

SAT[®] Student Data Questionnaire Supplemental Instructions for Students

This document is to assist you in completing the SAT Student Data Questionnaire. Completing the Student Data Questionnaire is **voluntary and optional**, but it is recommended that you consider doing so. To participate in the questionnaire, you must complete the Student Data Consent Form and return it to your school along with these instructions, indicating that you have reviewed the supplemental instructions and agree to share your information. If you consent to completing the questionnaire, you will receive a copy of these instructions again for use when completing the questionnaire.

One of the primary benefits of completing the Questionnaire is to opt into Student Search Service[®], which helps connect you to college and scholarship opportunities that align to your interests. If you choose to complete the survey, a minimum number of fields are required. The data you provide will be added to your College Board student record even if you choose to not participate in Student Search Service. Additional information about each field can be found in the *Registration and Questionnaire Booklet* distributed by your school and is located at collegeboard.org/colorado. Your responses will:

- Give your counselors and college admission officers information to use in assisting you with making plans for the future. The more information you provide, the more assistance they may be able to give you.
- Provide information to the College Board that helps to ensure that the SAT is a fair and accurate test for all students.
- Be used by the College Board for research and planning to improve our tests and services.
- When combined with those of all other students taking the SAT, contribute to an understanding of your graduating class, which can assist colleges and universities in delivering programs and opportunities to serve you and your classmates.
