”

Prepare Your Room for Test Day

Your supervisor will provide you with information to post on the board for test day. Review the Testing Room Requirements to make sure your room meets them.
Prepare Your Students

Your supervisor should ensure that all students receive a copy of the SAT School Day Student Guide to help them learn about and prepare for the test. In addition, students will be advised about how to mark their answers and what to bring on test day. Accommodated students may need additional information, depending on their approved accommodations.

- Tell students testing with MP3 audio format:
  - To bring earphones for taking the test.
  - That they will test over two days.
  - To practice using the software with the practice tests provided in your test shipment or by going online to sat.org/practice.

- Tell students using the ATC format to bring earphones if they are using text-to-speech software.

- Tell students with College Board approval to use a calculator on the Math Test – No Calculator portion of the SAT to bring a separate four-function calculator for this purpose. (Percentage and square-root functions are permitted).

- Tell students who are testing in the accommodated testing window when and where to report for testing.

Prepare Your Preadministration Session

TASKS

Prepare for the Session Using Pre-ID Labels

Your supervisor will provide these materials for your session:

- Student Answer Sheet Instructions, a copy for each student
- Prelabeled answer sheets
- Prelabeled large-block answer sheets (if applicable)
- A room roster with the type of answer sheet needed (large-block or standard, SAT or SAT with Essay)
- A copy of the Pre-ID Supplemental Instructions for SAT School Day

Students must receive and bubble in their information on their own answer sheets. Take care to match students with their correct prelabeled answer sheets when distributing them.

Students won’t need to fill in the fields listed on the Pre-ID Supplemental Instructions for SAT School Day provided by your supervisor. Use the memo to update the script under “Script for Answer Sheets with Pre-
**ID Labels.** You’ll need to place a check mark next to each boldface instruction that indicates a section of the answer sheet that can be skipped. Here’s an example:

- **If Address is listed on the “Supplemental Instructions,” tell students to skip boxes 6–10.**

---

**Prepare for the Session Using Unlabeled Answer Sheets**

Your supervisor will provide these materials for your session:

- Student Answer Sheet Instructions, a copy for each student
- Blank standard answer sheets
- Blank large-block answer sheets (if applicable)
- A list of students with the type of answer sheet needed (large-block or standard, SAT or SAT with Essay)

**KEY INFORMATION**

**Pre-ID Label Supplemental Instructions for SAT School Day**

The memo titled “Pre-ID Supplemental Instructions for SAT School Day,” received with pre-ID labels by schools that use them, lists all of the answer sheet fields that are given on your student labels.

---

**Conduct the Preadministration Session**

**TASKS**

- Before starting the session, post any information the students will need, such as the six-digit school (AI) code, school name, city, and state.
- Give each student the correct answer sheet and a copy of the Student Answer Sheet Instructions. A large print version of the Student Answer Sheet Instructions is provided for students with approved accommodations that necessitate large print. If your school has pre-ID labels, make sure you correctly match any labeled answer sheet to the student whose information is on the label. Give any student who doesn’t have a labeled answer sheet a blank answer sheet.
- If your contract allows both SAT and SAT with Essay, check that students have the right answer sheet type: SAT or SAT with Essay.
- Some students may be using large-block answer sheets. This accommodation will be noted on the NAR.
- Choose the script that matches whether you have unlabeled answer sheets or answer sheets with pre-ID labels. Read aloud the scripts in tinted areas and pause when [pause] appears to give students time to follow instructions. Instructions for the associate supervisors that shouldn’t be read aloud appear outside the tinted areas.
- Not every school uses the same approach to various fields on the answer sheet. Watch for scripts with letter designations and read the script that applies to your school.
- Students must fill in the appropriate bubbles (or squares on a large-block answer sheet) for their names, addresses, and other personal information.
- Students should skip boxes 44–48 on the answer sheet because these sections are completed on test day.
- If any students’ labels have an incorrect legal first, middle, or last name, give them a blank answer sheet and securely destroy the one with the incorrect label.
Script for Unlabeled Answer Sheets
Fill in the school code in the script below before beginning.

When students are ready, say:

Today we will complete the identifying information portion of the SAT answer sheet. You’ll also have a chance to answer some questions about yourself and your college plans, and to select up to four colleges or scholarship programs to send your scores to.

If you’re using a large-block answer sheet, read the directions on the front page for how to mark your answers. Your page numbers will be different from those I announce, but the field numbers will be the same as the box numbers I give for everyone. You’ll mark the squares with an X instead of filling in bubbles.

For box 1, say:

Begin by filling in your legal last name, first name, and middle initial, if you have one, in box 1. Include spaces, hyphens, or apostrophes if these are part of your name. Print the letters in all caps in the boxes, then fill in the corresponding bubbles. Make sure each mark is dark and completely fills the bubble. Look up when you’re done. [pause]

For box 2, say:

Move on to box 2. Fill in the bubble for “Yes,” if you are testing at your school, then print our school’s name, city, and state. Look up when you’re done. [pause]

In box 3, print our six-digit school code_______ and fill in the corresponding bubbles. Look up when you’re done. [pause]

For box 4, say:

Don’t make any marks in box 4, “Optional Code.”

For box 5, say:

In box 5, fill in all three parts of your date of birth. Any two-digit fields need to start with a zero if the number is less than 10. Be sure to include the bubble for the first two digits of the year you were born. Raise your hand if you have any questions. Look up when you’re done. [pause]

For boxes 6–10, say:

Turn to page 2, and fill in your address in boxes 6 through 9. Leave box 10 blank. Raise your hand if you have any questions. Look up when you’re done. [pause]

For box 11, say:

Box 11 asks for your U.S. mobile number. Only U.S. mobile numbers are accepted. By providing your number, you agree to receive text messages from the College Board about the SAT, to participate in research surveys, and to get free information on college planning services. Standard text messaging rates apply. You may opt out at any time. The College Board will not share your phone number with other organizations. If you agree to these terms, enter your phone number. Please look up when you’re done. [pause]

For box 12, say:

In box 12, fill in the bubble for your current grade.

For box 13, say:

Turn to page 3. If you’d like to get information from the College Board via email, including information about your scores once they become available online, write in your email address and fill in the corresponding bubbles in box 13. Indicate at the top of the box whether this is your own email address or a parent or guardian’s address. If you give your own email address (not a parent’s or guardian’s) and opt in to Student Search Service® at the end of this session, you may get information from colleges sent to your email address. I’ll tell you more about Student Search Service later in this session. Please look up when you’re finished. [pause]

For box 14, say:

In box 14, fill in the bubble for the month you expect to graduate from high school. Then print the two digits for your graduation year in the boxes and fill in the corresponding bubbles.

For box 15, say:

Mark the correct bubble in box 15.
Now say:

We’re now going to skip ahead to question 23. We’ll come back to questions 16–22 in a moment.

Box 23 Student ID/Social Security Number: Read script (A) if your school uses student ID numbers. Read script (B) if your school uses Social Security numbers.

(A) If your school uses student ID numbers, for box 23, say:

In box 23 fill in the bubble labeled “Student ID Number,” then print and bubble in your student ID number, starting with the first column to the left. If there are letters in your ID number, skip them and only enter the numerals. If you don’t know your student ID number, or don’t want to give it, leave box 23 blank. Look up when you’re done. [pause]

(B) If your school uses Social Security numbers, for box 23, say:

In box 23, fill in the bubble labeled “Social Security Number,” then print and bubble in your nine-digit Social Security number starting in the first column on the left. Do not include dashes or blanks. If you do not have a Social Security number, don’t know it, or don’t want to give it, leave box 23 blank. Look up when you’re done. [pause]

To students, say:

Please check the label on page 1 of your answer sheet (or the back of your large-block answer sheet). It will show your name and other information about you and our school. First, please check that I’ve given you the answer sheet that belongs to you. Then, confirm that your legal last name and first name are correctly printed on the label. Raise your hand if the name on your label is not yours or is incorrect. [pause]

Next check that the school code listed is as follows:__________ . Raise your hand if the school code is incorrect. [pause]

Next, check your date of birth, which is marked with the letters “DOB.” Also check that your sex is correctly noted, and your grade. Raise your hand if your date of birth or sex is incorrect. [pause]

Check your address. If your address is incorrect on the label, you will be able to fix it on your answer sheet. Raise your hand if you have any questions. [pause]

Before continuing, resolve any issues with labels:

- If a student’s address is incorrect, but all other information is accurate, they may continue to use their pre-ID label. They can update their address by filling it out on the answer sheet.
- If a student has the wrong label on their answer sheet, see if it belongs to another student. Check the other answer sheets that you distributed to try to locate the correct one.
- If a student’s labeled answer sheet is unusable (has incorrect data on it) or you can’t locate their correct answer sheet:
  - Check with your supervisor to see if an additional preadministration session can be held for these students.
  - If you need to keep them in your session, give them each a blank answer sheet, and tell them to follow your directions to fill in their information. These students should fill in all fields, even those that are marked to be skipped in this “Script for Answer Sheets with Pre-ID Labels.” If you have just a few students in this situation, have them remain after others have finished and been dismissed, then go back to the items they need to complete.

Your state or district may require that students validate their label information by filling in all boxes on the answer sheet. Throughout this section, you can choose either the script that tells students to skip field(s) provided on the label or the script that guides them to fill in the field(s).
**Boxes 1–3** Name and School Information: Read script (A) to students who can skip these boxes. Read (B) to any students who need to supply their name and school information. If you have any students with unlabeled answer sheets, you may need to read both scripts.

