# What's Next for You and Your Students

## Next Steps for Students Age 13 and Over

1. Create a College Board account at [studentscores.collegeboard.org](https://studentscores.collegeboard.org) and get their full PSAT™ 8/9 score report.
2. Use other tools like BigFuture™, which are available via their online PSAT 8/9 score report. Students can also explore college majors and career areas with College Board and Roadtrip Nation®.

## Next Steps for Educators

1. Review the Instructional Planning and Question Analysis reports to identify your students' strengths and weaknesses in each content area at [k12reports.collegeboard.org](https://k12reports.collegeboard.org).
2. Distribute paper score reports, and help students interpret them.
3. Use the AP Potential™ tool at [appotential.collegeboard.org](https://appotential.collegeboard.org) to identify students who are likely to succeed in AP®. Use your school's AP Potential code, located on your school summary report, to access the tool.