(A) To students who can skip boxes 1–3, say:

Don’t make marks in boxes 1, 2, or 3. Your name and school are given on the label.

(B) To students who need to fill in boxes 1–3, say:

Begin by filling in your legal last name, first name, and middle initial, if you have one, in box 1. Include blanks, dashes, or apostrophes if these are part of your name. Print the letters in the boxes, then fill in the corresponding bubbles. Make sure each mark is dark and completely fills the bubble. Look up when you’re finished. [pause]

Move on to box 2. Fill in the bubble for “Yes,” then print our school’s name, city, and state. Look up when you’re done. [pause]

In box 3, print our six-digit school code and fill in the corresponding bubbles. Look up when you’re done. [pause]

For box 4, say:

Don’t make marks in box 4, “Optional Code.”

**Box 5** Date of Birth: Read script (A) to students who can skip this box. Read script (B) to any students who need to provide their date of birth.

(A) To students who don’t need to fill in box 5, say:

Don’t make marks in box 5. Your date of birth is given on the label.

(B) To students who need to fill in box 5, say:

In box 5, fill in all three parts of your date of birth. Any two-digit fields need to start with a zero if the number is less than 10. Be sure to include the bubble for the first two digits of the year you were born. Raise your hand if you have any questions. Look up when you’re done. [pause]

**Boxes 6–10** Address: Read script (A) to students if the address is correctly printed on their labels. Read script (B) to students who need to give their address.

(A) To students who don’t need to fill in their address, say:

Don’t make marks in boxes 6 to 10.

(B) To students who need to give their address, say:

Turn to page 2, and fill in your address in boxes 6 through 9. Leave box 10 blank. Raise your hand if you have any questions. Look up when you’re done. [pause]

To all students, for box 11, say:

Box 11 asks for your U.S. mobile number. Only U.S. mobile numbers are accepted. By providing your number, you agree to receive text messages from the College Board about the SAT, to participate in research surveys, and to get free information on college planning services. Standard text messaging rates apply. You may opt out at any time. The College Board will not share your phone number with other organizations.

If you agree to these terms, enter your phone number. Please look up when you’re done. [pause]

**Box 12** Grade Level: Read script (A) to students who can skip this box. Read script (B) to any students who need to provide their grade level.

(A) To students who don’t need to fill in box 12, say:

Don’t make marks in box 12. Your current grade level is given on the label.

(B) To students who need to fill in box 12, say:

In box 12, fill in the bubble for your current grade.

- If Email Address appears on your school’s Supplemental Instructions for SAT School Day, students with correct labels can skip box 13.

**Box 13** Email Address: Read script (A) to students who can skip this box. Read script (B) to students who need to give or change their email address.

(A) To students who don’t need to fill in box 13, say:

Your label indicates that your email address has been provided. If your email address has recently changed, raise your hand and I’ll give you directions for box 13. If your email address is unchanged, make no marks in box 13.

**For box 14, say:**

In box 14, fill in the bubble for the month you expect to graduate from high school. Then print the two digits for your graduation year in the boxes and fill in the corresponding bubbles. [pause]

**Box 15**  
**Sex:** Read **(A)** to students with correct labels. Read script **(B)** to any students with missing or incorrect labels.

To students who don’t need to fill in box 15, say:

Don’t make marks in box 15. Your sex is given on the label.

To students who need to fill in box 15, say:

Mark the correct bubble in box 15.

**Now say:**

We’re now going to skip ahead to question 23.

- If student ID appears on your school’s Supplemental Instructions, students with correct labels can skip box 23.

**Box 23**  
**Student ID/Social Security Number:** Read script **(A)** to students who can skip box 23. To students who need to fill in box 23, read script **(B)** if your school uses student ID numbers, or read script **(C)** if your school uses Social Security numbers.

- **(A)** To students who can skip box 23, say:
  
  Make no marks in box 23. Your label includes this information.

- **(B)** To students who need to fill in box 23, if your school uses student ID numbers, say:

  In box 23, fill in the bubble labeled “Student ID Number,” then print and bubble in your student ID number, starting with the first column to the left. If there are letters in your ID number, skip them and only enter the numbers. Look up when you’re done. [pause]

- **(C)** To students who need to fill in box 23, if your school uses Social Security numbers, say:

Do not include dashes or blanks. If you do not have a Social Security number, don’t know it, or don’t want to give it, leave box 23 blank. Look up when you’re done. [pause]

**Script for Student Answer Sheet Instructions**

Make sure students have approximately 45 minutes to complete the remaining questions on the answer sheet.

To all students, say:

Take out the Student Answer Sheet Instructions booklet that I gave you at the start of this session.

**For box 22, say:**

We’re now going to skip back to question 22. When you take the SAT as a part of SAT School Day, you’re entitled to send your scores—for free—to as many as four colleges or scholarship programs. Completing this section is optional. Colleges and universities are always eager to get scores from students, even if you’re not ready to apply. If you voluntarily send your scores to an institution, they’ll see it as a sign of your interest in what they have to offer, which makes them more likely to consider your application.

Open your instructions booklet and find the “Score Reporting Code List,” which begins on page 6. Use this list to find the four-digit number for the schools or scholarship programs you want to send your scores to. The U.S. colleges and universities are listed first in order by state, and then alphabetically by name. Institutions in U.S. territories come next, followed by international ones. The final list in this document shows Scholarship Programs listed by state or country, in alphabetical order.
For each place you want to send scores to, copy the four digits in the boxes and fill in the corresponding bubbles (if using a large-block answer sheet, print the digits as clearly as you can). Let me know if you have any questions.

Look up when you’re done. [pause]

### When everyone is ready, say:

Now we’ll complete the rest of the boxes on this page and on the back page of your answer sheet, which asks for more information about you, your educational background, experiences, and outside school activities and interests.

There are certain advantages for you to complete this optional information. With your permission, it’s provided to colleges, universities, and scholarship providers, and used to identify students who may be interested in the opportunities they offer. However, it’s important that you know the College Board will also be able to use this information and provide it to others for additional uses, such as research.

You can complete this section or leave it blank—it’s up to you. If your parent or guardian has told you that you shouldn’t complete any optional or voluntary information, please just sit quietly as we go through this activity. Do NOT complete any question that asks for information your parent or guardian has told you not to provide.

Start at box 16 on your answer sheet. Instructions for how to complete these questions are provided in your Student Answer Sheet Instructions booklet, starting on page 1.

Once you have completed question 21, turn to page 2 of your instructions booklet and to the inside back page of your answer sheet (or next page in your large-block answer sheet) to answer questions 24 through 42. Look up when you are done. [pause]

### When students are ready, say

Box 43 asks if you wish to participate in the College Board’s free Student Search Service. This service can help you connect with opportunities. Saying “Yes” to this service allows colleges, scholarship programs, and other organizations to send you information about the educational and financial aid opportunities they offer. Educational organizations that request it will receive information you provide on the answer sheet, but they will NOT receive your actual test scores or phone number. If you do not answer and previously chose to participate in this service, the College Board will continue providing your information. Please make your selection.

Do not fill in boxes 44–48. You’ll fill in those on test day. When you’re finished, close your instructions booklet and place it next to your answer sheet on your desk. Please wait quietly while others finish. Raise your hand if you have any questions.

---

**IMPORTANT:** If you are guiding students to complete their answer sheets on test day after testing, return to Collect Answer Sheets on page 71.

### Complete the Preadministration Session

- After the session, collect an answer sheet and Student Answer Sheet Instructions booklet from every student. Notify students that their answer sheets will be returned to them on test day.
- The session is now over—you may dismiss your students or carry on with your regular school day.
- Organize the answer sheets and Student Answer Sheet Instructions as directed by your supervisor and return them to the supervisor for secure storage until test day.

Tasks

Follow Your Test Day Schedule

- To ensure standardization across all School Day testing, please adhere to the prearranged schedule as closely as possible.

Prepare the Testing Room

Be sure to:

- Double-check that your testing room meets seating requirements, including guidelines for type and spacing of seats. (See sample seating plan in the Appendix.)
- Assign seats at random or by prearrangement with the supervisor. Never allow students to select their own seats.
- Cover or remove any instructive material, such as maps and charts if not done previously.
- Check the clock to make sure it’s working properly.
- Post this information for students:
  - Today’s date
  - “SAT with Essay” or “SAT,” as appropriate
  - Six-digit school (AI) code assigned to your school
  - School name, city, and state
  - Three-digit Testing Room code (or other room identifier)
  - “Use a No. 2 pencil only. Do not use a pen or mechanical pencil.”
- If provided in your testing room packet (see “Account for Test Materials”), post the “No Electronic Devices” flyer in the room and “Quiet Please” flyer on the outside of your testing room door.

If applicable, post this information for students using MP3 audio format as relevant to the equipment students are using:

- For PC or Mac, starting and navigating the test:
  - Test Directions: Double-click or otherwise select to listen to directions
  - Start Section: Double-click or otherwise select Section icon
  - Next Section: Click the black “Stop” square at the bottom of the screen to return to Section Library
  - Change Volume: Click and drag slider bar at the bottom center of the screen

- Keyboard navigation:
  - Pause or Play: Ctrl/Command P
  - Back: Ctrl/Command B
  - Forward: Ctrl/Command F

- For Chromebook, starting and navigating the test:
  - In the file list, double-click or otherwise select the folder “Test Directions” and then the file itself to hear general usage directions.
  - To select a section, double-click or otherwise select the test section folder (e.g., “SAT Section 1 Reading Test”).
  - To start the files in a section playing, press Ctrl A to highlight all files in the folder, then press ENTER.
  - Chromebook navigation uses the mouse on the media player menu to pause or play.

Ensure that all materials are for accommodated testing.

**IMPORTANT:** Do not distribute any test materials until instructed to in the scripts.

- Check the NAR to ensure that you have the right test materials:
  - Purple test books are for one-day testing on the primary test date.
  - Students approved to test during the accommodated testing window will have specific materials with blue covers.
  - In addition, the test materials should match the administration in your room:
    - Standard SAT answer sheets are salmon colored. Large-block SAT answer sheets have a salmon colored title and box printed on them.
    - Standard SAT with Essay answer sheets are gray. Large-block SAT with Essay answer sheets have a gray title and box printed on them.

**IMPORTANT:** Essay books, if any, will have a colored bar that matches the other materials (purple or blue) as well as an essay icon. Essay books should be distributed only after students have completed all four sections of the SAT test.

Study and Prepare Scripts Before Testing

- Some of the instructions have alternative scripts to read depending on various criteria such as options in use by your school. When you see multiple choices with lettered options (for example, A and B), read the prompts silently before choosing which script to read.
During the Test  Using the Scripts

- Before admitting students, fill in the appropriate information where a blank line “________” appears in the text.

Account for Testing Materials
Your supervisor will provide a packet of testing materials containing:
- A room roster or copy of the NAR showing students assigned to your room
- A Testing Room Materials Report form listing the test materials for your room
- Test books or alternate test formats for your students
- Answer sheets for your students, which may have been prelabeled and/or pregridded, if your school uses pre-ID labels and/or held a preadministration session
- Some blank answer sheets and Student Answer Sheet Instructions for students who need to complete some or all of the preadministration information on answer sheets
- A Supplemental Instructions memo if you have students with pre-ID labels who didn’t attend a preadministration session
- Two optional testing room flyers (“No Electronic Devices” and “Quiet, Please”)
- ELL supports, if your students need them
- Blank forms, including an SIR and at least one Request to Cancel Tests Scores form

Count all of your testing materials when you receive them from your supervisor, when you distribute them to students, and when testing is complete.

- Before admitting students to the room, count the test books for your room and compare the serial numbers to those listed on the Testing Room Materials Report form in your testing room packet. You’ll also record the number of Essay books received (if applicable).
- Later, after testing has begun, you will show the distribution of test books in your room by recording the serial numbers on the seating chart (Part B).
- After testing, when you prepare to return materials to the supervisor, you will record the serial numbers of the test books that you are returning in part A of the form, along with the number of answer sheets and Essay books (if applicable) being returned.
- If you discover that a test book is missing, follow these procedures:
  - If a test book is missing before testing has begun, determine the serial number of the missing book and then check the desk of the student who was assigned that serial number as well as the desks of students who received the test books with serial numbers before and after the serial number of the missing book.
  - If testing has already begun, wait to search the room until a scheduled break or the end of the testing session, but notify the test supervisor as soon as possible. Before dismissing students or starting a break, announce that a test book is missing and that no one will be dismissed until it is located. If no one acknowledges having the test book, check each student desk (even unoccupied desks, since the test book may have been placed there).

If the test book is still missing, ask the test supervisor to call School Day Support immediately. Report the incident on an SIR.

KEY INFORMATION
Distributing Materials
Do not distribute any test materials until instructed to do so in the scripts.
- Test books and materials for your room should have the same color. Depending on your students’ accommodations, they may be purple (primary test-date testing) or blue (testing during the accommodated window).

IMPORTANT: Essay books, if any, will have a colored bar as well as an essay icon. Essay books should be distributed only after students have completed all four sections of the SAT test, after you have read the first instructions under Section 5.

- The other test materials should match the administration in your room:
  - The standard answer sheets for SAT (no Essay) are salmon colored. Large-block answer sheets for SAT (no Essay) have a salmon colored title and box printed on them.
  - The standard answer sheets for SAT with Essay are gray. Large-block answer sheets for SAT with Essay have a gray title and box printed on them.

Using the Scripts
There are six test scripts for the SAT based on the type of accommodation a student is approved for. See the “Overview of Timing and Breaks” chart in the Appendix for more information.
Testing in the Accommodated Room

During the Test

IMPORTANT: Students approved for writing only extended time receive extended time only on the SAT with Essay. Those who are taking the SAT (no Essay) do not test in nonstandard testing rooms unless they have other accommodations that require it.

KEY INFORMATION

Use Script 1 for students who are approved for accommodations that do not require extended time—for example, breaks as needed, extended breaks, computer for essays, or permission to test blood sugar—or who are approved for extended time on only some sections of the test (e.g., math-only).

Use Script 2 for students who receive standard time on some or all sections of the test and are approved for extra breaks.

Use Script 3 for students who are approved for 50% extended time for

- Reading or use of a scribe or writer on the SAT (no Essay).
- Writing only on the SAT with Essay.
- Math only (start with Script 1 or 2).
- Combined math and writing (start with Script 1 or 2).

Scripts 4 through 6 are for use during the accommodated testing window. The testing of students with nonstandard (blue) materials is not confined to these scripts. Some students may require standard timing (Script 1 or 2) for one or more sections of the test, for example. Decide ahead of test day which script or combination of scripts to use for the students in your room.

Use Script 4 for students who are approved for 100% extended time for

- Math only or writing only on the SAT with Essay (start with Script 1 or 2). These students test in one day.
- Combined math and writing on the SAT with Essay (start with Script 1 or 2). These students test over two days.
- Reading on the SAT or the SAT with Essay. These students test over two days.

Use Script 5 for students who are approved for 50% extended time for reading or the use of a reader or scribe on the SAT with Essay. These students will test over two days.

Use Script 6 for students who are using the MP3 audio format. These students will test over two days. Day one testing stops after Section 2 for these students.

Administer the Test

If you’re collecting personal belongings from students:

Before you collect any phones, backpacks, or other personal belongings from students (if your school chooses to do so), students should take out any snacks or drinks to store under their desks during testing.

Check that students are in the correct testing room.

Students testing in your room must appear on the NAR and your room roster.

Tasks

Admit Students to the Testing Room

Admit students one at a time, taking care to assign them seats at random or by prearrangement. If your school is conducting classroom check-in, check each student against the room roster as they enter the room:

- Write a “P” (present) next to the name of each student who checks in.
- If you don’t recognize a student, ask them for identification. Send any student from another school who can’t present acceptable ID to the supervisor.
- After you have closed the testing room door, put an “A” next to the name of any student who is absent.
- Write in student information for students not on the room roster.

If a student arrives late, you can admit them as long as you have not yet begun the timed sections of the test.

Time the Test

- Enter the start and stop times in the script as students begin working on each section; post the times for students to see.
- Announce the remaining time at regular intervals, as noted in the script. This is particularly important if the room clock malfunctions.
- Before you call stop, check your watch against the time you have written down.
- Verify the time with the proctor, if one is assisting in the room.

Refer to the Section Timing Chart in the Appendix to ensure that the stop time is correctly calculated.
During the Test  Testing in the Accommodated Room

Complete the Count of Materials

- On the Testing Room Materials Report form in the back of this manual or provided to you by the supervisor, account for all test materials (used and unused) in Part A of the form. If a book appears to be missing, follow procedures in “Account for Testing Materials” earlier in this section.
- Make a note of the count of Essay books in Part A as well (if applicable).
- Use the chart on the back of this manual (or on the Testing Room Materials Report form if provided by your supervisor) to record the serial numbers of the test books distributed to students and the order in which you handed out the test books.

Monitoring Equipment Use

Follow instructions in the scripts to monitor the use of calculators.

- Only battery-operated, hand-held equipment can be used for testing.
- Students may not share calculators.
- All scientific, and most graphing calculators are acceptable. Four-function calculators are permitted, but not recommended.
- Students may use calculators with enlarged or raised displays, but they should be seated where the calculators are not visible to other students.

IMPORTANT: Students approved to use a calculator on the Math Test – No Calculator section must use a four-function calculator for this purpose. (Percentage and square-root functions are allowed.) Confirm that the calculators in use aren’t more advanced models.

Scheduled Breaks

College Board policy requires every student to be offered breaks at regular intervals. Scheduled break time does not count as testing time.

Students who receive standard time on the entire test, whether taking the test with other accommodations or not, receive:

- a 10-minute break after Section 1
- a 5-minute break after Section 3
- a 2-minute break after Section 4 (if taking the SAT with Essay)

During breaks after Sections 1 and 3, students may go to the restroom or to the area designated for eating snacks.

Students approved for math-only extended time receive standard time on the first two sections of the test, but should receive an extra 5-minute break before Section 3 (Math Test – No Calculator) and halfway through Section 4 (Math Test – Calculator). Students approved for writing-only extended time receive an extra 5-minute break halfway through the fifth section. They receive extended time only on Section 5, the essay, not on Section 2.

The “Overview of Timing and Breaks” chart in the Appendix provides a visual guide to these requirements. The scripts also include break timing.

Some students may be approved for extra and/or extended breaks. Specific timing instructions may be noted on the NAR.

Key Information

Calculator Policies and Guidelines

Calculators may only be used on the Math Test – Calculator portion, unless a student has been preapproved by the College Board to use a four-function calculator as an accommodation on the Math – No Calculator section. To help staff monitor calculator use, the Math Test – Calculator portion will have a calculator symbol at the top of each test book page. Students may only have calculators on their desks when working on these questions. See the Appendix for a list of acceptable calculators.

General policies are as follows:

- All questions can be answered without a calculator.
- We recommend that students bring and use a calculator, preferably one they are familiar with, on the Math Test – Calculator portion of the SAT. A scientific or graphing calculator is recommended.
- Students should supply their own calculators.
- Students may also bring acceptable backup calculators in case their primary calculator or batteries fail, but they need your permission to use them.
- Students may not share calculators.

IMPORTANT: Unless indicated by school policy, staff shouldn’t offer extra equipment or batteries.

Calculator Malfunction

Students should raise their hand if their calculators malfunction before or during the test. Allow them to use an acceptable backup calculator or batteries that they brought and continue to test.

Students without backup equipment may continue testing, since most questions don’t require a calculator. If they choose to cancel their score, they must cancel the entire test. They will need to fill out a Request to Cancel Test Scores form before leaving the testing room.
Unscheduled Breaks
When students take an unscheduled break, the clock does not stop. To maintain security, staff should adhere to the following guidelines for permitting unscheduled breaks:

- Inform students that they won’t get extra testing time.
- Allow only one student at a time to take an unscheduled break.
- Collect their test book and answer sheet before the student leaves the room. Make sure the test book is the actual test book and not a substitute. Fan the book to make sure no pages have been removed. Also collect any ELL supports (translated directions or glossary) the student may be using.
- Never leave the testing room unattended. If possible, have a proctor accompany the student. It isn’t necessary to record this irregularity on an SIR unless you find the activity suspicious.

Administering Extended Time
The SAT is timed by section in all rooms, standard and accommodated. Students must be given the entire amount of time and cannot move on to the next SAT section until time is called. This manual includes timing charts for each script in the Appendix. Students who are approved for extended time are also provided extra breaks, as included in each script.

You should plan ahead for which scripts apply to the students in your room. Students approved for math only or writing only extended time will be tested with a combination of scripts.

Once you have begun each test section, record the start and stop times in this manual in the space provided in the scripts, then post the times on the board for students to see. Use the Timing Charts in the Appendix to ensure that you have correctly calculated the stop time based on the minutes after the hour that you started the section. Each script indicates when to announce the time elapsed and when to take an extra break for longer sections when testing with extended time.

Administering Accommodated Breaks
Some students may be approved for extra and/or extended breaks. Break time is not included as part of testing time and is timed separately. Specific timing instructions may be noted on the NAR. During their breaks, students who are approved for accommodated breaks are still subject to the same regulations that apply to standard breaks. Post break times for the students as noted in the scripts.

- Students who are approved for extra breaks receive a break between each test section, and a break in the middle of sections 1, 4, and, for the SAT with Essay, 5 (the same breaks that extended time students receive). These breaks are noted in the scripts. Use Script 2 for students who are approved for extra breaks, and who are not approved for extended time.
- Give extended breaks to approved students by doubling the standard time of regularly scheduled breaks.
- For students who are approved for both extra and extended breaks, provide 10-minute breaks between each test section; if students ask to resume testing sooner, they may, but you should not prompt students to end their breaks early.
- When a student is approved for breaks as needed, they may break during a test section. Most students’ needs are met with a 10-minute break. However, if a student requests additional time, grant the request, within reason. This time does not count toward testing time. Use Script 1 unless the student is approved for other accommodations.

Administering Large-Type Tests
Students who are approved for Large-Type test books are approved for a specific font size, such as 14 point, 20 point, or larger. Make sure that each student is given their correct test book. Students who test with the 14-point test must test on the primary test date. Students who are approved for the 20-point or larger font must test during the window.

Students approved for use of a Large-Type test book are tested with standard time, unless also approved for extended time.

General Notes for Electronic Devices
Make sure that any electronic device used for testing, including a computer for use of an MP3 audio or ATC format, braille writer, or any magnifying machine, is not connected to the internet or to any network (disable all LAN or Ethernet connections). Disable all unapproved assistive features such as spell-checkers, grammar checkers, thesauruses, dictionaries, or word processing features (for example, cut and paste). Any device or computer or monitor connected to a magnifying device must not be able to copy, store, or print the magnified images. Any capability for recording, storage, snapshot, or transmission of data, whether in the form of pictures, text, or other information, is strictly prohibited.

All essays must be printed out according to the guidelines outlined in “Check and Test Computer Files.” All written responses must be deleted from the equipment following successful print out.

Administering MP3 and ATC
Students using the MP3 audio format must be given 100% extended time on the entire test, and in addition, must be given 45 extra minutes on Section 2, Writing and Language Test, to allow for software navigation. These students test over two days.
During the Test  Maintain Security in the Testing Room

Students using the ATC format should be tested with standard time unless they have been approved by the College Board for extended testing time due to disability. However, for Section 2, the Writing and Language Test, allow all ATC users 100% extended time to navigate between the questions and the answer choices. A student approved for more than 100% extended time should test with that time allowance. Administer the test one section at a time, with strict timing, just as you would a paper test. Monitor students to be sure they’re not accessing any other sites while working on the test.

The essay file can be found on the same USB flash drive as the multiple-choice sections.

Administering Braille Test Formats
The braille test is divided into several books, which you will distribute one at a time. The braille type used is Unified English Braille (UEB). The Math sections are in the 1972 revised Nemeth Code.

Students may use the Guide to the Nemeth Code if they are taking the braille format of the SAT. The braille math reference book contains math formulas and directions for use with all Math Test questions. A blue multiple-choice test book, Essay book, and a Reader’s Script are also provided to help interpret labels and numbers in the braille reference book.

Students recording answers on a braille device may also use scratch paper.

Administering Braille Graphs and Figures
Users of braille will receive a supplemental reference to braille graphs and figures. (As with the test itself, the braille type used is UEB, and the math material uses the 1972 revised Nemeth Code.)

Some students using other formats may be approved to use the braille reference as well. During the test, when questions in the math sections refer to figures, students may refer to either the regular-type or large-type test or to the book of braille math graphs and figures.

The braille reference information contains math reference material required for the braille test. All labels and numbers in that book are in braille. If a student doesn’t read braille but is approved to use the book of braille math graphs and figures, you may help them find their place. Labels and numbers given with figures can be found in corresponding locations in both the regular-type and large-type tests.

Administering Readers
Distribute any supplemental materials to the reader: a Reader’s Script, a Regular-Type test book for student’s use (unless the student is approved for large print), a separateEssay book (if applicable), and additional test materials for student use as approved by the College Board (for example, braille materials). Students who use readers in conjunction with other formats will find that the two texts differ slightly because the script read by a reader describes the figures in greater detail than given in other formats.

Administering Scribes
Scribes may only write what the student dictates; they may not prompt the student in a way that would result in a different response. Be sure to read the instructions given in the script to a personal assistant who is writing answers for a student.

Maintain Security in the Testing Room

Make sure you understand and follow these policies:

- Prepare your testing room by covering up or removing any instructive material, such as maps and charts.
- Follow scripts exactly and minimize confusion by giving students ample opportunity to ask questions about procedures.
- Remain vigilant at all times during testing. Staff must not engage in activities that are not related to testing, such as talking on phones (prohibited for staff as well as students), using a computer, or grading papers.
- Ensure that at least one staff member is in the testing room at all times.
- Ensure that students do not use calculators, phones, or prohibited aids during breaks.
- Monitor test materials at all times; do not leave them unattended under any circumstances.
- Guard against test materials being removed from the room.
- No one is permitted to access or use phones in the testing room, or to eat or drink during testing unless they have an approved accommodation.

IMPORTANT: Immediately report significant problems or events that interfere with specific testing procedures, or that compromise test security.

TASKS
Prohibited Aids
Once the opening scripts have been read to students, staff must dismiss any student seen with a cell phone or wearable technology during testing, including breaks. Anyone using other prohibited aids during any part of the administration, including breaks, should be warned and, if warranted, dismissed from the test.
Maintain Security in the Testing Room

During the Test

(The only exceptions are for College Board–approved accommodations for particular testing aids.) Note any such activities on an SIR.

Prohibited aids include, but are not limited to (unless approved as an accommodation):

- Mobile phones, smartphones, smartwatches, or other wearable technology
- Audio players/recorders, tablets, laptops, notebooks, Bluetooth, or any other personal computing devices
- Separate timers of any type
- Cameras or any other photographic equipment
- Pens, highlighters, and mechanical or colored pencils
- Books or references of any kind (not including ELL supports)
- Compasses, rulers, protractors, or cutting devices
- Papers of any kind, including scratch paper
- Earplugs
- Unacceptable calculators that have typewriter-like keypads, use paper tape, make noise, or use a power cord

**IMPORTANT:** Epinephrine auto-injectors (e.g., EpiPens) are permitted in the testing room without the need for accommodations. They must be placed in a clear bag and stored under the student’s desk during testing. For other medications/medical devices, contact the SSD office.

Monitor Students

- Walk around the room to check that everyone is working on the correct section.
- Make sure that students who are using a large-block answer sheet are following instructions on the front of the answer sheet about where and how to mark their answers.
- If a student misplaces answers on the answer sheet, follow the instructions in the Irregularity Chart in the Appendix.
- Make sure students do not use any prohibited aids, as instructed in the scripts. A list of prohibited devices is provided early in the script before answer sheets are distributed.

Monitor Students Approved to Type Their Essays

- Have students use the print layout view so that they can properly limit the length of their essays.
- Monitor students to make sure that they do not:
  - Exceed the page limit
  - Use any special word-processing features or access the internet (see “General Notes for Electronic Devices” earlier in this section)
- When time is called for the SAT Essay, tell students to stop typing and send the essay to the printer. Whether printing from a computer or other electronic aid, print the pages according to the page settings given in “Check and Test Computer Files.”

  - **Once the essay is printed, you will read a script instructing students to write their full name on the back of each sheet (in the center of the sheet), before they are collected.**
  - Check to make certain the essay file is deleted and the computer’s deleted items folder is emptied before turning off the computer.

Prevent Copying and Communication

Copying and prohibited communication are the most common ways for students to obtain an unfair advantage. Staff must:

- Watch for roaming eyes. Some students may try to copy from a neighbor.
- Carefully observe students using calculators. A smartphone can be disguised as a calculator with a plastic cover.
- Watch for signals. Students may signal across a testing room by using their hands, tapping their feet, using different colored pencils, and so on.
- Staff must always note any such activities on the SIR. They should immediately report significant problems or events that interfere with specific testing procedures or that compromise test security. If the Irregularity Chart indicates to call School Day Support, report the situation immediately.

Monitor Breaks

You and other testing staff will need to monitor students during breaks to make sure they don’t discuss the test, use calculators, phones, or prohibited aids. For the breaks:

- Post the break time and include what time students should return to their seats.
- Walk around the room to check that all test books are closed and answer sheets are placed inside them. Also check that any translated instructions or word-for-word glossaries are closed and left on the desks.
- Students are not allowed to use phones during breaks for any reason. Phones should be collected (if school policy permits), and must remain powered off and put away until the test is completely over.
- Students may eat and drink during breaks in designated areas, as long as they placed their food and beverages under their desks before the start of the test, as instructed. Do not allow students to access their bags or backpacks until the test is over.
- If students ask, they may go to the restroom, but under no circumstances should unsupervised groups of students be allowed to leave the room.
Report Irregularities

**IMPORTANT:** Immediately report significant problems or events that interfere with specific testing procedures, or that compromise test security, either before or on test day.

- Immediately inform the test supervisor of any timing irregularities.
- Record irregularities and actions taken on the Supervisor’s Irregularity Report (SIR).

**Complete the SIR**

This form is scanned, so use a No. 2 pencil, or a pen with black or blue ink, and do not write any notes or make any other extraneous marks on the form. Be sure to print all information neatly and fill in bubbles completely. Always include the names of students and the answer sheet litho code (eight-digit serial number from bottom right-hand corner of answer sheet) involved in an irregularity. (See the Appendix for a sample of a completed SIR.)

- For all irregularities, fill in items 1–4 (page 1) and item 10 (page 3) of the form.
  - In box 4a, write your 6-digit school (AI) code.
  - In box 4b, fill in the appropriate bubble for your test date. Fill in your primary or your makeup test date according to what administration you’re reporting about.
- To report a **group irregularity** (an issue that affects all or a portion of a testing room), fill in items 6 (page 1), 9 (page 3), and 11 (page 4) to denote the type of occurrence, describe the events and actions, and list information about the students affected. You will need to note the date of birth and answer sheet litho code (8-digit serial number), found in the bottom right corner of the answer sheet, for each affected student.
- To report an **individual irregularity** (an issue that affects one student, such as illness), fill in items 5 (page 1), 7 (page 2), and 9 (page 3) to denote the type of occurrence and the events and actions taken. Be sure to fill out the information in its entirety.
- In all situations, provide as much detail as possible. Do not attach answer sheets to the SIR, but return them to your supervisor with the other used answer sheets.

**KEY INFORMATION**

**Test Observers and Visitors**

Staff from the College Board, Educational Testing Service (ETS), or administrators from your district or school may visit your school the day of the test or the week preceding it. Verify that visitors have government-issued identification and a letter of authorization from the College Board or ETS, or the Department of Education.

Authorized visitors, including assistants for students with approved accommodations, are the only visitors allowed in the testing rooms. There are no exceptions. Keep unauthorized individuals out of the sight and hearing of the students until testing is complete and away from secure testing materials. Limit access to the testing rooms and adjoining hallways.

**Using the Irregularity Chart**

The chart in the Appendix is a compilation of the most common irregularities along with the procedures and actions you should use in response to them. When the chart indicates the need for immediate action, respond right away. The chart also indicates when you should complete and submit an SIR and when you should order makeup tests.

Use the SIR to record an irregularity, including:

- Security incidents
- Misconduct
- Test question errors or ambiguities
- Other incidents or disturbances
- Student complaints

Make sure reports are complete and explicit. Fill out just one form for each issue, even if it affects more than one student (such as mistiming).

Irregularities filed by associate supervisors must be countersigned by the test supervisor, who should add any information that might be useful. Tell students that a report will be submitted, but inform them that if they feel they were affected, they can call to file a complaint.
Begin the Test Here

Before starting the test, distribute translated directions and/or word-for-word glossaries for students who need them.

At all administrations, say:

Good morning. Today you are going to take the SAT.
This is your chance to show how prepared you are for college and career.

If you have questions about any of the instructions I give you, please ask them, so that you can be sure of doing your best. If you are using printed directions that are translated, open the booklet now to follow along as I give instructions.

In this room, you will be taking the test that I have posted on the board.

The College Board has rules that are designed to give each of you an equal opportunity to show your abilities. We will dismiss and cancel the scores of anyone who tries to gain an unfair advantage by:

- Giving or receiving help of any kind on the test
- Looking through the test book before the start of the test
- Working on the wrong section or looking at a previous or future section of the test book or answer sheet
- Using a calculator during a non-calculator section
- Marking answers after time is called
- Sharing test questions or answers with anyone during or after the test
- Using any unauthorized testing aids, including phones, during testing or on breaks
- Attempting to take the test for someone else

You may also be dismissed for:

- Eating or drinking during testing (unless this has been approved as an accommodation—otherwise, eating and drinking are only permitted during breaks)
- Causing a disturbance of any kind or distracting other students
- Going to your locker or leaving the building during breaks

You will have until 11:59 p.m. the fourth weekday from the end of the test to file a test day complaint. If you see any behavior that causes you concern, please notify the test supervisor, who will explain how to contact the College Board. Are there any questions? [pause]
(B) If your school has NOT chosen to collect personal belongings, say:

At this time, if you have a phone, or any other electronic device in your possession, you must disable any alarms, completely power it off, and put it away under your desk until the test is over. Any electronic device that is not turned off and put away may be confiscated and its contents inspected as part of a thorough investigation.

Allow time for students to turn in or put away any of these devices.

Now say:

Now we're going to prepare to start the test.

- Remove everything from your desk except your pencils and acceptable calculator.
- If you brought a backup calculator or extra batteries, get those out and put them on the floor under your desk.
- Place any water bottles and snacks under your desk. Close all bags and backpacks and put them under your desk until the test is over. [pause]

**IMPORTANT:** EpiPens are permitted in the testing room without the need for accommodations. They must be placed in a clear bag and stored under the student’s desk during testing. If needed during testing, monitor the student while using the device.

Once desks are cleared of prohibited items, say:

I will take a moment now to look around and make sure you are using approved calculators. [pause]

Walk around the room to make sure no one has the following unauthorized materials or aids on their desk (unless approved as an accommodation).

- Mobile phones, smartphones, or any wearable technology
- Audio players, recorders, tablets, laptops, notebooks, Bluetooth, or any other personal computing devices
- Separate timers of any type
- Cameras or any other photographic equipment

- Pens, highlighters, and mechanical or colored pencils
- Books or references of any kind
- Compasses, rulers, protractors, or cutting devices
- Papers of any kind, including scratch paper
- Earplugs
- Unacceptable calculators that have typewriter-like keypads, use paper tape, make noise, or use a power cord

If unauthorized devices or aids are displayed, have students remove them from their desks. If any students have mechanical pencils, give them No. 2 pencils to use instead.

Then say:

You may not share or exchange calculators at any time. Put your calculator under your desk now. You will not need it until a later section.

Make sure that students have put their calculators under their desks and that any phones have either been collected or are placed under the desk, not in a pocket.

**IMPORTANT:** If you are administering the SAT with Essay in your room, place the Essay books aside in a location where students can’t access them (these will be distributed after test books are collected as prompted in Section 5 scripting).

**Distribute Answer Sheets**

Distribute the answer sheets. If your school held a preadministration session, make sure that each student receives their own answer sheet with identifying information complete. Give any students who did not participate in a preadministration session a blank answer sheet or, if applicable, a prelabeled answer sheet. You may need to read both scripts (A) and (B) if you have a mixture of students with blank, prelabeled, or prepopulated answer sheets in your room. In addition, if your school requires all fields on pre-ID labels to be confirmed by having the student fill them in, read script (B) to students with pre-ID labels who haven’t yet completed these fields.

Next, say:

These are the answer sheets that you will use to mark your answers on the test.
Preadministration session: If all students in your room populated an answer sheet during a preadministration session, read script (A) and complete the actions after it if necessary. If any students in your room did not complete a preadministration session, read the scripts under (B).

(A) To students who have a populated answer sheet from a preadministration session, say:

Please check to make sure your correct legal name and date of birth appear on the answer sheet. Raise your hand if you have the wrong answer sheet.

If your answer sheet has a label, ensure that it is correct.

If there are students in the room who have the wrong answer sheet, try to resolve the discrepancy. If you are unable to do so, or if students have incorrect information on their answer sheets, give them blank answer sheets and read the scripts under (B). If all students in the room have correct answer sheets populated during a preadministration session, skip the scripts under (B) and proceed to “Distribute Test Books.”

(B) To students who need to complete fields on the answer sheet, say:

Fill in your full legal name in box 1 now. If your answer sheet has a label, please check that it is correct. If you find any errors, raise your hand and I will give you a replacement answer sheet. [pause]

If you have homeschooled students, tell them to fill in the bubble for “No, I am homeschooled” and to enter “970000” in box 3.

For box 5, say:

Fill in all three parts of your date of birth. Any two-digit fields need to start with a zero if the number is less than 10. Be sure to include the bubble for the first two digits of the year you were born. Raise your hand if you have any questions. [pause]

For box 12, say:

Turn to page 2 (or page 5 of the large-block answer sheet). Fill in the bubble for your current grade in box 12.

For box 15, say:

Find box 15 on page 3 (or page 6 of the large-block answer sheet). Mark the correct bubble in box 15.

Distribute Test Books

Now say:

I will now distribute your test books. Do NOT open them until I tell you to.

Distribute to each student the appropriate test materials in serial-number order.

IMPORTANT: Students must fill in the test book information on their answer sheets (boxes 44–46); without this information, their answer sheets cannot be scored.

Continue by saying:

Check to see that both the answer sheet and test book are for the version of the SAT that I have listed on the board—SAT or SAT with Essay.

When you get the test book, turn it over and read the back cover. It has important information about timing, marking answers, and scoring.

Then say:

When you have finished reading, please look up. [pause]

Are there any questions about what you just read? [pause]
After you have answered all questions, say:

The following instructions are critical to the scoring of your test. If you don't follow my directions exactly, you may not receive a score. Listen carefully.

Make sure you are using a Number 2 pencil and that you fill in the bubbles darkly and completely on the answer sheet. If you change your response, erase it as completely as possible. Avoid making stray marks, and do not use your answer sheet for scratch work.

Read the following script if anyone is using a large-block answer sheet.

To students using a large-block answer sheet, say:

If you are using a large-block answer sheet, also read the instructions on the front of the answer sheet about where and how to mark your answers. You will be marking an “X” in each relevant square rather than filling in bubbles, and the page numbers will be different from those that I announce.

When all students are ready, say:

On the back of your test book, print your last name, first name, and middle initial, if you have one.

Then print this school's code number, school name, and this room number (or name). [pause]

Check that students have filled in these fields, including room number/name, on their test books.

For the next set of instructions, students must correctly copy codes from their test books onto their answer sheets. This ensures proper scoring of their tests.

For the Form Code field, say:

On the back cover of your test book, find the box labeled “44-Form Code.” Copy the letters and numbers onto box 44 of your answer sheet exactly as shown on the back of your test and fill in the bubbles. [pause]

For the Test ID field, say:

Now find the box labeled “45-Test ID.” Copy the number onto your answer sheet in box 45. [pause]

For the Test Book Serial Number field, say:

Look at the front cover of your test book. Find the area in the upper right-hand corner of the test book labeled “Test Book Serial Number” and enter the number printed onto box 46, “Test Book Serial Number” on your answer sheet. Fill in the corresponding bubbles. [pause]

To all students, say:

Take a moment to ensure that the Form Code, Test ID, and Test Book Serial Number fields are completed correctly. It is critical that you enter the correct codes on your answer sheet. Otherwise, you may not receive scores.

Testing Room Code: If your school has assigned testing room codes, read script (A). If your school has not assigned testing room codes, read script (B). (Read only one option.)

(A) For the Testing Room Code, say:

In box 47 on your answer sheet, fill in the three-digit testing room code I have posted for you. [pause]

(B) For the Testing Room Code, say:

Leave box 47 blank on your answer sheet.

Check that students are filling in the correct codes.

To all students, say:

Now listen to this important information. First, if you wish to cancel your scores before you leave, ask me for a Request to Cancel Test Scores form, which you must complete before you leave the room. To cancel your scores later, you must notify the College Board in writing no later than 11:59 p.m. on the fourth weekday from today.

Send your signed cancellation request by overnight mail or fax. You cannot cancel your scores with an email message or phone call.

Second, if you finish before time is called, you may check your work on this section, but you may NOT turn to any other section. You may use the test book for scratch work, but you must mark your answers on the answer sheet unless you are approved to mark them in your test book. After time has been called, you may not transfer answers from your test book to your answer sheet or fill in empty bubbles.

Third, during testing, keep your answer sheet and test book flat in the center of your desk. If you find something wrong with your answer sheet or test book, such as a missing page, or if you realize that you have
been writing answers in the wrong section of your answer sheet, raise your hand.

Finally, answer sheets and test books must never be removed from the testing room.

I will walk around the room to check your progress. I will also keep the official time for the test. You will have breaks during the test when you can leave this room to have a snack or use the restroom.

Remember, after the test has ended, no one may leave the room until I dismiss you. If you have any questions about testing procedures, please ask them now. I cannot answer questions during the timed sections of the test.

[pause]

**Specific Format Instructions**

- **If you have students who are using a scribe, reader, ATC, or braille format, find and read the appropriate instructions that follow before proceeding to the script that is appropriate for the students in your room.**

- **For all other students, proceed to the appropriate script now.**

---

**To a scribe, say:**

Please follow these instructions.

- You must write only what the student dictates.
- You may not prompt the student in a way that would result in a different response.
- If the student uses a word that is unfamiliar to you or that you don't know how to spell, ask the student to spell it.

---

**To a student who is using a scribe, say:**

Your answers and any corrections will be recorded as you dictate them. If you want to review your work, your answers will be read to you. Do you have any questions? [pause]

---

**To a reader, say:**

If you are reading the script to a student, please read questions as often as requested. It's important to read only what is in the script. Do not elaborate beyond what is in the script, even if the student asks for it. If a student using the braille math graphs and figures doesn't read braille, you can find the labels and numbers in corresponding locations in the regular-type books, if needed. Do you have any questions about these procedures? [pause]

---

**For students using braille format, say:**

The braille test is divided into several books. You will be given one book at a time. The Reading and Writing and Language sections are in regular grade 2 braille. Throughout the test, each question is separated from another with a line. Each question begins in cell 1, with runovers beginning in cell 5. Each answer choice begins in cell 3 with runovers beginning in cell 5.

The braille type used is Unified English Braille (UEB), and the Math sections are in the 1972 revised Nemeth Code. The braille math reference book contains math formulas and directions for use with all mathematics sections.

If you are using a braille device to record your answers, on each page you use, type your full name and the number of the section on which you are working. Type the question number as well as your answer. It is not necessary to capitalize your answer choices.

Do you have any questions about these procedures? [pause]

---

At the end of a section, if a student has finished with a braille book, collect it and give the student the next braille book just before the next section begins.

**To students using the ATC format, say:**

Today you will be taking the test in a format that is compatible with your screen reader or other software. I have loaded this Assistive Technology Compatible or “ATC” format onto the computer that is on your desk.

Please prepare for testing now by opening and reading the electronic document called “Beginning Directions and Information for Users of ATC.” When you are finished reading the document, please click the minimize button and look up. [pause]

During the test, you will be reading the same directions on the screen as other students who are reading in their test books. All the directions for timing and other procedures that I read apply to you. When I tell you to start testing in a section, you’ll need to open the correct section file and type in your password, which is printed on the inside of your test packaging. When I call time, you’ll need to stop testing and close the file. Are there any questions? [pause]
Script 1: Standard Time for Accommodated Students (No Extra Breaks)

Use this script to administer the following accommodations:

- Students with standard timing accommodations (example—small group setting or permission to test blood sugar).
- Students testing with extended breaks or breaks as needed.
- Students testing with accommodations for extended time in math only and/or writing only. (You will see instructions for where to switch to Script 3 or 5 for these students.)

When everyone is ready, say:

Once we begin, you will have 65 minutes to work on Section 1, the Reading Test. We will take a short break when this section is finished. Please keep your calculator under your desk; you won’t need it for this section.

Make sure you are using a Number 2 pencil and that you fill in the entire bubble darkly and completely. If you change your response, erase it as completely as possible. If you finish before time is called, you may check your work in this section, but you may NOT turn to any other section.

Remember that you receive points for correct answers, but you don’t lose points for incorrect answers. That means you should try to answer every question, even if you’re not sure of the correct answer.

Please find Section 1 on your answer sheet. Be sure to mark your answers in the numbered spaces that correspond to the numbered test questions in Section 1. Now, open your test book to Section 1, read the directions, and begin work. Time starts now. Good luck.

After 30 minutes, say:

You have 35 minutes remaining in this section.

After 60 minutes, say:

You have 5 minutes remaining in this section.

After exactly 65 minutes, say:

Stop work and put your pencil down. [pause] Close your answer sheet and place it inside the front of your test book. Close your test book and leave it on your desk. We’ll take a break now for 10 minutes.

If you brought a snack, you may eat it in designated areas only. Don’t go anywhere other than designated areas, the hallway, or the restroom. Don’t talk in the hallway or discuss the test questions with anyone. Be considerate of those in other rooms.

We will start testing again in exactly 10 minutes.

If you did NOT collect electronic devices, say:

You may not use a phone or any other electronic device on this break or any other break during the test. Any phones or other devices must remain turned off and put away under your desk.

For the Break

- Post the break time of 10 minutes and the time testing will resume.
- Walk around the room to check that all test books are closed and that answer sheets are inside the test books.

At the end of the break, say:

Please take your seat.

Certification Statement

Before beginning Section 2, students must complete and sign the Certification Statement. Students whose disabilities prevent them from writing the statement should leave it blank. However, they should be encouraged to sign their names.

When everyone is ready, say:

When you submit your answer sheet, you are agreeing that you will not, under any circumstances, take any test questions from the testing room, give them to anyone, or discuss them with anyone through any means, including but not limited to email, text messages, or the internet. These conditions are spelled out in the SAT School Day Student Guide and online at sat.org.
Section 3—Math Test – No Calculator

Take out your answer sheet, but leave your test book closed. Turn to the back of your answer sheet, and find box 48, the Certification Statement. After reading the paragraph of terms at the bottom, copy the statement in your usual handwriting style—print or cursive is fine. Then sign your full name as you would on an official document. Next to your signature, enter today's date. Look up when you are done. [pause]

Walk around the room and ensure that all students are writing the Certification Statement.

(Percentage and square root functions are permitted.)

When everyone is ready, say:

Once we begin, you will have 25 minutes to work on Section 3, the Math Test without Calculator. We will take a short break when this section is over.

Although this is a math section, you are NOT allowed to use a calculator on this portion of the test and must keep your calculator under your desk unless you have an approved accommodation to use a four-function calculator.

- Keep it flat on your desk or hold it so that other students can't view your work.
- Do not share or exchange your calculator.
- If you brought a backup calculator or batteries, keep them on the floor underneath your desk.
- If your calculator malfunctions and you have batteries or a backup calculator, raise your hand. I will see if your substitute is acceptable. If you do not have a backup, continue to test. All math questions can be answered without a calculator.

For the break
Post the break time of 2 minutes and the time testing will resume.

At the end of the break, say:
Please take your seat. [pause] I will now collect your test books. You’ll need to keep your answer sheet for the Essay section of the test. Please sit quietly while I collect and count the test books.

Collect the test books in the same order in which you distributed them. Count the books to ensure you have the correct number before beginning the next section.

Do not distribute Essay books until you have collected and accounted for all test books and read the first script under Section 5. Place the test books where students cannot access them.

Section 5—SAT Essay

IMPORTANT: For 50% extended time on writing only, turn to Script 3, Section 5—SAT Essay on page 47.

IMPORTANT: For 100% extended time on writing only, turn to Script 4, Section 5—SAT Essay on page 53.

To students who are taking the SAT with Essay, say:
Open your answer sheet to the start of Section 5 on page 6 (or page 34 in the large-block answer sheet). Take a moment to read the statement about the use of your essay, then decide whether or not to mark the bubble (or square). When you have finished, please look up. [pause]

I will now give an Essay book to each of you. Please don’t open your Essay book until I tell you to do so.

Distribute an Essay book individually to each student. If a student is approved to use a Large Type test book, give them the appropriate Large Type Essay book.

Before reading the next script, fill in the school and room information to give to students.

IMPORTANT: Students must write their essays on their answer sheets. They may NOT use scratch paper.

When all students have an Essay book, say:
On the back of your Essay book, print your last name, first name, and middle initial, if you have one. Then print this school’s code number, ___________ school name ___________, and this room number (or name) ___________. [pause]

Once we begin, you’ll have 50 minutes to work on Section 5, the SAT Essay. You may make notes and plan your essay on the unlined Planning Page, but anything written there will not be scored. When you’re ready, you’ll need to start writing your essay on the first lined page, which says “Begin Your Essay Here.” You must write your essay on the appropriate answer sheet pages and within the marked margins. Don’t keep writing past the word “STOP” on the last lined page, because anything written past that point will not be scored. No extra pages are allowed. You must write your essay using a Number 2 pencil. If you don’t use a Number 2 pencil, your essay will appear blank. If you leave the essay blank, you will receive an Essay score of zero.

To students using a computer for the Essay, say:
When using a computer for the Essay, you may not use any special word processing features, applications, software, or assistive technology unless it has been specifically approved. If you are using a test book with larger type size, you may use that type size for your essay. Four pages are allowed for regular type, 6 pages for 14-point type, and 10 pages for 20-point type. Any pages beyond your appropriate page limit will not be scored.

Your typed essay is what will be seen by readers and by colleges to which you send scores. I will come by now and make sure you are set up properly for typing your essay.

Do you have any questions? [pause]

See Check and Test Computer Files on page 12 if you need to adjust computers for the Essay.

If you have students using a computer for writing the essay, when time is called for the SAT Essay, tell students to stop typing and to send the essay to the printer. Whether printing from a computer or other electronic aid, print the pages according to the page settings given in “Check and Test Computer Files.” Once the essay is printed, have students write their full name on the back of each sheet (in the center of the sheet), and hand the sheets in with the Essay books.

Testing is now complete. Proceed to After the Test on page 69 and follow the instructions to collect answer sheets and test materials before dismissing students.

Certification Statement
Before beginning Section 2, students must complete and sign the Certification Statement. Students whose disabilities prevent them from writing the statement should leave it blank. However, they should be encouraged to sign their names.

When everyone is ready, say:

When you submit your answer sheet you are agreeing to the following conditions: You will not, under any circumstances, take any test questions from the testing room, give them to anyone, or discuss them with anyone through any means, including, but not limited to, email, text messages, or the internet. These conditions are spelled out in the SAT School Day Student Guide and online at sat.org.

Take out your answer sheet, but leave your test book closed. Turn to the back page of your answer sheet, and find the Certification Statement box. To students using a computer for the Essay, say:

When using a computer for the Essay, you may not use any special word processing features, applications, software, or assistive technology unless it has been specifically approved. If you are using a test book with larger type size, you may use that type size for your essay.

Four pages are allowed for regular type, 6 pages for 14-point type, and 10 pages for 20-point type. Any pages beyond your appropriate page limit will not be scored.
Your typed essay is what will be seen by readers and by colleges to which you send scores. I will come by now and make sure you are set up properly for typing your essay. Do you have any questions? [pause]

See Check and Test Computer Files on page 12 if you need to adjust computers for the Essay.

To all students, say:

On a Chromebook, click the Pause or Play icon on the media player menu.

You can move forward and backward within a track by clicking on a position on the timeline ribbon at the bottom of the media player screen. This area displays buttons that correspond to the audio playback controls.

Double-click on or otherwise select a track in the list to skip directly to the beginning of that track. If you are using a PC or Mac, you can also use keyboard commands for skipping tracks. Press Control or Command and the letter “B” to skip back to a previous track, and Control or Command-F to skip forward to the next track.

There are no fast forward or rewind controls.

Click and drag the volume control slider to change the volume. If you need assistance at any point, raise your hand.

Audio playback will stop automatically at the end of the last track for the section. If your track ends before time is called, you can return to any tracks within the section to review your work.

During the test, I will flick the lights or tap your shoulder whenever I post the time remaining or to signal that it is time to stop and take off your earphones.

Are there any questions about the information that I have just read? [pause]

Follow standard admission procedures, including those for collecting personal belongings. Seat students in the same seats according to your seating chart from Day 1.

Preparing to Test
Students may have additional aids on their desks, such as a talking calculator, if this accommodation was approved through the eligibility process.

If you are administering the SAT with Essay, set aside the Essay packages and books in a location where students cannot access them. These will not be distributed until after the multiple-choice test books have been collected once Section 4 has been completed.

Start by saying:

Good morning. Now we’re going to prepare to start the test.

Please sit quietly while I distribute your test materials. When you receive them, please check to make sure they are yours. Raise your hand if the answer sheet, test book, or USB drive package does not display your name.
Distribute the designated test book and answer sheet from Day 1 to each student. Make sure every student or writer has a No. 2 pencil. Check to ensure that no one is using pens or mechanical pencils. Distribute paper to students who are approved to use scratch paper.

Directions for how to grid your answer to the questions labeled “Student-Produced Responses” are in your test book. These student-produced answers may be shorter, but not longer, than four characters.

To all students, say:

To all students writing the Essay on an answer sheet, say:

You may make notes and plan your essay on the unlined Planning Page, but anything written there will not be scored. When you’re ready, you’ll need to start writing your essay on the first lined page, which says “Begin Your Essay Here.” You must write your essay on the appropriate answer sheet pages and within the marked margins. Don’t keep writing past the word “STOP” on the last lined page, because anything written past that point will not be scored. No extra pages are allowed. You must write your essay using a Number 2 pencil. If you don’t use a Number 2 pencil, your essay will appear blank. If you leave the essay blank, you will receive an Essay score of zero.

To students using a computer for the Essay, say:

When using a computer for the Essay, you may not use any special word processing features, applications, software, or assistive technology unless it has been specifically approved. If you are using a test book with larger type size, you may use that type size for your essay.

Four pages are allowed for regular type, 6 pages for 14-point type, and 10 pages for 20-point type. Any pages beyond your appropriate page limit will not be scored.

Your typed essay is what will be seen by readers and by colleges to which you send scores. I will come by now and make sure you are set up properly for typing your essay.

Do you have any questions? [pause]

See Check and Test Computer File on page 12 if you need to adjust computers for the Essay.

Congratulations—you just finished the test! Before I collect your test materials, please turn over your answer sheet and check that you have filled in the form code in box 44. This form code is required for scoring your test. Please raise your hand if you need help completing the box.

For a student in the Essay room who has already had their test book collected, you will need to retrieve the multiple-choice test book and provide the form code from the back cover to them.

Next, say:

I will now collect your test materials. Please sit quietly until I dismiss you.

Collect Test Materials

TASKS

Collect Test Books and Other Test Materials
Collect a multiple-choice or Essay book from each student in the order in which they were distributed. Collect other test materials except for answer sheets, including scratch paper and any translated instructions, at this time as well. Place them where students cannot access them.

After exactly 50 minutes (from the break), say:

Stop work, put your pencil down, and remove your earphones. [pause]

Click the square “Stop” button at the bottom of the media player window. Or click the “x” to close the media player on a Chromebook. Close your answer sheet and your Essay book, and place the answer sheet on top of the booklet.

If you have students using a computer for writing the essay, when time is called for the SAT Essay, tell students to stop typing and to send the essay to the printer. Whether printing from a computer or other electronic aid, print the pages according to the page settings given in Check and Test Computer Files on page 12. Once the essay is printed, have students write their full name on the back of each sheet (in the center of the sheet), and hand the sheets in with the Essay books.

1. If testing students using MP3 audio or ATC format, collect the flash drives. Walk around the room to close each media player. Click on the “X” in the upper right corner of the media player window, or click on “File” and select “Exit” from the pull down menu. Then eject the USB flash drive by doing the following:
   a. For PCs, in the notification area in the lower right corner of the monitor, select “Show hidden icons,” select “Safety remove hardware and eject media,” and then click on “Eject USB Disk.”
   b. For Mac computers, eject the USB flash drive by clicking on the up arrow next to the icon under DEVICES.
   c. For Chromebooks, click on the eject icon next to the USB drive in the devices list.

2. Place each drive in the original package for each student.

3. Before powering off each computer, ensure that the cache is emptied and that no files have been copied onto the computer.

Before collecting answer sheets:

- Identify any students who began the test with blank answer sheets. Also identify any students who have filled in their personal information but want change their choices of where to send their scores in box.
22. Ask them to wait quietly while you dismiss students who are finished.

- For students who have completed the personal information on the answer sheets, proceed to Collect Answer Sheets on page 71. When you have dismissed these students, return to Completing the Answer Sheets on page 71 for any students remaining.

Completing the Answer Sheets

- Distribute a copy of the Student Answer Sheet Instructions to students remaining in the room.
- For students who simply want to change their score sends, use the instructions and script for box 22 under Script for Student Answer Sheet Instructions on page 19 then continue on to Collect Answer Sheets on page 71.
- For any students who started with blank answer sheets, continue with the scripts below.

When students are ready, say:

As part of SAT School Day, you will now have a chance to answer some questions about yourself and your college plans and to select up to four places or programs to send your scores to.

If you’re using a large-block answer sheet, your page numbers will be different from those I announce, but the field numbers will be the same as the box numbers I give for everyone.

For boxes 6–10, say:

If you have a label on your answer sheet, check to see if the address printed on it is correct. If it is, don’t make marks in boxes 6 to 10. If you have no label or the address is incorrect, turn to page 2, and fill in your address in boxes 6 through 9. Leave box 10 blank. Raise your hand if you have any questions. Look up when you’re done. [pause]

To all students, for box 11, say:

Box 11 asks for your U.S. mobile number. Only U.S. mobile numbers are accepted. By providing your number, you agree to receive text messages from the College Board about the SAT, to participate in research surveys, and to get free information on college planning services. Standard text messaging rates apply. You may opt out at any time. The College Board will not share your phone number with other organizations.

If you agree to these terms, enter your phone number. Please look up when you’re done. [pause]

For box 13, say:

Turn to page 3. If you’d like to get information from the College Board via email, including information about your scores once they become available online, write in your email address and fill in the corresponding bubbles in box 13. Indicate at the top of the box whether this is your own email address or a parent or guardian’s address. If you give your own email address (not a parent’s or guardian’s) and opt in to Student Search Service at the end of this session, you may get information from colleges sent to your email address. I’ll tell you more about Student Search Service in a few minutes. Please look up when you’re finished. [pause]

For box 14, say:

In box 14, fill in the bubble for the month you expect to graduate from high school. Then print the two digits for your graduation year in the boxes and fill in the corresponding bubbles. [pause]

Now say:

We’re now going to skip ahead to question 23.

Box 23–Student ID/Social Security Number:

If your students have pre-ID labels that include this information, as noted on the Pre-ID Supplemental Instructions for SAT School Day, you can skip box 23. Otherwise, read script (A) if your school uses student ID numbers, or read script (B) if your school uses Social Security numbers.

(A) To students who need to fill in box 23, if your school uses student ID numbers, say:

In box 23, fill in the bubble labeled “Student ID Number,” then print and bubble in your student ID number, starting with the first column to the left. If there are letters in your ID number, skip them and only enter the numbers. Look up when you’re done. [pause]

(B) To students who need to fill in box 23, if your school uses Social Security numbers, say:

In box 23, fill in the bubble labeled “Social Security Number,” then print and bubble in your nine-digit Social Security number starting in the first column on the left. Do not include dashes or blanks. If you do not have a Social Security number, don’t know it, or don’t want to give it, leave box 23 blank. Look up when you’re done. [pause]
Turn to Script for Student Answer Sheet Instructions on page 19 to instruct each student to fill in their personal information in boxes 22 and 24 through 43 on the back pages of their answer sheet.

Collect Answer Sheets
Collect an answer sheet (and instructions booklet, if applicable) from each student. For each student, before moving on to the next person, do the following:
- Check to see that all the identifying information on the answer sheet is complete. Ensure that the letters in box 1, “Name” correspond to the filled bubbles in each column. Flip the answer sheet over to make sure students have completed the “Complete on Test Day” section.
- If there is a discrepancy, ask the student to show ID and explain the discrepancy. Document the discrepancy on an SIR.
- If you suspect impersonation, note the student’s name on the SIR. Notify the supervisor immediately.

Before Dismissing Students
Make sure answer sheets are not inserted in or between test books or Essay books (if any).
- Verify by count that you have a multiple-choice test book, an Essay book (if any), and answer sheet for each student.
- Verify by serial number that you have collected the test books assigned to your room.
- Keep students seated until you are sure you have an answer sheet and the testing materials assigned to each student.
- Make sure students have completed their name (box 1), school information (2–3), date of birth (5), and test book information (44-46) on their answer sheets. These fields must be completed for a student to receive a score report.
- If you have any students who are approved to write their answers in the test book, you must ensure that their answer sheets include the students’ personal and test information for these fields before dismissing students. You must transcribe their answers after students are dismissed.

After all materials are accounted for, say:
Remember, you should not, under any circumstances, take any test questions from the testing room, give them to anyone, or discuss them with anyone through any means, including email, text messages, or the internet.

To students in the SAT with Essay room, say:
In addition, you are not permitted to discuss or share today’s essay question until after the essay is available online.

Returning Collected Items:
If you have collected personal belongings from students, read script (A). If you have not collected any belongings, read script (B). (Read only one option.)

(A) To students who need to collect their belongings, say:
This test administration is now over. As you prepare to leave, please come up and retrieve your personal belongings that I collected from you earlier. Once you have all your belongings, you may exit the room quietly. Please keep in mind that students in other rooms may still be testing. Congratulations again and thank you for your participation and for all of your hard work.

(B) To students who have all their belongings, say:
This test administration is now over. Gather your belongings, and exit the room quietly. Please keep in mind that students in other rooms may still be testing. Congratulations again and thank you for your participation and for all of your hard work.

After Students Leave the Room
- Complete and sign the Testing Room Materials Report form and seating chart.
- Describe any discrepancy on the SIR.
- A completed answer sheet must be submitted for a student to receive a score report. You or a proctor or other assistant must:
  - Transfer responses from braille or computer pages to the regular answer sheet pages.
  - On the materials from which you transferred answers, write the student’s name, six-digit AI code, and answer sheet litho code.
- If you have any students approved to write their answers in the test book, do the following:
  - On the test book, write the student’s name, six-digit school (AI) code, and litho code (8-digit serial number) from the shaded box on the bottom right corner of the answer sheet.
After the Test  After Students Leave the Room

- Include the test books with the used answer sheets and deliver them to the test supervisor to return with the used accommodated answer sheets.
- Return the completed Testing Room Materials Report form with all test materials and forms to the supervisor.
- Make sure your room roster or NAR identifies who was present or absent. Return the annotated room roster or NAR to the supervisor.

**TASKS**

**Preparing the Essay for Scoring**

- Ensure that each essay page includes identifying information so that the essay can be matched with the student’s answer sheet. On the back of each page—leaving a minimum of a 2-inch margin at the top and a 1-inch margin at the bottom, left, and right of the page—write the following information:
  - Name (if not already printed by the student)
  - Six-digit school (AI) code
  - Original answer sheet litho-code number (shaded box in the bottom right corner of page 1)
- Attach the typed essay page(s) by paper clip to the student’s answer sheet.
- If the essay cannot be included with the answer sheets (e.g., printer failure), note this on an SIR. Do not allow retyping of an essay for any reason once the test is over. Doing so will result in score cancellation.
- Check to make certain the essay file is deleted and the computer’s deleted items folder is emptied before turning off the computer.

**Finish Up**

- Check the testing room to make sure nothing has been left behind.
- Check that all USB flash drive formats have been returned to their packaging.
- Ensure that all temporary files are deleted from computers.
- Fill out an SIR if you encountered an irregularity.
- Include all materials from which you transferred answers with the used answer sheets when you return materials to the test supervisor.
- Complete and sign the Testing Room Materials Report form.
- Return the completed Testing Room Materials Report form, the NAR, and all test materials and forms to the test supervisor.
